(b) When an application for blanket license is submitted, permission to export to one or more of the consignees and purchasers named may be refused by blocking out the name of the consignee and purchaser with respect to whom the application has been denied. In such case the license shall be valid only for shipments to the remaining approved consignees and purchasers.

Such exportation shall be permitted notwithstanding any conflicting provisions in the terms, conditions or provisions of the form on which the application for a blanket license has been made. In any case where an Import Recommendation issued by a designated government agency of the country of destination is required as a condition to the issuance of an export license for a particular commodity to a designated consignee, such commodity may not be exported to such consignee under a blanket license in quantities in excess of the amount approved for such consignee in said Import Recommendation.

(d) Insofar as consistent with the provisions of this part, all of the provisions of Part 804 of this subchapter shall apply equally to applications filed for blanket licenses and blanket licenses issued under the provisions of this part.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[M–328B,[1] Direction 10]

USE OF CC RATINGS IN FIRST QUARTER OF 1946 UNDER SCHEDULE C

The following direction is issued pursuant to M–328B:

(a) *Purpose.* The purpose of this direction is to state the rules governing the yardage for which CC ratings may be used in the first quarter of 1946 under Schedule C of Order M–328B.

(b) *Restrictions on use of M–328B CC ratings to get certain fabrics.* (1) On and after March 6, 1946, no person may place any orders bearing CC ratings assigned under Schedule C of M–328B for carded broadcloth of any sley, or carded poplins, sley of 88 and higher, except for incorporation into men's and boys' shirts and shorts (Items No. 4, 5, 6, 7, 32, 33 and 35 on Preference Rating Schedule No. 2, and Items No. 4 (a), 4 (b), 6 (a), 6 (b), 32, 33 and 35 on Preference Rating Schedule No. 3.) CC rated orders placed before March 6, 1946, are not affected by this provision and remain valid.

(2) Any manufacturer who is prohibited by the provisions of paragraph (b) (1) from using for any item CC ratings for the fabrics listed, may, however, use CC ratings to get any other fabric permitted for that item on Preference Rating Schedules No. 2 or 3 in an equivalent yardage.

(c) *Quantities and kinds of fabric which may be received on ratings.* (1) Authorizations on Form CPA–3732 under Schedule C for the first quarter of 1946 assign CC ratings for the total yardage of all fabrics which may be obtained for an item. The yardage (explained in (c) (2) and (c) (3) below) may be divided up in any way among the fabrics listed on the Preference Rating Schedules for that item, subject to the rule stated above in paragraph (b).

(2) Any person who receives an authorization for an item on Schedule C on Form CPA–3732 for a yardage which was 75% or more of the total yardage of all fabrics for which he was assigned CC ratings for that item in the fourth quarter of 1945, is governed by the following rule. He may not receive on M–328B CC rated orders after he gets his CPA–3732 authorization for an item any

[1] 11 F.R. 234, 238, 341.

fabric which will make his total receipts of all fabrics for that item in the first quarter of 1946 on M-328B CC ratings exceed the yardage authorized on Form CPA-3732 for that item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(3) Any person who receives an authorization on Form CPA-3732 for any item for less than 75% of the total yardage of all fabrics allocated to him for that item in the fourth quarter of 1945, may use CC ratings to get in the first quarter of 1946 75% of the yardage for which he was assigned CC ratings for all fabrics for the fourth quarter of 1945 for the same item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(4) Any person who has actually received on CC ratings under paragraphs (c) (2) and (f) (2) of Order M-328B more than the yardage to which he is entitled under this direction, may not receive any more fabric on M-328B CC ratings in the first quarter of 1946 for the particular item. He must, however, use all of the yardage obtained before then to make the item for which the rating was authorized.

(5) Any person who has placed CC rated orders for more yardage than he is authorized to receive under this direction must immediately unrate or cancel orders for the excessive yardage as explained in paragraph (c) (4) of Order M-328B.

Issued this 6th day of March 1946.

CUSTOM MILLING AND KILN DRYING OF SOFTWOODS AND HARDWOODS IN THE NORTHEASTERN AREA

Maximum Price Regulation 539A is redesignated Revised Maximum Price Regulation 539A and is revised and amended to read as follows:

In the judgment of the Price Administrator, the maximum prices established by this regulation are, and will be, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the industry affected.

AUTHORITY: § 1499.2277 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487.

SECTION 1. *Sales of custom milling or custom kiln drying services on hardwood or softwood lumber at higher than maximum prices prohibited.* (a) On and after March 11, 1946, no person shall sell or provide, and no person shall buy or receive in the course of trade or business, any "custom milling services", as defined in section 3 below, on hardwood or softwood lumber covered by this regulation at prices higher than the maximum prices set by this regulation; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 2. *What lumber is covered.* This regulation covers custom milling and kiln drying of all softwood lumber (except Western softwoods which are defined in and covered by RMPR 539) and all hardwood lumber regardless of the area in which it is produced, when custom milling or kiln drying is performed in the area defined in section 3 (a).

SEC. 3. *What services are covered.* (a) This regulation covers "custom milling and kiln drying services" on all woods other than Western softwoods when performed in the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island or Vermont.

(b) "Custom milling services", as used in this regulation, means all operations upon lumber, as distinguished from logs, which are customarily performed by a sawmill, or operations upon lumber for which maximum prices are fixed in the basic mill regulation covering direct-mill sales of the various species of lumber.

(c) The following are not "custom milling services" even though performed by a "custom mill" as defined in section 4 below:

(1) Milling or kiln drying services performed upon lumber in which the mill performing the service has or had any financial interest, direct or indirect, other than such interest as arises from the performance of the services.

(2) Milling or kiln drying services performed on lumber which was produced by a sawmill, or sold by or handled through a wholesaler or commission merchant, or processed by a concentration yard, any one of which has a financial interest in the mill performing the services.

(3) Milling or kiln drying services by a custom mill owned or operated by a distribution yard when performed on lumber which has been, is or becomes part of the regular stock of the yard.

(4) Milling or kiln drying services performed on lumber which the seller has arranged to have milled or kiln dried in transit and which he sells and ships from the point of origin in any manner other than as a sale f. o. b. sawmill or other point of origin under the appropriate mill regulation.

In any of such cases, the maximum prices which the seller may charge the purchaser for both the lumber and for milling or kiln drying are the ceiling prices fixed in the appropriate mill regulation for the end product reaching the purchaser after milling or kiln drying. In any of such cases, the person performing the milling or kiln drying of the lumber may not invoice the purchaser for custom milling at the maximum prices fixed in this regulation.

Nothing in this section, however, shall prevent the person performing the milling and/or kiln drying services from charging the maximum prices in this regulation to any wholesaler or mill which ships lumber to be custom milled in the manner described in subparagraph (3) above: *Provided*, That the shipper agrees to bear the custom milling charges when the same are not permitted to be passed on to the purchaser under this section.

SEC. 4. *What is a custom mill.* A custom mill is an establishment, whether known as a planing mill, distribution yard, or anything else, which performs custom milling services or kiln drying upon softwood or hardwood lumber in which it has or had no financial interest, other than such interest as arises from the performance of the services, and which either:

(a) Meets the following test: It does not operate, or have a financial interest in a mill which produces lumber, or in a wholesaler or commission merchant of lumber, or in a concentration yard which processes lumber; or

(b) Obtains authority to operate as a custom mill under the following rules:

(1) Application must be filed with the Regional Office of the Office of Price Administration for the region in which the applicant's mill is located, specifying:

(i) The location of the plant, with a description of the physical layout of

operation in relation to any other activities relating to lumber carried on by the applicant, wherever located.

(ii) The extent of ownership or control or financial interest in or by any other operation relating to lumber, or of common ownership, control or financial interest, giving name, location, and nature of the operations.

(iii) Applicant's milling facilities and the capacity thereof in M'BM per day, together with a statement of total footage in rough boards, and rough or surfaced dimension, plank and timbers, and of green or partially dry lumber in the sizes sold during the 30 day period preceding date of application.

(iv) Any other information the applicant may wish to submit.

(2) Special written authorization under this paragraph (b) will be granted only where the application enables the Regional Office to make findings that the authorization:

(i) Will result in a greater production of surfaced boards or kiln dried lumber.

(ii) Will not encourage producing sawmills having remanufacturing and kiln drying facilities to ship their lumber green, partially dry, rough, or in thicknesses over 1".

(iii) Will provide necessary milling services which cannot reasonably be supplied by producing mills, or by custom mills qualifying under paragraph (a).

(iv) Will not result in unnecessarily increasing the cost of finished lumber to the ultimate consumer.

The Regional Administrator may grant the authority sought, in whole or in part, and may make such limitations and conditions as to its duration and extent as may be appropriate and consistent with the above findings.

SEC. 4a. *Meaning of "financial interest."* The term "financial interest" as used in sections 3 and 4 of this regulation means any ownership or control of the plant which performed milling or kiln drying services by a sawmill, concentration yard, planing mill, wholesaler or commission merchant, or ownership or control of the sawmill, concentration yard, planing mill, wholesaler or commission merchant by a plant which performs milling or kiln drying services or any common ownership, or control of such plant with one of the other types of operations listed, or any financial interest, direct or indirect, no matter how small, which such plant may have in one of the other types of operations listed, or which such other type of operation may have in the plant performing the services. Financial interest or control within the meaning of this section and of sections 3 and 4 shall be presumed where there is any continuing arrangement between the plant performing the milling or kiln drying services and one of the other listed types of operations for the former to rework lumber produced, handled or sold by the latter. Financial interest within the meaning of these sections shall also be presumed where a family relationship, by blood or marriage exists between the persons owning or operating the plant which performs milling or kiln drying services and one of the other listed types of operations.

The existence of a financial interest, as defined above, between the milling plant and the other listed types of operations effects a financial interest on the part of the plant performing the milling or kiln drying services in lumber sold or handled by such other operations prior to their movement into such plant. As a result, where such financial interest exists, the plant performing milling or kiln drying services which seeks to operate at the maximum prices in this regulation must make application for authority to operate as a custom mill under section 4 (b).

SEC. 5. *Maximum prices for custom milling services by other than a custom mill.* Unless the operation qualifies or is specially authorized as a "custom mill" under section 4 above, its maximum prices for custom milling or kiln drying of softwood or hardwood lumber are the charges set forth as additions for workings in the basic mill regulation covering the species milled or kiln dried.

SEC. 6. *Invoicing and records.* Invoices must show the species, size, condition and workings of the lumber before and after milling, with a detailed description of all services performed thereon for which a charge is made. Copies of invoices, or similar records must be kept at the place where the custom milling is performed, available for examination by the Office of Price Administration. The records must be kept for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 7. *Maximum prices for services not specifically priced.* If a custom mill wishes to perform any custom milling service covered by this regulation which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply in writing to the Lumber Branch, Office of Price Administration, Washington 25, D. C., for a maximum price.

The seller's application may be (a) for specific approval in reference to a particular order; or (b) for general approval in reference to a price or price list which he seeks to set up for general use in the future for non-standard custom milling services.

(a) Where the application is for specific approval in reference to a particular order, it shall be made prior to any shipment, or within five (5) days after acceptance of order, whichever be the earlier date. The following information shall be set forth:

(1) The requested price.

(2) A complete description of the service to be priced.

(3) The price differential between it and the most comparable service in the price tables with a detailed statement of comparative cost of performing the services.

(4) The name and location of producing mill.

(5) The purchaser's name, and address to which delivery is to be made.

If the application is for specific approval in reference to a particular order calling for custom milling services identical with an order upon which specific approval has previously been granted by the Office of Price Administration, it is sufficient for the seller to identify by reference, such previous application and approval. In such case, the only additional information required is the information requested in (4) and (5) above.

A seller using this pricing method may quote and make sales and deliveries prior to receipt of official approval. He also may collect the price he has requested: *Provided*, That he has first received a written acknowledgment of his application from the Office of Price Administration and has so informed the purchaser in writing. The requested price is subject to revision within 30 days after the date of the acknowledgment and, if the price is ordered to be reduced, the seller must refund any excess collected over the price which is officially approved. If a requested price is not disapproved within 30 days of the date of the acknowledgment, it is approved. Where, after receipt of an application for specific approval, the Office of Price Administration requests additional information from the seller upon which to base its approval of a ceiling price, the time within which the requested price may be revised is automatically extended to 30 days after acknowledgment of the requested information. An officially approved price shall be subject to further adjustment at any time, even after the 30 day period, as to all shipments made after the date of such further adjustment.

An authorization number will be assigned in every case where a special price is approved. Within 10 days after receipt of such number the seller must notify the purchaser in writing of the price which has been officially approved and the authorization number assigned; and the authorization number must appear on all invoices covering shipments made after the date the number was received by the seller.

(b) Where the seller's application is for general approval in reference to a price list which he seeks to set up for general use in the future for non-standard custom milling services he shall set forth the information required for specific approvals by (1), (2) and (3) in paragraph (a) above, and, in addition, a statement showing the need for such non-standard custom milling services in his area.

Quotations may not be made, orders taken, or shipments commenced until a maximum price has been officially approved.

An authorization number will be assigned in every instance where a special price or price list is approved; and this number must appear on all orders accepted and sales made, as well as on all invoices covering shipments. A file of all general approvals under this section will be open for inspection at the Office of Price Administration Regional Office at Boston, Massachusetts, as well as at the National Office, Lumber Branch, Washington, 25, D. C.

The approval of a maximum price under this section shall not prevent a further adjustment in ceiling prices from being made, as the result of, or without, further application by the seller; and such further adjustment may be made to apply to all sales or shipments after the date the adjustment is issued.

SEC. 8. *No quantity limitations.* Except as specified below, the maximum prices set forth in this regulation shall apply to all transactions regardless of the quantity of lumber involved.

For milling quantities of less than 1,000 feet board measure of any size or operation, the charge for 1,000 feet may be made. Where such lot is a part of a larger order, this minimum charge may be used only where a change of heads involving a change in patterns is required, but may not be made for handling. For milling lots of not more than 5,000 feet where not part of a larger order, a charge of 50¢ per M feet may be made.

SEC. 9. *No service charges.* (a) No service charges may be made by a custom mill for any services unless they are specifically priced in this regulation or expressly approved upon application under section 7.

(b) No service charge may be made by a custom mill for the arrangement of transportation of lumber or advancement of freight charges thereon.

(c) No service charge, commission, rebate or any other form of compensation, however termed, may be paid by a custom mill to, or collected from a custom mill by any person who has, or has had at any time, any financial interest in lumber being custom milled or kiln dried, for services in locating the custom mill, directing to it a shipment of lumber, or advancing custom milling or other charges.

As a service to its customer, a producing mill or wholesaler may perform any or all of these services without compensation. Where payment for custom milling, kiln drying or other charges is advanced for the account of customer it may bill the customer for the actual amount of such advances but must include with its invoice for the sale of the lumber, a true copy of the invoice from the custom mill, with no additional charges. In no case may the charges for custom milling services performed exceed the maximum prices for custom milling or kiln drying permitted by this regulation.

SEC. 10. *Computing prices on most economical basis.* Except where the specific pricing provisions in the tables or in the footnotes to the tables require otherwise, prices on combination milling, such as ripping and resawing, must be computed on the cheapest possible method of producing the end product from the particular size remanufactured, regardless of how the custom mill actually produces the end product.

SEC. 11. *Enforcement.* Persons violating any provisions of the regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damage, and proceedings for suspension of license provided by the Emergency Price Control Act of 1942, as amended, and regulations or orders issued thereunder.

SEC. 12. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations.

SEC. 13. *Prohibited practices.* Any practice which is a device to get the effect of a higher than ceiling price without actually raising the price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, trade understandings and the like.

SEC. 14. *Maximum prices.* The maximum prices per one thousand feet board measure for custom milling services and custom kiln drying of lumber, when performed by a custom mill in the area covered by this regulation are as follows:

GENERAL NOTES

1. Charges for additional lines of resawing and/or ripping are based on original size of piece ripped or resawn.

2. Where surfacing is done following resawing and/or ripping, surfacing charges shall be based on size or sizes of stock resulting from the resawing and/or ripping operation.

3. Where stock thinner than 1" is surfaced, resawn, or ripped, charges may be computed on surface measure. Where the first line of resawing reduces thickness of the remaining piece to less than 1", additional lines, where required, may be figured on surface measure, instead of original size as provided in note 1.

4. Fractional and odd thicknesses: For custom-milling 6/4 and thinner use price of 1" and compute footage on actual rough measure. For thicker than 6/4" and less than 8/4" use 2" price and compute footage on actual rough measure. For odd or fractional thickness thicker than 2" use price of next thinner listed size and compute footage on actual rough measure.

5. Where stock is of fractional or odd width not specified in table use price of next listed width, either wider or narrower, whichever is lower. Compute on actual board measure.

6. Where stock is both kiln dried and milled, a handling charge of $2.00 per M'BM may be added for handling between drying kilns and mill. Handling charge provided in milling tables may not be added.

7. If customer does not furnish a reasonably accurate inbound piece tally, the custom mill may add 50¢ per M'BM for tallying.

8. Where 50% or more of the lumber in any car is to be custom milled or kiln dried, and the balance of the lumber in such car is required to be handled from car to car without processing, a flat handling charge of $3.00 per M'BM may be made on such balance.

9. Random width prices may be used only on random width shipments containing at least 4 widths when such widths fall under 2 or more specified width price brackets in tables. Shipments containing mixed widths if piece tallied and segregated in the car are not random widths. Subject to above conditions the use of random width prices or specified width prices is optional with custom mill.

10. No charge may be made for any operation not expressly requested on customer's order.

11. Clipping to exact length permits tolerance of not more than ⅛" from length ordered.

This regulation shall become effective March 11, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Acts of 1942.

Issued this 6th day of March 1946.

Acting Administrator.

2. Having determined that it is in the national interest of the United States that said corporation be dissolved and its assets distributed, and a Certificate of Dissolution having accordingly been filed with the Secretary of State of the State of Delaware;

hereby orders, that the officers and directors of Rondak Corporation (to wit, Martin S. Watts, President and Director, E. H. Perbix, Secretary and Director, and Stanley B. (b) They shall then pay all known Federal, state and local taxes and fees owed by or accruing against said corporation; and

(c) They shall then pay any sum representing declared but unpaid dividends due any former stockholder not resident in the United States into an account in any bank whose deposits are insured by the Federal Deposit Insurance Corporation, the said account to be entitled "[Name of non-resident stockholder to be inserted here] Account, subject to the authorization of the Alien Property Custodian". ADMIRAL CORP.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 13 of Maximum Price Regulation No. 598; *It is ordered:*

(a) This order establishes ceiling prices for sales by distributors to dealers of the Models CS-746, CS-946, CD-746, and CD-946 household mechanical refrigerators manufactured by the Admiral Corporation, 3800 Cortland Street, Chicago 47, Illinois.

(1) A distributor's ceiling prices for sales in each zone of each model to servicing dealers (dealers who furnish installation and delivery and all the services which must be supplied the ultimate consumer in connection with the sale of the refrigerator) shall be the price which will yield the distributor the same proportion of the total dollar margin between the manufacturer's price to him and the dealer's price for resales to ultimate consumers in that zone as he received during the period October 1-15, 1941 in connection with the sale of the most comparable model produced by the Stewart-Warner Corp. to the same class of purchasing dealer.

(2) If a distributor cannot determine his ceiling prices for sales of a particular model to servicing dealers under subparagraph (1) above, his ceiling price for that sale is the ceiling price established under this order for the sale by his "closest seller of the same class". A distributor's "closest seller of the same class" is a distributor who (a) has established a ceiling price for his sales of the identical model to servicing dealers, and (b) is located nearer to the distributor than any other distributor who has such a ceiling price.

(3) If a distributor cannot determine his ceiling price for sales of a particular model to a servicing dealer under the provisions of subparagraphs (1) or (2) above, he shall determine his ceiling price for that model by marking up by 18.44 percent the sum of the manufacturer's price to him and his cost of transportation of the refrigerator from the manufacturer to him.

(4) Distributors shall determine their ceiling prices for sales to non-servicing dealers by adding $8.25 to the ceiling price established by them under subparagraphs (1), (2) or (3) above for sales to servicing dealers.

(b) The ceiling prices determined under paragraph (a) of this order are subject to each seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

(c) At the time of, or prior to the first invoice to each distributor the manufacturer shall notify each distributor of the method of determining his ceiling prices established by this order. This notice may be given in any convenient form.

(d) All the provisions of Maximum Price Regulation No. 598 continue to apply to all sales and deliveries of refrigerators covered by this order except to the extent that these provisions are modified by this order.

(e) Unless the context requires otherwise, the definitions set forth in Maximum Price Regulation No. 598 shall apply to the terms used herein.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 6th day of March 1946.

Issued this 5th day of March 1946.

[Des Moines Order G-5 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN CLINTON, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the purchaser in the Clinton, Iowa Area, both on

a yard sales and a delivered sales basis. The Clinton, Iowa Area for the purposes of this order consists of the area within the State of Iowa included within the corporate city limits of the City of Clinton, Iowa and an area within five (5) miles from the corporate city limits of Clinton, Iowa, together with the town of Camanche, Iowa and the area within three (3) miles from the corporate city limits of Camanche, Iowa.

SEC. 2. *Definitions.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided*, That for the purpose of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any maximum price regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any maximum price regulation or order which would otherwise be applicable, supersedes such provision of the maximum price regulation or order. All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. *Discounts, allowance and delivery practice.* The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Clinton, Iowa Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the limit of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order: *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. *Appendix.* The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective February 27, 1946.

All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. *Discounts, allowance and delivery practice.* The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Cedar Rapids, Iowa, Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order: *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provisions of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. *Appendix.* The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. [Des Moines Order G–11 Under Gen. Order 68]

BUILDING AND CONSTRUCTION MATERIALS IN THE SIOUX CITY, IOWA, AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales made by any seller of commodities specified in Appendix A below, delivered to the purchaser in the Sioux City, Iowa Area, both on a yard sales and a delivered sales basis. The Sioux City, Iowa Area for the purposes of this order consists of that area within the State of Iowa included within the corporate city limits of the City of Sioux City, Iowa and the area within the State of Iowa located within 5 miles from the corporate city limits of the City of Sioux City, Iowa.

SEC. 2. *Definitions.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions. Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor. Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings. The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any maximum price regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any maximum price regulation or order which would otherwise be applicable, supersedes such provision of the maximum price regulation or order. All provisions of maximum price regulations or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. *Discounts, allowance and delivery practice.* The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Sioux City, Iowa Area. All customary discounts, allowances or differentials established by any maximum price regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of this order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. *Appendix.* The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective February 27, 1946.

Issued this 20th day of February 1946.

J. M. KAMERICK,
Deputy District Director.

The word "seller" refers to each separate seller covered by this order. If a seller makes sales at retail through more than one selling unit or establishment, each selling unit or establishment is considered to be a separate seller, subject to all the provisions of this order.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices determined under or pricing methods provided by any Maximum Price Regulation or order which would otherwise be applicable to the sale of the commodities specified in Appendix A. Any other provision of this order which is inconsistent with any Maximum Price Regulation or order which would otherwise be applicable, supersedes such provision of the Maximum Price Regulation or order. All provisions of Maximum Price Regulation or orders which are applicable to the sale of commodities specified in Appendix A, not inconsistent with provisions of this order, shall continue to apply to sales made subject to this order.

SEC. 4. *Discounts, allowance and delivery practice.* The maximum prices established by this order are maximum prices for cash sales. Where, during March 1942, the seller established a differential between cash sales and sales on credit, such differential or credit charge may be added to the maximum price established by this order. In no event may the credit charge, if any, exceed the highest charge made to the same class of purchaser for the same sale during March 1942. No additional charge may be made for deliveries by the seller to any point located within the Ottumwa, Iowa, Area. All customary discounts, allowances or differentials established by any Maximum Price Regulation or order applicable to the sale of the commodities specified in Appendix A, shall be maintained.

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. Two copies of the list of maximum prices are attached to this order, one of which may be removed and posted as required herein. Every seller making sales covered by this order shall retain a copy of the order in each of his places of business in the area covered by this order and shall, if requested by the purchaser, make the same available for inspection by him.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and he must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer
(2) Date of transaction
(3) Place of delivery
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No person subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 9. *Appendix.* The list of maximum prices fixed by this order is entitled Appendix A, attached hereto and hereby made a part of this order.

SEC. 10. This order may be modified, amended, or revoked at any time.

This order shall become effective February 27, 1946.

Issued this 20th day of February 1946.

J. M. KAMERICK,
Deputy District Director.

[Region VIII Order G-5 Under RMPR 251, Amdt. 2]

PLUMBING SERVICES IN SOUTHERN CALIFORNIA AND CONTIGUOUS AREAS

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G-5 under Revised Maximum Price Regulation No. 251 is amended to read as follows:

(a) *What this order does.* This order establishes maximum prices for all plumbing services performed in the following areas:

(1) *California.* Imperial, Inyo, Kern, Los Angeles, Orange, Riverside, San Diego, San Bernardino, San Luis Obispo, Santa Barbara, and Ventura Counties.

(2) *Nevada.* Clark County.

(b) *Maximum prices.* The maximum price for plumbing services shall be the sum of a charge for labor, a charge for the materials used, and such other charges as may be permitted by this order. The maximum charge for labor shall be the sum of separate charges determined by multiplying the number of hours of labor performed in each category by the maximum hourly rate provided for that category by Column A of subparagraph (b) (1) or by the labor cost per hour multiplied by the percentage in Column B, whichever is the lower. The maximum price of the materials used shall be as is provided by subparagraph (b) (2).

(1) *Maximum labor charges.*

	Column A			Column B
	Straight time	Overtime	Sundays and holidays	Percentage of "labor cost"
Journeyman plumber:				
(Los Angeles County, Calif., or Clark County, Nev.)	$2.75	$4.03	$5.50	166⅔
(Kern County, Calif.)	2.60	3.90	5.20	166⅔
(Remainder of area)	2.50	3.75	5.00	166⅔
Apprentice plumber and common labor	1.75	2.63	3.50	140

(i) *Measurement of hours.* The number of hours to be charged against any job is to be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job if he proceeds to another job or until he returns to the shop if he proceeds there directly. For any job extending into more than one day, time in transit to or from the job may be charged only once. The hours for which charges are made shall not exceed those shown in the seller's payroll records nor those shown in any records which this order may require the seller to keep.

(ii) *Minimum charge.* If a job requires less than one man-hour, there may be collected a minimum charge equal to the maximum charge for one hour.

(iii) *Outside sewer stoppage removal.* A minimum charge not exceeding $5.00 may be made for outside sewer stoppage removal. If because of employment of power-driven equipment, higher maximum hourly rates were in effect during March 1942, which are higher than the rates otherwise provided herein, and records are available to substantiate such rates, then the same rates may be continued for this type of work.

(iv) A journeyman plumber doing his own work shall take as his labor cost the labor cost applicable to journeyman plumbers in the area.

(v) *Definitions.* (a) "Plumbing service" means plumbing repair, maintenance, installation services, and includes the sale of installed plumbing materials; and "plumbing" means gas, water, and steam distribution or waste removal systems. "Plumbing service" also includes installation of oil burners and feed lines.

(b) "Overtime" refers to hours of work performed at customer's request on Saturday or between the hours of 5:00 p. m. and 8:00 a. m. Monday to Saturday.

(c) "Sundays and holidays" refers to work performed at customer's request

on Sundays and national holidays and emergency night calls made at customer's request.

(d) "Labor cost" means the wage rate actually paid, but not exceeding the wage rate in effect on October 3, 1942, or the wage rate which has been established by proper governmental agencies.

(2) *Materials.* The maximum price of any new materials shall be the highest price charged for such materials by the seller during March 1942, or the price published as of March 22, 1945, in Merchants Plumbers Guide, issued by John B. Reeves & Son, 3665 South Vermont Avenue, Los Angeles 7, California, whichever is lower. The maximum price of any used materials, or of new materials which cannot be priced as provided above, shall be the seller's maximum price, as determined under the appropriate maximum price regulation.

(3) *Other charges*—(i) *Charges for permits.* A charge may be made for any fee a plumber may be required to pay to secure a permit to perform a specific job, which fee is paid to a Building Inspection Department of a city or other body politic.

(c) *Jobs selling for $200.00 or over.* (1) For jobs selling for $200.00 or over, the maximum price shall be the maximum price determined under section 7 (a) of Revised Maximum Price Regulation No. 251, except as hereinafter provided. When determining a price under section 7 (a) for the purposes of this order, the seller shall use the sum of his labor costs, material costs, and other direct costs, and a margin not exceeding the following:

Total labor, material, and other direct costs:	*Margin (percent)*
For the first $500 in costs	25
For the next $500 in costs	20
For costs over $1,000	15

Provided, That for sellers in business in March 1942, the margin shall not exceed the margin used in the most comparable job in the period January 1, 1939, to March 31, 1942.

(2) "Other direct costs" include only the cost of subcontracts, workmen's compensation insurance, social security tax, unemployment compensation tax, building permits and fees, and rentals of equipment covered by Maximum Price Regulation No. 134, the equipment rentals to be charged at prices not exceeding the maximum rental rates. Notwithstanding the provisions of subparagraph (c) (1) above, no margin may be added to costs of subcontracts for plumbing services.

(3) Administrative and overhead costs and selling expenses are not to be included as direct cost.

(d) *Estimates.* Where work is performed on a cost-plus job on the basis of an estimate submitted by the seller, the total charge for such work shall not exceed the estimated price by more than 15%, except to the extent permitted by paragraph (e) relating to extra work.

(e) *Extra work.* Any changes in plans or specifications made at the request of the customer involving an increase in the cost of the work covered by the original estimate shall be charged for under the terms of paragraph (c).

(f) *Lump-sum contracts.* Where a seller offers to supply services of the kind covered by this order on the basis of a lump-sum contract, the seller agreeing to charge a fixed price, such price may exceed the maximum price computed in accordance with the terms of paragraph (c) of this order but not by more than 10%. With respect to such job the seller shall keep records as required by other paragraphs of this order, these records to be available for inspection by the Office of Price Administration.

(g) *Scope of this order.* (1) The maximum prices established by this order include all expenses, and no additional charge will be made for any other cost or incidental service.

(2) Lower prices than the maximum prices established by this order may be charged, demanded, offered, or paid.

(h) *Records and invoices.* Every person making sales subject to paragraphs (b) and (c) of this order shall furnish each customer who requests it an invoice or sales slip on which he has certified that the price charged does not exceed the price permitted by this Order No. G-5 and showing the time spent by each classification of employee on the job, the rate charged for each such classification, the materials for which charges are made and their quantities and the charges therefor, the names and addresses of the buyer and seller, the location of the job and the date of its completion, and an itemization of any other charges (such as for "other direct costs") authorized by this order. Such seller shall also keep records showing the same information, and in addition, the itemized cost of the labor and materials involved. These records and duplicates of such invoices or sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

No charge may be made for any item for which a seller fails to issue the invoices or keep the records required by this order.

(i) *Relation of this order to Revised Maximum Price Regulation No. 251.* Except as otherwise provided in this order, this order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order. Except to the extent they are inconsistent with the provisions of this order, however, all other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, shall apply to sales covered by this order. As to such sales it also supersedes any other order issued under section 9 of Revised Maximum Price Regulation No. 251.

(j) This order may be revoked, amended, or corrected at any time.

This order as amended by Amendment No. 2 shall become effective February 17, 1946.

Issued this 5th day of February 1946.

Acting Regional Administrator.

EXECUTIVE ORDER 9701

PROVIDING FOR THE RESERVATION OF RIGHTS TO FISSIONABLE MATERIALS IN LANDS OWNED BY THE UNITED STATES

By virtue of the authority vested in me as the President of the United States, it is hereby ordered as follows:

1. Public lands of the United States, including lands in Alaska, which contain or may contain substantial deposits of fissionable materials shall be subject to (a) disposal under all applicable public-land laws which authorize or permit a reservation to the United States of all minerals in the land, together with the right to enter upon the land and prospect for, mine, and remove such minerals: *Provided*, that the disposal is made subject to such reservation; and (b) lease, permit, or other authorization to use the land or its resources in accordance with applicable public-land laws: *Provided*, that every such lease, permit, or authorization which grants any right to remove minerals from such land, or which otherwise would preclude the United States from exercising its right to enter upon the land and prospect for, mine, and remove minerals, shall be made subject to a reservation to the United States of all fissionable materials in the land, together with the right to enter upon the land and prospect for, mine, and remove such materials.

2. So far as not in conflict with existing law, (a) all disposals of lands, other than public lands, heretofore or hereafter acquired by the United States or any instrumentality thereof, including lands in the territories and possessions of the United States, (b) all leases, permits, or other authorizations of whatever kind hereafter granted to remove minerals from such lands, and (c) all leases, permits or other authorizations which otherwise would preclude the United States from exercising its right to enter upon the lands and prospect for, mine, and remove minerals, shall reserve to the United States all fissionable materials in the lands, together with the right, at any and all times, to enter upon the lands and prospect for, mine, and remove such materials: *Provided*, that no reservation under this paragraph shall interfere with the primary use of the land established or indicated by any act of Congress; *And provided further*, that no reservation shall be required by this paragraph whenever the Secretary of the Interior shall determine that the land affected does not contain substantial deposits of fissionable materials, or that, in view of all the circumstances, there is no reasonable probability that such materials are present in quantities sufficient to justify their extraction.

3. The term "fissionable materials" as used in this order means (a) all deposits from which the substances known as thorium, uranium (including uranium enriched as to one of its isotopes), and elements higher than uranium in the periodic table, can be refined or produced, and (b) all deposits from which there can be refined or produced other substances determined by the President by Executive order to be readily capable of or peculiarly related to transmutation of atomic species, the production of nuclear fission, or the release of atomic energy.

4. Executive Order No. 9613 of September 13, 1945, entitled "Withdrawing and Reserving for the Use of the United States Lands Containing Radio-active Mineral Substances" is hereby revoked: *Provided, however*, that all lands withdrawn or reserved by that order which contain or may contain substantial deposits of fissionable materials shall continue to remain withdrawn and reserved but shall be subject to the provisions of this order.

5. At 10:00 a. m. on the 28th day from the date on which this order is signed, the public lands released from withdrawal by the revocation of the said Executive Order No. 9613, shall, subject to valid existing rights, the provisions of existing withdrawals, and the prior provisions of this order, become subject to application, petition, location, and selection as follows:

(a) For a period of 90 days, commencing on the day and at the hour named above, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land

PART 1010—SUSPENSION ORDERS

[Suspension Order S-930]

AMBASSADOR SHIRT CO.

Nathan Rosenberg, doing business as The Ambassador Shirt Company, at 1427 Vine Street, Philadelphia, Pa., is engaged principally in the manufacture of men's and boys' shirts. On January 2, 1946 a temporary suspension order was issued directing it to immediately cancel outstanding CC rated textile orders for fabrics in excess of those authorized for the fourth quarter of 1945 and to place no CC rated orders for such textiles for the first quarter of 1946. During the fourth quarter of 1945 the Ambassador Shirt Company ordered 15,500 yards of cotton fabric on orders bearing preference ratings of CC, although the company was authorized on Form WPB 3732 on the program under Schedule C of Conservation Order M-328-B of the Civilian Production Administration to place orders bearing CC ratings during the fourth quarter of 1945 for 9,692 yards of cotton goods. The placing of CC rated orders for 5,808 yards of cotton fabrics in excess of the amount authorized constituted a violation of Priorities Regulation No. 3. This violation has interfered with the controls established by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.930 *Suspension Order No. S-930.* (a) The temporary suspension order issued to Ambassador Shirt Company on January 2, 1946 is hereby revoked.

(b) Ambassador Shirt Company shall reduce the amount of cotton fabrics, for which it may be authorized to extend ratings during the first quarter of 1946 under Schedule C of Order M-328-B, by the amount of 5,808 yards.

(c) Nothing contained in this order shall be deemed to relieve Ambassador Shirt Company from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(d) The restrictions and provisions contained herein shall apply to Nathan Rosenberg, doing business as Ambassador Shirt Company, his successors and assigns, or persons acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(e) Nathan Rosenberg, doing business as Ambassador Shirt Company, shall refer to this order in any application or appeal that he may file with the Civilian Production Administration during the first quarter of 1946 dealing with his use of textiles.

Issued this 6th day of March 1946.

PART 1305—ADMINISTRATION

[SO 110,[1] Amdt. 6]

MANUFACTURERS' MAXIMUM AVERAGE PRICE FOR GREY AND CERTAIN FINISHED RAYON AND OTHER SYNTHETIC WOVEN FABRICS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Supplementary Order No. 110 is amended in the following respects:

1. Footnote 2 is added to the end of subparagraphs (10), (11), and (12) of section 2 to read as follows:

[2] The last sentence of this subparagraph shall not apply to a manufacturer whose maximum average price has been established by the Administrator under paragraph (c) of section 5 or under section 14.

2. Paragraph (f) is added to section 4 to read as follows:

(f) Any premium which is or may be permitted, under Revised Price Schedule No. 23—Rayon Grey Goods, to certain manufacturers of serge and twill linings, 88 to 140 sley, shall be disregarded by these manufacturers in determining their weighted average prices for the quarters in which the premium is permitted.

3. Section 6 is amended to read as follows:

SEC. 6. *Maximum average price limitation*—(a) *"Surcharge" and "credit"*—(1) *"Surcharge"*.[3] If a manufacturer's weighted average price for any quarter exceeds his increased maximum average price[4] for that quarter, he has incurred a surcharge. The dollar amount of the surcharge is computed by first finding the difference between the manufacturer's weighted average price for the quarter and the above-mentioned increased maximum average price and then multiplying that difference by the number of yards of fabrics subject to this order delivered during the quarter.

(2) *"Credit"*.[3] If a manufacturer's weighted average price for any quarter is less than his maximum average price for that quarter as determined under section 5[5] he has earned a "credit". The dollar amount of the "credit" is computed by first finding the difference between the manufacturer's weighted average price and his maximum average price for the quarter as determined under section 5[4] and then multiplying that difference by the number of yards of fabrics subject to this order delivered during the quarter.

(3) *"Limited credit"*[3]—(i) *Manufacturer not using category basis.* If for the fourth quarter of 1945 or for any subsequent quarter a manufacturer's weighted average price is less than his increased maximum average price[4] and he had a net surcharge at the beginning of the quarter which has not been offset by a credit earned during the quarter under section 6 (a) (2), he has earned a limited credit. The limited credit shall in no event be more than the amount which remains of the net surcharge existing at the beginning of the quarter after deducting any credit earned during the quarter under section 6 (a) (2). With this qualification, the amount of the limited credit shall be the dollar amount obtained by (*a*) selecting the manufacturer's weighted average price or his maximum average price[5] for the quarter, whichever is higher; (*b*) subtracting the price so selected from the manufacturer's increased maximum average price for the quarter; and (*c*) multiplying the difference so obtained by the number of yards of fabric subject to this order delivered during the quarter.

(ii) *Manufacturer using the category basis.* If for any category for the fourth quarter of 1945 or for any subsequent quarter a manufacturer's weighted average price is less than his increased maximum average price, and if at the end of the quarter his surcharges for the category exceed his credits for the category for all quarters taken together, he has earned a limited credit in the category. The limited credit shall in no event be more than the amount by which at the end of the quarter his surcharges exceed his credits for the category for all quarters taken together. With this qualification, the amount of the limited credit for the category shall be the dollar amount obtained by (*a*) selecting the manufacturer's category weighted average price or his category maximum average price for the quarter, whichever is higher; (*b*) subtracting the price so selected from the manufacturer's increased category maximum average price for the quarter; and (*c*) multiplying the difference so obtained by the number of yards of fabric in the category delivered during the quarter.

(b) *"Net surcharge"* (1) At the end of each quarter a manufacturer must determine whether he has a "net surcharge," and if so, the amount of it.

(2) A manufacturer is left with a "net surcharge" if and to the extent that the total of his surcharges exceeds the total of his credits (including "limited credits") for all quarters since July 1, 1945 (and for all categories) taken together.

(c) *Make-up rule to be observed by manufacturer having net surcharges at end of each of two consecutive quarters.* Any manufacturer who has a net surcharge at the end of two consecutive quarters shall not after March 31, 1946, deliver fabrics subject to this order at a gross price per yard above his increased maximum average price[4] until he has made up the net surcharge existing at the end of the second such quarter.

(d) *When a net surcharge is made up and make-up rule ceases to apply.* A net surcharge is "made-up" when (1) the manufacturer's increased maximum average price[4] multiplied by the number of yards of fabrics subject to this order delivered by the manufacturer since becoming subject to the make-up rule, less (2) the "total gross dollar amount charged" (see paragraph (a) (1) of section 4) for those goods, equals (3) the net surcharge which was to be made up. Once the manufacturer has made up his net surcharge, his operations under the "make-up rule" cease. However, a manufacturer must resume observance of the "make-up rule" whenever he has again incurred a net surcharge for each of two consecutive quarters. It should be noted that a manufacturer has necessarily "again incurred a net surcharge for each of two consecutive quarters" if he incurs a surcharge for a quarter in which he makes up a previous net surcharge. For the purposes of this paragraph, a manufacturer shall be deemed to have become subject to the "make-up rule" as of the beginning of the first quarter of 1946 if he had a net surcharge as of the end of both the third and fourth quarters of 1945.

4. Section 9 (d) is amended to read as follows:

(d) *Make-up operation record.* During so much of any quarter as a manufacturer is operating on a make-up basis, he must keep a daily or weekly cumulative record showing the date of each entry and for the quarter to date the "total gross dollar amount charged" for fabrics delivered, the total number of "yards" "delivered", and the amount of net surcharge made up. To find the "total gross dollar amount charged" as of the end of any day or week, the manufacturer multiplies the total number of "yards" delivered by his increased maximum average price[4] and subtracts from the result the "total gross dollar amount charged." A manufacturer has not completed his make-up operation until his last entry showing the amount of net surcharges made up at least equals the amount of net surcharge existing at the end of the preceding quarter.

5. Section 11 (a) (3) is amended to read as follows:

(3) A manufacturer, when subject to the "make-up rule," shall deliver no fabric subject to this order at a gross price per yard higher than his increased maximum average price.[4]

6. Section 15 is amended to read as follows:

SEC. 15. *Allowable increases in maximum average price.* (a) As of the quarter beginning July 1, 1945 and for all subsequent quarters a manufacturer whose otherwise applicable maximum average price is fixed by section 5 (a) (1) or (2) of section 5 (a) may increase by 10% or by 5 cents per yard, whichever is less, his maximum average price as determined in accordance with paragraphs (a) or (b) of this section.

(1) 110% of his otherwise applicable maximum average price, or;

(2) His choice of:

(i) 102% of his weighted average price for the first quarter of the calendar year 1945;

(ii) 102% of his weighted average price for the second quarter of the calendar year 1945, or;

(iii) 102% of his otherwise applicable maximum average price.

(b) As of the quarter beginning July 1, 1945, and for all subsequent quarters a manufacturer whose otherwise applicable maximum average price is fixed by section 5 (a) (2) may take as his maximum average price, the lower of the following:

(1) 102% of his weighted average price for the first or second quarter of the calendar year 1945, or;

(2) 105% of his weighted average price for the first three calendar months following the month in which he first delivered fabrics subject to this order.

(c) Paragraphs (a), (b), and (g) of this section shall not apply but paragraph (h) of this section shall apply to any maximum average price established pursuant to paragraph (c) of section 5 or to any maximum average price which has been adjusted pursuant to section 14 or to any maximum average price determined in accordance with paragraph (b) of section 17.

(d) (1) Any "credit" determined pursuant to subparagraph (2) of section 6 (a) shall be computed without regard to the increases provided for in paragraphs (a), (b), (g), or (h) of this section.

(2) Any "limited credit" determined pursuant to subparagraph (3) of section 6 (a) shall be computed using the increases provided for in paragraphs (a), (b), (g), or (h) of this section.

(e) The base period report required by section 10 (a) shall be prepared without regard to the increases provided for in paragraphs (a), (b), (g), or (h) of this section. However, any manufacturer who wishes to determine his maximum average price on the basis of 102% of his weighted average price for the second quarter of the calendar year 1945 must as a condition, submit, in addition to the information required in the base period report, the following: the total gross dollar amount charged for fabrics he delivered, the total number of yards delivered, and his weighted average price for the quarter beginning nearest April 1, 1945. This supplementary report must be filed in duplicate with the Office of Price Administration, Washington 25, D. C. on or before July 20, 1945.

(f) The increases in maximum average prices provided for in this section will not be reduced or withdrawn except by an amendment effective 60 days or more after issuance.

(g) *Additional increase in maximum average price.* As of the quarter beginning October 1, 1945 and for all subsequent quarters a manufacturer whose maximum average price, but for this section, is fixed by subparagraph (1) or (2) of section 5 (a) may increase by 10% or by 5 cents per yard, whichever is less, his maximum average price as determined in accordance with paragraphs (a) or (b) of this section.

(h) For the quarter beginning January 1, 1946, and for any subsequent quarter a manufacturer whose consumption of yarn per loom has decreased 10% or more in poundage from the consumption of yarn per loom in the third or fourth quarter of 1945 whichever was lower will, upon filing the required report, be permitted for every 10% decrease an increase in his maximum average price of 2 cents per yard over the increased maximum average price determined in accordance with paragraphs (a), (b), or (g) of this section, or the maximum average price for surcharges established pursuant to paragraph (c) of section 5, or the maximum average price for surcharges which has been adjusted pursuant to section 14, or the increased maximum average price determined in accordance with paragraph (d) of section 17. As a condition of enjoying such increase, the manufacturer must file with the Office of Price Administration, Washington 25, D. C., within 15 days of the end of the quarter for which the increase is desired, a report containing the following information:

(1) The beginning and end dates of the quarters used in the comparison;

(2) Number of active looms (total number of looms in operation at any time during the quarter weaving fabrics subject to this order) in the third or fourth quarter of 1945, whichever is used in the comparison, and in the quarter for which the increase is requested;

(3) Total poundage of yarn consumed (i. e., yarn used in production of fabrics subject to this order) in the third or fourth quarter of 1945 whichever is used in the comparison and in the quarter for which the increase is requested;

(4) Consumption of yarn per loom in the third or fourth quarter of 1945 and in the quarter for which the increase is requested. The consumption of yarn per loom is determined by dividing (2) into (3);

(5) Per cent decrease of yarn per loom in the quarter for which the increase is requested as compared with the consumption of yarn per loom in the third or fourth quarter of 1945.

7. Section 17 is added to read as follows:

SEC. 17. *Category basis.* (a) A manufacturer may elect to observe a separate maximum average price for one or both of two special categories—elastic fabrics and necktie fabrics. The election when made shall apply to the quarter beginning July 1, 1945, and to all subsequent quarters. A manufacturer operating on the category basis will for each special category have a new base period different from the base period provided in section 5, and a separate "maximum average price." As explained in section 6, however, his credits and surcharges in all categories will be combined in determining whether he has to operate under the "make-up rule." If a manufacturer uses categories they shall be so arranged that no two overlap; in other words no fabrics shall be included in more than one category. If he elects to use one or both of these special categories, the balance of his fabrics subject to this order shall be treated as though they constituted still another category but he shall determine his maximum average price for them in the manner provided in section 5.

(b) *How a manufacturer determines his maximum average price for the special categories.* The maximum average price for each special category shall be the "weighted average price" for all fabrics in that category delivered in the base period described in paragraph (c) of this section.

(c) *Base period for special categories.* (1) The base period for the tie fabric category shall be the first six months of 1944.

(2) The base period for the elastic fabric category shall be the first three months of 1945.

(d) *Temporary increase in maximum average price for the elastic and/or tie fabric category.* In lieu of the increased maximum average price provided in paragraphs (a), (b), and (g) of section 15, each manufacturer shall take as his increased maximum average price for the special category, 102% of his otherwise applicable maximum average price as determined by paragraph (b) of this section.

(e) *Exemption level.* A manufacturer shall not incur a surcharge for his tie fabric category in any quarter in which his "weighted average price" for that category does not exceed 61 cents per yard.

(f) *Reports.* A manufacturer who has elected to use the special categories must submit by categories revised base period and quarterly reports. The election provided in paragraph (a) of this section shall not become effective until the manufacturer has received an acknowledgment from the Office of Price Administration of the filing of the revised reports.

This amendment shall become effective March 7, 1946.

NOTE: The reporting requirements of this supplementary order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 7th day of March 1946.

The State of Georgia represents that: (1) it has urgent and immediate need for increased hospital facilities; (2) the State has now available only approximately 1,000 beds for tubercular patients whereas its minimum requirements therefor are 3,200 beds; (3) it intends to use the facilities of the Battey General Hospital as a tuberculosis sanitarium; (4) when the Battey General Hospital is available for use as a tuberculosis sanitarium the present State tuberculosis sanitarium will be converted into a mental institution or a female prison, both of which are urgently needed by the State; (5) it has funds available for the adequate care and maintenance of the Battey General Hospital. PART 8313—STANDARD GENERAL PURPOSE AND SPECIAL MACHINERY

Surplus Property Administration Regulation 13, November 2, 1945, entitled "Pricing Policy for Standard General Purpose Machinery" (10 F. R. 13719) is hereby revised and amended as hereinafter set forth. The title is amended to read as follows: "Standard General Purpose and Special Machinery."

Sec.
8313.1 Definitions.
8313.2 Purpose and scope.
8313.3 Determination of base price and period of active use.
8313.4 Determination of sale price.
8313.5 Scrapping and salvage of machinery.
8313.6 Records and reports.
8313.7 Regulations to be reported to the Administrator.

AUTHORITY: §§ 8313.1 to 8313.7, inclusive, issued under 58 Stat. 765, 59 Stat. 533, and E.O. 9689 (11 F.R. 1265).

§ 8313.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Commercially unsalable machinery" as used herein is distinguished from property of no commercial value as used in Part 8319 [1] and means machinery (i) which by reason of its condition resulting from damage, wear, obsolescence or otherwise has no reasonable prospect of sale except as scrap or salvage or (ii) with respect to which the estimated cost of care and handling and disposal will exceed the estimated proceeds unless it is promptly sold as scrap or salvage.

(2) "Administrator" means the Chairman of the Board of Directors of the War Assets Corporation until March 25, 1946, and thereafter means the War Assets Administrator.

(3) "Salvage" means property that is in such a worn, damaged, deteriorated or incomplete condition, or is of such a specialized nature, that it has no reasonable prospect of sale as a unit, but has some value in excess of its basic material content because it may contain serviceable components. Salvage includes used containers and cable reels. It should be noted that property is not "salvage" merely because it is worn, damaged, deteriorated, incomplete or of a specialized nature.

(4) "Scrap" means property that has no reasonable prospect of sale except for its basic material content.

(5) "Standard general purpose machinery" includes used machine tools and machines listed in the following categories of the Standard Commodity Classification (May 1943) Volume I (with the exception of special machinery) divided into the designated three classes:

(6) "Special machinery" includes machines designed for and used exclusively in the production of war material such as but not limited to:

Special gun reaming, rifling and chambering machines
Gun boring and turning lathes
Shell turning lathes
Shell tappers
Small arms ammunition machines
Special military tank manufacturing machines
Special military aircraft manufacturing machines
Special shipbuilding machines

§ 8313.2 *Purpose and scope.* The purpose of this part is to provide a fixed price policy for commercially salable used standard general purpose machine tools and machines. It also provides for the scrapping and salvaging of all other general purpose machinery and of any special machinery determined hereunder to be commercially unsalable. Prices at decreasing percentages of original cost are specified for the various classes of machinery up to stated limits of active use and maximum prices are provided for sales of machinery in active use beyond such limits. This part applies to all sales in the continental United States, not including its territories or possessions, made after the effective date hereof by the disposal agency and to all sales by owning agencies of standard general purpose machinery pursuant to Part 8306 [2] or otherwise, but is not applicable to any sale of machinery which has been delivered to the purchaser or to any carrier for the account of the purchaser prior to the effective date of this part.

§ 8313.3 *Determination of base price and period of active use.* (a) Base prices for machinery to be sold hereunder shall be determined as follows:

(1) *Class I.* The base price of machinery falling within Class I shall be the original price at which the manufacturer sold the machine. The selling agency shall determine the original price (f. o. b., the plant of the machine manufacturer) of the machine including electrical equipment, standard or special attachments sold with the machine, and attached special tooling which has value to the purchaser other than as scrap or salvage. In the case of machine tools and metal forming and shaping machines manufactured prior to March 1, 1941, the March 1, 1941 price of the nearest equivalent machine may be taken as the original price. In the case of standard general purpose machines, other than machine tools and metal forming and shaping machines, manufactured prior to October 1, 1941, the October 1, 1941 price of the nearest equivalent machine may be taken as the original price.

(2) *Classes II and III.* The base price for machinery falling within Classes II and III shall be the original price as provided for in subparagraph (1) above or the original manufacturer's current retail price for the same or the nearest equivalent unit.

(b) The selling agency shall determine the period of active use of the machine on the basis of the best information reasonably available. The period of active use shall be considered to run from the estimated date the machine was originally put into use to the date of sale, if the machine is then still in use. If the machine is not in use at the time of sale, the period shall run to the estimated date when the machine last became idle.

§ 8313.4 *Determination of sale price.* (a) Exhibits A, B, and C contain tables of percentages applicable to various periods of active use of machinery to be sold hereunder. The price at which a machine shall be sold shall be computed by applying to the base price determined in accordance with § 8313.3 (a) the percentage appearing in the appropriate exhibit opposite the period of active use of the machine calculated in accordance with § 8313.3 (b). The appropriate exhibit shall be determined as follows:

	Exhibit
Any machine in Class I	A
Any machine in Class II	A
Any machine in Class III operating under 750 revolutions per minute	B
Any machine in Class III operating over 750 revolutions per minute	C

(b) In determining which of the two columns of percentages shall apply in Exhibits A, B, and C, those appearing in Column b shall be applied where the

buyer is the person who is using the machine at the time of sale, or, if the machine is then idle, the person who last used it, and the percentage appearing in Column a shall be applied where the sale is to any other buyer. The price computed in accordance herewith shall be the sales price f. o. b. the location of the machine at the time of sale, except that in the case of sales made to a purchaser in possession, it shall be the sales price of the machine at its location.

(c) A sale of a standard general purpose machine in Class III with a period of active use in excess of the highest period of active use specified in the appropriate exhibit may be made at the best price obtainable but not in excess of the price applicable to such a machine with the highest period of active use specified in such exhibit.

§ 8313.5 *Scrapping and salvage of machinery.* (a) The Administrator has determined that, due to the cost of care, handling, and disposition, surplus machinery of any type the period of active use of which is more than 25 years is commercially unsalable and all such machinery shall, subject to the provisions of paragraph (d), upon a determination in writing by the agency in possession that the period of active use is more than 25 years, forthwith be disposed of as scrap after removal of all salvageable components.

(b) From time to time, the Administrator may determine what additional types or classes of special machinery are commercially unsalable. Upon notice of such determinations, the owning and disposal agencies shall, subject to the provisions of paragraph (d), forthwith dispose of any such types or classes in their possession as scrap or salvage.[2]

(c) Any machinery which the disposal agency or any owning agency determines in writing to be commercially unsalable shall be disposed of as scrap or salvage or otherwise by the agency in possession pursuant to applicable regulations of the Administrator. In connection with such determinations owning agencies may request the advice and assistance of the disposal agency.

(d) Prior to the sale of a machine which is to be disposed of as scrap and prior to removal of salvageable components, owning and disposal agencies may, insofar as is consistent with the provisions of Part 8319,[1] dispose of such property by donation to such nonprofit institutions and instrumentalities as make application therefor, *Provided*, That such procedure shall not delay or postpone any such scrap disposal for a period in excess of thirty (30) days.

(e) In connection with any sale of machinery as scrap, all components shall be removed therefrom which the disposal agency by general directive may find have sufficient value to warrant the cost of removal, storage, care and handling and disposal and a scrap warranty[3] shall be obtained upon the disposal of the remainder.

[2] Defined in SPA Reg. 9, § 8309.1 (o), (10 F.R. 12961, 14966).

§ 8313.6 *Records and reports.* Owning and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Administrator in such manner as may be specified by order issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8313.7 *Regulations to be reported to the Administrator.* Each owning and disposal agency shall file with the Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

This part shall become effective March 8, 1946.

PART 8317—STOCK PILING OF STRATEGIC MINERALS, METALS AND MATERIALS

SALES BY OWNING AGENCIES OF SCRAP CONTAINING CERTAIN STRATEGIC METALS

The Civilian Production Administration has represented that an actual deficiency presently exists for the civilian requirements of industry in such strategic metals as copper and copper base alloys. The deficiency is described as being so acute that all available stocks of such metals in scrap form which can be sold at ceiling prices will be required until the shortage is satisfied. Both the War and Navy Departments have represented that each possesses scrap accumulations containing such strategic metals in amounts which exceed the minimum quantities of strategic property determined to be suitable for the stockpile as provided in § 8317.9 and listed on Exhibit I.

The War Assets Corporation has advised that declarations of such scrap accumulations to it as disposal agency will cause considerable delay in expediting the needs of civilian requirements. This order is intended to alleviate the deficiency until such time as the Civilian Production Administration has advised that the deficiency no longer exists.

Pursuant to the authority of section 22 (b) of the Surplus Property Act of 1944 (58 Stat. 765; 50 U. S. C. App. Sup. 1611), Public Law 181, 79th Congress, 1st Session (59 Stat. 533), and Executive Order 9689 (11 F.R. 1265), *It is hereby ordered*, That:

1. Notwithstanding the provisions of § 8317.5 owning agencies shall not declare as surplus to the War Assets Corporation, as disposal agency, any scrap accumulations containing copper and copper base alloys, until this order is rescinded or amended.

2. Owning agencies are authorized to sell at not less than ceiling prices such strategic metals and shall conduct sales to the end that lots shall be offered in such reasonable quantities so as to permit all purchasers, large as well as small, to compete on equal terms. Wide public notice shall be given concerning such sales and the time interval between notice and sale shall be sufficiently adequate so as to give all interested purchasers an opportunity to buy.

This order shall become effective March 11, 1946.

BENDIX AVIATION CORP.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, It is ordered:

(a) *Manufacturer's ceiling prices.* Eclipse Machine Division, Bendix Aviation Corporation, of Elmira, New York, may compute its adjusted ceiling prices for its sales of the Morrow coaster brakes which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increase by 19.2 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Distributors and dealers who sell the article in the same form in which the manufacturer has sold it at an adjusted ceiling price determined under this order, shall determine their maximum prices as follows:

The reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage markup which he has on the most comparable article, for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Change in resellers' margins.* Reseller's maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in resellers' margins which may be effected by the Office of Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(e) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on March 7, 1946.

Issued this 6th day of March 1946.

Administrator.

(a) The monthly rates established herein are based upon a usage of 240 hours per month. For actual use for more than 240 hours during one monthly period, the maximum additional rental price for each additional hour, or part of an hour, for such actual use shall be calculated upon the basis of 1/480 of the applicable rate per month shown in the foregoing schedule.

(b) If used for a part of a monthly period, the maximum rental rate for such part of the monthly period shall be calculated upon the basis of the higher of: (1) 1/30 of the applicable monthly rate for each daily period, or part thereof, of possession or (2) 1/240 of the applicable monthly rate for each hour, or part thereof, of actual use.

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the Lessee.

(d) Drivers' wages are excluded from all rates indicated hereon.

PART IV—DEFINITION AND GENERAL PROVISIONS

"Bare" basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, without supplying any operating and maintenance services required therewith.

Rental rates set forth in this table are for "bare" motor vehicles or trailers, and do not include charges for drivers, mechanics, greasers, gasoline, fuel oil, lubricants, repairs or maintenance (except that due to normal wear and tear) or any other charge which is properly a part of operating and maintenance service. The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling required as a result of normal wear and tear of vehicles. This means that:

(a) When vehicles are on bare rental and break down as a result of normal wear and tear, lessor cannot charge lessee with the cost of repairs, or any rental for the time lost while repairs are being made.

(b) Where vehicles on bare rental break down as a result of any cause other than normal wear and tear, lessor can charge lessee with the cost of repairs and with rental for possession of vehicles during the time while repairs are being made.

(c) However, where vehicles are on bare rental, the lessee may at his own expense always make minor repairs, regardless of the cause of breakdown, where such repairs are necessary to keep the job going, but he may not charge the cost of such repairs to the lessor or deduct the time lost for making repairs from the rental period, without the lessor's consent.

(d) In any instance where there is a breakdown of vehicles on bare rental, the cause of such breakdown is a question of fact that must be determined between the lessor and the lessee.

(e) A bare rental contract may provide for the assumption by the lessee of the duty to make all repairs and replacements at his own cost and expense, including those resulting from normal wear and tear and including tire repair or replacement, provided that in such event the rental shall not exceed 85% of the applicable maximum rental rate set forth in this table. By way of illustration but not limitation, such a lessee may be required to pay the entire cost of a repair or replacement necessitated by climatic conditions, fire, flood, tornado, etc., while the vehicle is or was in his possession, and the normal wear and tear resulting from his use and may be required to pay rental during the repair period. He may be required to pay a proportion of the cost of tires; for example, based upon his mileage use as compared with the normal mileage life of the tires. However, he shall not be required to pay for repair or replacement due to pre-existing or hidden defects, or to defective material, nor would he be required to pay rental during the repair period.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all sales of stock millwork at the retail level made by any seller located in the Toledo, Ohio Area and all sales at the retail level made within the Toledo, Ohio Area.

SEC. 2. *Geographical area covered.* The geographical area covered consists of that portion of the states of Ohio and Michigan located within a 7-mile radius of the Court House Square in Toledo, Ohio.

SEC. 3. *Definition of sales at retail level.* A sale at retail level is a sale to a consumer or to a purchaser for resale on an installed basis and not for resale uninstalled. A sale at retail level includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own measurements and specifications from plans and specifications furnished by the buyer, quotes a flat price, and guarantees sufficient material to complete a particular job.

SEC. 4. *Definition of stock millwork.* "Stock millwork" in this order includes such standard woodwork items listed in Table 1 and also any woodwork which is described as stock millwork in the following regulations: MPR 44, (Douglas Fir Doors); RMPR 293, (Stock Millwork); and MPR 589, (Douglas Fir Stock Millwork).

SEC. 5. *Explanation of symbols.* Designation "8–A" in the Table of Frame Prices refers to the description of the frames in the Catalogue 8–A, Standard Pine Frames, published by the Pinney Printing Company, Clinton, Iowa.

The term "N. D." as used in the Table of Sash Doors refers to the description as set forth in the National Door Manufacturer's Association publication entitled Standard Woodwork List Catalogue 40 as published by the Pinney Printing Company, Clinton, Iowa.

SEC. 6. *Maximum prices.* The maximum dollar and cent prices for stock millwork are provided in Table 1 which is attached to and made a part of this order.

The maximum prices of all sash doors provided in Table 1 are the maximum prices of sash doors embedded in putty. If sash doors are listed in Table 1, but are sold not bedded in putty, the maximum prices are provided in RMPR 293 plus the allowed markup in Maximum Price Regulation 525 plus 33⅓%.

The maximum prices for all sash and windows described in Table 1 include only maximum prices for chemically treated sash and windows. If not chemically treated 4 cents per window or sash must be deducted from the table price.

The prices provided herein are the maximum which may be charged for the stock millwork items shown whether purchased from manufacturers, jobbers, or self-produced. A seller may quote on a contract basis provided that he maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. Contract sales may not exceed the sum total of the maximum stock millwork prices for each and all items in the contract. Prices lower than the maximum prices may be charged.

SEC. 7. *Delivery additions.* The prices set forth in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery.

SEC. 8. *Maximum prices for stock millwork items not listed in Table 1.* The maximum price for any stock millwork item not listed in Table 1 shall be the basic jobber's carload price for that item as provided in MPR 525 to which may be added 33⅓%. Where jobber's lists have been issued on stock millwork and such lists provide for ⅓ off to dealers, those retail list prices must be reduced by at least 11%. All such prices may be rounded off to the nearest 5 cents.

SEC. 9. *Discounts and allowances.* The maximum prices in this order include all commissions. All customary discounts for cash must be continued.

SEC. 10. *Relationship of this order to MPR 44, RMPR 293, and GMPR.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of MPR 44, RMPR 293, and the GMPR are applicable to sales covered by this order, depending on the millwork involved.

SEC. 11. *Record-keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA for so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services involved, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such firm contract price.

SEC. 12. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 13. *Revocation or amendment.* This order may be revised, amended, modified or revoked at any time by the Office of Price Administration.

STOCK SCREEN DOORS AND COMBINATION STORM AND SCREEN DOORS IN DENVER REGION

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region VII by the Emergency Price Control Act of 1942, as amended, and pursuant to the provisions of General Order 68, it is hereby ordered:

SECTION 1. *What this order does.* This Order No. G–1 under General Order 68 covers all retail sales of stock screen doors and combination storm and screen doors by any seller in Region VII of the Office of Price Administration, which includes the States of Colorado, Montana, New Mexico, Utah, and Wyoming, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River.

SEC. 2. *Definitions.* (a) "Retail sales" means (1) sales to an ultimate user or to a contractor for re-sale on an installed basis; and (2) sales in which shipment to the purchaser, other than a distributor is not made in a pool or distribution car originating at the factory.

(b) A "distribution" or "pool car" is one shipped on orders of two or more buyers and distributed to these individual buyers at a delivery point or points specified by the buyers.

(c) "Screen doors" means all screen doors made of Ponderosa Pine and combination storm and screen doors made of Northern and Western Pine in the patterns or designs mentioned in the appendices of this order.

(d) "Pattern designations" mean the patterns pictured in the attached chart, Screen Door Patterns, which is incorporated herein.[1]

SEC. 3. *Applicability of other regulations.* The maximum prices established by this Order No. G–1 for sales of the articles in question supersede any maximum prices or pricing methods previously established by any other regulation or order. Except to the extent that they are inconsistent with the provisions of this order, all provisions of Maximum Price Regulation No. 381 shall apply to sales covered by this order. Specifically, carload sales to ultimate users or to contractors and mail order sales are not covered by this order but remain subject to Maximum Price Regulation No. 381, and the sale of all other patterns, numbers and types of stock screen goods not mentioned in the appendices of this order remain subject to Maximum Price Regulation No. 381.

SEC. 4. *Authorized maximum prices.* Upon and after the effective date of this Order No. G–1 the maximum prices for stock screen doors and combination storm and screen doors shall be the prices set forth in Appendix A and B, respectively, of this order.

SEC. 5. *Posting of notice regarding inspection.* Every seller making a sale covered by this order shall, if requested by the purchaser, make available to the purchaser for inspection a copy of this order. Every such seller shall post, in each of his places of business, in a manner plainly visible to all purchasers, the following notice:

NOTICE

A copy of Order No. G–1 under General Order 68 fixing maximum prices for retail sales of stock screen doors and combination storm and screen doors will be made available for inspection upon request by purchasers of such doors.

SEC. 6. *Sales slips and records.* (a) Every seller covered by this order who has customarily given his customers a sales slip or evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the customer a sales slip showing the date, name and address of the seller and customer, the description of each item sold and the price charged for each item. If such seller customarily prepared the sales slip in more than one copy, he must keep for at least one year after delivery a duplicate copy of each sales slip delivered by him, pursuant to this section. Each seller shall also keep at his place of business all records required by the applicable regulation and make the same available for inspection by representatives of the Office of Price Administration.

(b) Each seller, regardless of previous custom, must keep and retain, at his principal place of business, records concerning each sale covered by this order showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

SEC. 7. *Delivery additions.* In making sales under this order, the seller shall not make an additional charge within the free delivery zone recognized by him during March, 1942. For delivery outside of such free delivery zones the seller may add the actual charge or cost paid or incurred by him in making shipment or delivery from his establishment to the buyer. Where no free delivery zone was recognized by a seller in March, 1942, he may continue to make the same delivery charges made by him in March, 1942. Any seller subject to this order who was not in business in March, 1942, shall be governed by the recognized rates charged by competitors for delivery during March, 1942, in his community.

SEC. 8. *Extra freight charges.* A seller subject to this order located where the existing common carrier freight rate is in excess of 75¢ per hundred from the nearest jobbing point to the seller's place of business may increase his maximum prices for retail sales of screen doors by 2% and of combination storm and screen doors by 3%.

SEC. 9. *Discounts and allowances.* The maximum prices in this order include all commissions. All customary discounts for cash must be continued. Quantity differentials are provided in the price list included in the appendices.

SEC. 10. *Prohibitions against sales at higher than maximum prices.* On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell or offer to sell stock screen doors or combination storm and screen doors, covered by this order, at prices higher than the maximum prices established by this order.

SEC. 11. *Evasions.* (a) Any practice, scheme or device which results in a higher price to the purchaser of the services or other charges permitted by this order shall be deemed a violation of this order and subjects the seller to all the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942, as amended and extended.

(b) No seller shall, as a part of the consideration or as a condition of a sale of any of the services or other charges covered by this order, secretly or other-

wise receive, either directly or indirectly, any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly, acquire or receive the benefit of any services, transportation agreements, or other valuable thing, material or property.

(c) No seller shall eliminate or reduce in any form or manner any maintenance or repair service customarily offered or performed as a part of the services covered by this order nor shall the seller lower the quality of the materials furnished below that called for by the specifications or agreement.

(d) No seller shall, by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device, receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of any of the services or other charges covered by this order.

SEC. 12. *Less than maximum prices.* Prices lower than the maximum prices for sales covered by this order may, of course, be charged and paid.

SEC. 13. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 14. *Revocation or amendment.* This order may be revoked, modified or amended at any time by the Price Administrator or the Regional Administrator.

This Order No. G–1 shall become effective February 14, 1946.

Issued this 25th day of January 1946.

Regional Administrator.

ASSOCIATED GAS AND ELECTRIC CORP.

NOTICE OF FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 5th day of March 1946.

In the matter of Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation; File No. 30-194.

Notice is hereby given that an application has been filed with this Commission pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 ("Act") by Denis J. Driscoll and Willard L. Thorp, formerly Trustees of Associated Gas and Electric Corporation, for an order under said act finding that they have ceased to be a holding company.

Notice is further given that any interested person may, not later than the 25th day of March, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time thereafter such application as filed or as amended may be granted.

All interested persons are referred to said application which is on file in the office of this Commission for a complete statement of the matters contained in such application, which may be summarized as follows:

On or about August 15, 1940, Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, a corporation in reorganization under Chapter X of the Bankruptcy Act in the United States District Court for the Southern District of New York ("Court"), filed a notification of registration under section 5 (a) of the act. A joint plan of reorganization for Associated Gas and Electric Corporation and its parent, Associated Gas and Electric Company, filed pursuant to section 11 (f) of the act and Chapter X of the Bankruptcy Act was confirmed by the Court on August 9, 1945, and has since been consummated. Denis J. Driscoll and Willard L. Thorp, pursuant to an order of the Court dated January 10, 1946, have divested themselves of their right, title, and interest in and to all assets held by them as Trustees, except for claims or causes of action assertable by or in favor of the Trustees of Associated Gas and Electric Corporation, or the estate of Associated Gas and Electric Corporation. As a result of such action taken by them, applicants state that on January 11, 1946 they ceased directly or indirectly to own, control, or hold with power to vote 10% or more of the outstanding voting securities of a public utility company or of a holding company. In addition, pursuant to an order of the Court dated February 6, 1946, the resignations of Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, became effective. Accordingly, applicants request that the Commission find and declare by order that Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation in reorganization under Chapter X of the Bankruptcy Act, have ceased to be a holding company.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 27—TEMPORARY CIVIL SERVICE REGULATIONS

MISCELLANEOUS AMENDMENTS

Corrections are to be made in the regulations issued under this part (11 F. R. 1424) as follows:

§ 27.2 *Classification of the service*—(a) *Extent of the classified service.* • • • No right of classification shall accrue to persons whose appointment or assignment to classified duties is in violation of the civil service rules or regulations.

• • • • •

(e) *Apportionment.* The appointments of persons covered into the classified service under this section, by Executive order or otherwise, shall be exempted from the apportionment quota restrictions applied in certification. Such appointments shall be charged to the apportionment unless they fall in one of the categories which are excluded from the apportionment in original appointment under § 27.7.

(f) *Excepted employees; when classified.* • • •

(4) That until six months after the end of the war, as officially determined, this paragraph shall not apply to any person who received a war service appointment under § 18.5 (f) (1) or (2) of this chapter. • • •

(5) That in conferring a classified competitive status upon any employee under this or any other rule, regulation, or any statute or executive order, the Commission: • • •

(g) *Classification in post offices.* • • • On the effective date of any such order, paragraph (f) of this section shall apply to the incumbents of positions affected by the order. • • •

(h) *Appointment without competitive examination in rare cases.* • • • The appointment of persons who have been serving during the war period in highly specialized scientific or professional positions may be authorized without competitive examination whenever the Commission finds that their retention in the service is essential to the programs in which they are engaged. • • •

(i) *Service beyond seas.* A citizen of the United States who has rendered faithful service for not less than seven years beyond the seas in a civil capacity not in contravention of the civil service laws, rules, or regulations may be given a classified status under such regulations as the Commission may prescribe upon certification by the head of the department or office in which he served that the case is one of exceptional merit: *Provided*, That shortly before such employment he resided for a substantial period of time in the United States.

• • • • •

§ 27.3 *Examinations*—(a) *Competitive examinations.* • • • *Provided further*, That where in the opinion of the Commisison unlimited competition would result in far more eligibles than are required for the needs of the service, receipt of applications may be limited to that number which will meet the needs of the service for a reasonable length of time; in any such case of examinations for the departmental service in the metropolitan area, Washington, D. C., or of any other examinations where the area of competition extends beyond the boundaries of one state, the number of applications to be accepted from each state or territory or portion thereof that is included in the competitive area shall be in the same proportion to the total number of applications to be accepted as the population of the state or territory or portion thereof in the area of competition is to the entire area of competition.

• • • • • •

(c) *Examinations for scientific, technical, or professional positions.* • • • No minimum educational requirement will be prescribed in any examination except for such scientific, professional, or technical positions, the duties of which the Commission decides cannot be performed by a person who does not have such education. • • •

(2) (i) In order to assure the maximum utilization of the resources of the departments and agencies in the departmental service in the metropolitan area Washington, D. C., in the recruitment and placement of persons for the Federal service, the Commission, after consulting the department or agency concerned, may for examinations for scientific, professional, or technical positions which are peculiar to a department or agency, establish United States Civil Service Committees of Expert Examiners in the departmental service in Washington, D. C., composed of not less than three officers or employees of the particular department or agency, who are of outstanding competence in the various professional, scientific, or technical fields for which examinations are held.

* * * * *

§ 27.5 *Qualifications of applicants.* * * *

(c) *Disqualifications.* * * * (5) refusal to furnish testimony as required by § 27.14; * * *

§ 27.6 *Rating and eligibility*—(a) *Rating.* * * * In examinations where experience is an element of qualifications credit shall be given for all valuable experience, including experience gained in religious, civic, welfare, service, and organizational activities, regardless of whether any compensation was received therefor.

(b) *Preference.* In examinations for entrance into the service five points shall be added to the earned ratings of honorably discharged ex-service men and women who have served in any branch of the armed forces of the United States during any war or in any campaign or expedition (for which a campaign badge has been authorized). * * *

(c) *Eligible registers.* (1) All persons rated at 70 or more in open competitive and reopened examinations shall be eligible for appointment. The names of eligibles shall be entered on appropriate registers in accordance with their ratings: *Provided*, That the names of eligibles granted ten-point preference under these regulations shall be placed at the top of the appropriate register except on registers for positions in the professional and scientific service for which the basic entrance salary is over $3,000 per annum. The name of a preference eligible shall be entered ahead of all others having the same rating.

(2) When the Commission has established an eligible register for probational appointment for a particular position as the result of open competitive examination it may enter the names of the following classes of persons on such register in accordance with the order prescribed in subparagraph (1) of this paragraph: Persons having a classified (competitive) civil service status and who (i) left a Government position to enter the armed forces of the United States or the Merchant Marine and who fail to be restored to their former positions after such service; (ii) were granted reemployment rights after war transfer but who have not been reemployed; (iii) have been declared eligible by the Commission after appeal from separation under section 14 of the Veterans' Preference Act of 1944; and (iv) because of reduction in force, since August 14, 1945, have been, or are about to be separated or furloughed for 90 days or more from a similar or higher grade position in the same line of work. Persons eligible under this subparagraph must apply to the Commission for entrance on the register and shall be examined under the same standards used in the open competitive examination.

(3) Prior to, and after the establishment of probational registers the Commission will submit the names of persons in subparagraphs (2) (i), (ii) and (iii) to departments and agencies for consideration for reinstatement or reappointment. Departments, agencies, and the Commission shall make a positive effort to place such persons in positions for which they are qualified.

* * * * *

§ 27.7 *Certification*—(a) *Methods of filling vacancies.* * * *

(2) After establishment of register for probational appointment vacancies in any position for which an appropriate register of eligibles for probational appointment has been established shall be filled by noncompetitive action in accordance with §§ 27.9, 27.10 or 27.11 or by selection in accordance with this section from open competitive eligible registers: *Provided*, That whenever public announcement is made of an open competitive examination for filling a specific vacancy, except in the position of postmaster, such vacancy may not thereafter be filled noncompetitively by transfer, promotion, reassignment, or reinstatement, except that applications may be accepted by the Commission from persons eligible for promotion, transfer, reassignment or reinstatement who are recommended by the appointing officer at any time before appointment is made to the vacancy involved. The qualifications of such persons will be rated in accordance with the terms of the announcement and such persons may be reinstated, promoted, transferred, or reassigned to the position only if they are within reach for certification.

* * * * *

(c) *Selection.* * * *

(2) * * * If the reasons are found insufficient and the appointing officer still intends to appoint the nonpreference eligible, he shall, in conformity with the Veterans' Preference Act of 1944, submit either more detailed information concerning his reasons for passing over the preference eligibles or a statement that he has no more information in support of his selection. The nonpreference eligible tentatively selected may not be legally appointed except as provided in the following subparagraph until the appointing officer has received notification from the Commission concerning his second statement.

* * * * *

(e) *Apportionment.* Certification for appointment in headquarters offices of departments and agencies shall be so made as to maintain as nearly as the conditions of good administration warrant, the apportionment of appointments among the several States, Territories, and the District of Columbia upon the basis of population: *Provided*, That certification in the following cases shall be made without regard to the apportionment, and appointments in such cases shall be excluded from the apportionment figures:

(1) Certification of eligibles entitled to military preference.

(2) Certification for appointment to the following positions in all departments and agencies:

(i) Positions in headquarters offices which are located outside the metropolitan area of Washington, D. C.;

(iii) Apprentice positions in the recognized trades and skilled occupations;

(iv) Artisan and helper positions in all trades, occupations, and phases of the graphic and map reproduction arts that require trade knowledge and manual skill and effort in performance. Positions that require only clerical, technical, or professional knowledge in performance are not included;

(v) Positions of operating engineman, fireman, oiler, general helper, laborer, foreman of laborers, gardener, groundkeeper, animal keeper, chauffeur, truck driver, and telephone operator.

(3) Certification for appointment to all positions in the following establishments: The Government Printing Office, field offices of departments and agencies in the District of Columbia, field service of the military staff departments, and at Army Headquarters.

* * * * *

§ 27.8 *Temporary appointment*—(a) *Pending regular filling of vacancy.* Temporary appointment without examination and certification by the Commission shall not be made to a position in the classified service in any case, except when the public interest so requires, and then only upon the prior authorization of the Commission; * * *

(b) *Pending establishment of register.* Whenever there are no eligibles upon a register for any grade in which a vacancy exists and the public interest requires that the vacancy be filled before eligibles can be certified, the Commission may authorize temporary appointment provided that the agency determines that the standards prescribed by the Commission are met. Such appointment shall continue only for such period as may be necessary to make appointment through certification, and in no case, without prior approval of the Commission, shall extend beyond thirty days from the date of the receipt by the appointing officer of the certification of eligibles. * * *

(e) *Temporary appointment made probational.* The acceptance by an eligible of a temporary appointment shall not affect his standing on any register for permanent employment, and experience gained as a temporary shall in no way vary the order of certification for permanent appointment. A temporary appointment may be made permanent when the temporary appointee is within reach for permanent appointment at the time of his temporary appointment or in case he is so within reach during his temporary service. The probational appointment may date from the time when he came within reach for probational appointment. Such probational appointment may not be effected after expiration of the register except in the case of any person who meets the following conditions: (1) He shall have been appointed to a classified (competitive) position for other than temporary-job employment lasting for one year or less, (2) his appointment shall have been prior to March 16, 1942, with respect to positions generally or prior to October 23, 1943, with respect to positions in the field service of the Post Office Department, and (3) the records of the Commission clearly show that he stood higher on an appropriate civil-service list of eligibles than another eligible who received an original probational appointment from such list.

(f) *Temporary appointments authorized by agency.* • • •

(1) Preference shall be given in appointment first to qualified persons entitled to 10-point preference under the Veterans' Preference Act of 1944, second to qualified persons entitled to 5-point preference under that act, and third to qualified former federal employees. Upon establishment before the Commission that this order of selection has not been followed in any case, the person appointed may be removed.

• • • • •

§ 27.9 *Reinstatement*—(a) *General requirements for reinstatement.* A person separated from a civilian position in the Federal service may be reinstated to a position in the classified service subject to the following requirements: • • •

(2) He must be reinstated within one year of separation if his period of service was less than two years, within two years if his period of service was two years or more but less than three years, within three years if his period of service was three years or more but less than four years, within four years if his period of service was four years or more but less than five years, but if his period of service was five years or more he may be reinstated without time limit after separation: *Provided*, That these time limits shall not apply to those former classified employees entitled to preference under the Veterans' Preference Act of 1944, or to those whose war service appointments may be converted to reinstatements under paragraph (d) of this section: *Provided further*, That the person is otherwise eligible under the Executive order of June 2, 1920, which limits the reinstatement of persons who are within ten years of retirement age.

• • • • •

(4) He must have the knowledge and abilities required for the performance of the duties of the position to which reinstatement is proposed and he must meet the same standards as are required for promotion or reassignment to the position.

(5) Proof of residence will be required for reinstatement to a position in the apportioned service. The applicant must be eligible under the apportionment quota restrictions unless he is entitled to preference under the Veterans' Preference Act of 1944 or has previously served in the apportioned service. The Commission may, upon request of the appointing officer, waive the apportionment when the reinstatement is in the interests of good administration.

(b) *Certificate required for reinstatement.* A certificate issued by the Commission will be required for reinstatement in the following cases:

(1) When the residence of the former employee proposed for reinstatement is in a state which is in excess of its quota and a waiver of the apportionment is desired.

(2) When the proposed reinstatement is to a position in a different line of work from or of a higher grade than the one from which separated unless the former employee could be promoted without prior approval of the Commission under § 27.11 (d), or unless he has been examined for the higher grade position by the appropriate office of the Commission subsequent to the effective date of this part.

(3) When the person proposed for reinstatement was removed for cause from his last position in the Federal or District of Columbia Governments, or when his removal was made at the specific request of the Commission because of his failure to meet conditions imposed at the time of his appointment.

(c) *Certificate not required for reinstatement.* Except as provided in paragraph (b) of this section, reinstatements of employees who meet the requirements of paragraph (a) of this section may be made by the departments and agencies without certificate of the Commission. Such reinstatements shall be subject to post-audit and the Commission, in its discretion, may disapprove any reinstatement, or suspend or withdraw this delegation of authority from any department or agency whenever it determines that the requirements of this section have not been met.

• • • • •

§ 27.10 *Transfer*—(a) *General requirements for transfer.* An employee occupying a position in the classified service may be transferred to another position in the classified service subject to the following requirements:

(1) He must have a classified (competitive) status at the time he is transferred, and have received an absolute appointment or have completed satisfactorily at least 6 months of service under a probational appointment. If he is transferred before the completion of his probation, a probationary period of sufficient duration to complete his original probationary period will be required.

(2) He must have the knowledges and abilities required for the performance of the duties of the position to which he is transferred and meet the same standards as are required for promotion or reassignment to the position.

(3) He must present an official notice of his actual or impending separation because of a reduction in force, an official notice of furlough, or an official release granted by his department or agency or, upon appeal, by the Commission.

(4) Proof of residence will be required in transfers from a position in the nonapportioned service to the apportioned service. The transferee must be eligible under the apportionment quota restrictions unless he is entitled to preference under the Veterans' Preference Act of 1944, or has previously served in the apportioned service. The Commission may, upon request of the appointing officer, waive the apportionment when the transfer is in the interest of good administration.

(b) *Certificate required for transfer.* • • •

(2) When the transfer is to a higher grade position than the one in which the employee is serving unless he could be promoted without prior approval of the Commission under § 27.11 (d).

(3) When the transfer is to a position in a different line of work unless he has been examined for such position by the appropriate office of the Commission subsequent to the effective date of this part.

• • • • •

(c) *Certificate not required for transfer.* Except as provided in paragraph (b) of this section, transfers of employees who meet the requirements of paragraph (a) of this section may be made by the departments and agencies without certificate of the Commission. Such transfers shall be subject to post-audit and the Commission, in its discretion, may disapprove any transfer, or suspend or withdraw this delegation of authority from any department or agency whenever it determines that the requirements of this section have not been met.

• • • • •

(e) *Special transfers*—(1) *From the office of the President.* Any person who has served for at least 2 years in the immediate office of the President of the United States may be transferred to a classified position upon such tests of fitness as the Commission may deem proper.

(2) *From the Philippine service.* An officer or employee occupying a competitive position in the Philippine classified service who has served 3 years or more therein, may be transferred to the Federal classified service, subject to the provisions of this part; but the Commission may authorize the transfer of an officer or employee who has served 2 years in the Philippine classified service and who has been separated by necessary reduction of force or by displacement by a Filipino, if he is especially recommended by the Department of the Interior because of his efficiency and good character. In all cases of proposed transfer from the Philippine classified service the Interior Department shall furnish the Commission, for its consideration, all relevant information contained in its files, together with the service record of the employee.

(3) *From the Puerto Rican service.* The Commission may, in its discretion, authorize the transfer of employees from the civil service of Puerto Rico to that of the United States, subject to the limitations respecting transfer within the civil service of the United States.

(4) *From the Panama Canal service.* A citizen of the United States in the service of the Panama Canal on or before January 1, 1915, in an excepted position may, if recommended by the Panama Canal, be transferred to any position in the classified service for which he can qualify, *Provided:*

(i) This subparagraph shall not apply to a person appointed to a competitive position in accordance with the civil service rules or regulations, the transfer of such person to be governed by the general provisions of the regulations.

(ii) This subparagraph shall not apply to a person appointed without examination to perform the duties of clerk of any grade, bookkeeper, stenographer, typist, surgeon, physician, trained nurse, or draftsman.

(iii) The transferee has rendered at least 2 years of service in a position above the grade of unskilled laborer in the service of the Panama Canal or of the Panama Railroad by transfer from the Panama Canal.

§ 27.11 *Promotion*—(a) *Requirement for promotion.* (1) No employee shall be promoted or reassigned to a position in the classified service unless he has a classified (competitive) status and unless he has the knowledge and abilities required for the performance of the duties of the position to which he is proposed for promotion or reassignment.

(2) Proof of residence will be required in promotions or reassignments from a nonapportioned position to an apportioned position. The apportionment shall be observed in promotions or reassignments unless the employee is entitled to preference under the Veterans' Preference Act of 1944 or has previously served in the apportioned service. The Commission may, upon request of the appointing officer, waive the apportionment when the promotion or reassignment is in the interest of good administration.

• • • • •

§ 27.12 *Removals and reductions*—(a) *Procedure to be followed.* • • •

(2) *Employees entitled to military preferences.* The regulations governing appeals to the Commission under section 14 of the Veterans' Preference Act of 1944 (Part 22 of this chapter, 5 CFR, 1945 Supp., 10 F.R. 12181) shall be followed in connection with the removal, suspension for more than thirty days, furlough without pay, or reduction in rank or compensation of any employee entitled to five- or ten-point preference under this part.

(b) *Like penalties for like offenses.* In making removals or reductions, and in other punishment, like penalties shall be imposed for like offenses, and no discrimination shall be exercised for political or religious reasons, or because of marital status, race, creed, color, or national origin.

(c) *Suspensions.* Pending action under paragraph (a) (1) of this section, or for disciplinary reasons, an employee may be suspended for a period of not to exceed 90 days: *Provided*, That no permanent or indefinite employee entitled to five- or ten-point preference under this part who has completed a probationary period shall be suspended for more than thirty days except in accordance with the regulations governing appeals to the Commission under section 14 of the Veterans' Preference Act of 1944. The reasons for such suspension shall at the time of the suspension be filed in the records of the department or agency concerned and copies shall be furnished the Commission upon request. The period of suspension may be extended beyond 90 days with the prior consent of the Commission.

(d) *Power to investigate.* Except for cases referred to in paragraph (a) (2) of this section, the Commission shall have no jurisdiction to review the findings of a removing officer upon the charges and answer provided for in paragraph (a), nor shall the Commission have authority to investigate any removal or reduction, unless it is alleged, with offer of proof, that the procedure required by paragraph (a) of this section has not been followed, or that the removal was made because of marital status, race, or for religious or political reasons. However, an employee who has been removed on charges shall not for that reason be ineligible for further employment in the classified service but his suitability for further employment shall be determined by the Commission upon receipt of an official request for his reinstatement, or when he files application for an examination.

(e) *Reduction in force.* When reductions in force are being made in any part of the classified service competing employees shall be released in accordance with the retention preference regulations issued by the Commission pursuant to section 12 of the Veterans' Preference Act of 1944 (Part 22 of this chapter, 5 CFR, 1945 Supp., 10 F.R. 1218).

§ 27.13 *Report of changes.* • • •

(b) *List of positions.* Such officers shall also furnish to the Commission, when requested, and in such manner as it may prescribe, information as to numbers of employees, pay-roll data, and a list of all the positions, and employments under their authority, together with the names, designations, compensations, duties, and dates of appointment or employment of all persons serving therein.

• • • • •

§ 27.16 *Transition promotions, transfers; reappointments*—(a) *Coverage*—(1) *Positions.* This section shall apply to positions in the classified service for which no appropriate register of eligibles for probational appointment has been established. When the Commission has established a probational register for a particular position paragraphs (b), (c), and (d) of this section shall cease to be operative with respect to all positions for which that register is an appropriate source of eligibles.

(2) *Employees.* This section shall apply to any civilian employee or former employee of any agency in the executive branch of the Federal government, the General Accounting Office, the Government Printing Office, the District of Columbia Government, or the Administrative Office of the U. S. Courts.

(b) *Promotion, intra-agency transfer, and reassignment.* Any employee to whom this section applies who is serving under a war service indefinite, probational, or permanent civil service appointment, or under § 27.8 (b), may be promoted, transferred, or reassigned within the same department or agency without prior approval of the Commission, subject to such standards, limitations, or exceptions as may be issued by the Commission.

(c) *Inter-agency transfer.* Any employee to whom this section applies who is serving under a war service indefinite, probational, or permanent civil service appointment may be transferred without prior approval of the Commission: *Provided*, That the employee presents an official (1) notice of actual or impending separation because of reduction in force, or (2) notice of furlough, or (3) release for employment elsewhere issued by the agency in which employed, or by the Commission: *Provided further*, That the transfer is to a position in the same or equivalent grade, a lower grade, or to a higher grade than the one in which the employee is serving if the employee meets the requirements for promotion to such position.

(d) *Reappointment.* (1) A former employee to whom this section applies who has been separated for less than 30 calendar days may be reappointed without prior approval of the Commission subject to the same conditions prescribed in paragraph (c) of this section for inter-agency transfer.

(2) A former employee to whom this section applies who has restoration rights after military or merchant marine service, or reemployment rights after war transfer, in a Federal agency but who has not been restored or reemployed by such agency, may be reappointed by another agency without prior approval of the Commission: *Provided*, That he is reappointed to a position in the same or equivalent grade, a lower grade, or to a higher grade than the one in which he formerly served if he meets the requirements for promotion to such position: *Provided further*, That he applies for such reappointment within the same period as would be required for restoration or reemployment in the agency in which he has such right.

(e) *Reinstatement.* A former employee who is not eligible for reappointment under paragraph (d) (1) of this section may be reinstated in accordance with § 27.9 if he meets the requirements of that section.

(f) *Trial period.* Persons who are serving a trial or probationary period when promoted, reassigned, or transferred under this section will complete their trial or probationary period in the new position. Persons reappointed under this section who were serving a trial or probationary period at the time of sep-

aration from their last positions will be required to complete their trial or probationary period in the position to which reappointed. No trial or probationary period will be required in other promotions, reassignments, transfers, and reappointments under this section.

(g) *Status of employees.* The civil service status and tenure of an employee will not be changed by virtue of promotion or reassignment under this section.

In all transfers under this section the employee shall retain for all intents and purposes under the civil service laws, rules, and regulations the same civil service status which he had in the agency from which he was originally transferred. No employee who has been transferred from a probational or permanent civil service appointment during the period the War Service Regulations were in effect, or who is transferred under this section, shall, by reason of such transfer, lose his right to permanent tenure as a classified civil service appointee. No time limit administratively placed on the appointment to the position to which transferred shall affect the employee's rights to permanent tenure as a classified civil service appointee in the agency in which employed unless he was transferred to a position with a time limitation of one year or less.

Any employee who, on or after March 16, 1942, was appointed or reappointed under the War Service Regulations, or who is reappointed under this section, within 30 calendar days after separation from a probational or permanent civil service appointment, shall be entitled to the same benefits he would have had under reinstatement in accordance with Part 9 of this chapter (Civil Service Rule IX). Such an employee has permanent tenure as a classified civil service employee in the agency in which employed unless he was appointed or reappointed with a time limitation of one year or less.

An employee reappointed under this section will have the same civil service status and tenure in the agency to which reappointed as he had in the agency in which he last served unless he was reappointed with a time limitation of one year or less.

Any transfer or reappointment of an employee who was originally appointed "subject to investigation" will be subject to the results of the investigation.

Any transfer or reappointment of an employee who has been recommended for classification in his former position, and whose suitability for classification was under investigation, shall be subject to the results of such investigation.

(h) *Reemployment benefits.* (1) Any person, except one who was holding a temporary position, who was transferred by the Commission with reemployment rights under authority of Executive Order 8973 (3 CFR Cum. Supp.) or 9067 (3 CFR Cum. Supp.) or War Manpower Commission Directive No. X, and who is subsequently involuntarily furloughed or separated without cause such as would reflect upon his suitability for employment in the Federal service or who meets the conditions of subparagraph (6) of this paragraph, shall be entitled to the rights specified below, provided he is still qualified to perform the duties of his position and that he makes application for reemployment within forty days after the termination of his services, but in no event later than six months after the end of the war is officially determined; • • •

In section 27.16 (h) change the numbering of subparagraphs (1) (iii) to (2), (1) (iv) to (3), (1) (v) to (4), (1) (vi) to (5) and (1) (vii) to (6).

President.

PART 930—MILK IN THE TOLEDO, OHIO, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, it is hereby determined that the provisions of such order which provide seasonal minimum prices on Class I milk and Class II milk, respectively, during April, May, and June 1946, are provisions which obstruct and do not tend to effectuate the declared policy of the act with respect to producers of milk under such order.

It is, therefore, ordered, That the following provisions of the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area be suspended for the period as of the beginning of April 1, 1946, and extending through June 30, 1946:

1. In § 930.5 (a) (1), the words "during the delivery period of June 1942; and thereafter add the following amount per hundredweight:

and

2. In section 930.5 (a) (3), the words "except during the months of April, May, and June, when the Class III price shall be the price determined pursuant to sub-paragraph (4) of this paragraph, less 10 cents."

(3) Effective April 1, 1946, no person shall, during any calendar quarter, receive or accept wheat mill feeds, or offer to receive or accept the same, whether by purchase and sale, trade, barter, gift, loan, exchange, or otherwise, in any quantity which will cause his total receipts of wheat mill feeds during such calendar quarter to exceed one-sixth of his total receipts of wheat mill feeds during the calendar year 1945.

3. By adding immediately after paragraph (s) the following new paragraph:

(t) *Restrictions on use of wheat mill feeds.* No person shall, during any calendar month, use wheat mill feeds in the manufacture of mixed feeds, including poultry feed, in excess of two-thirds of the quantity of wheat mill feeds so used by such person during the corresponding calendar month of 1945.

PART 805—GENERAL WAGE APPROVALS

STEEL INDUSTRY AND RELATED INDUSTRIES

§ 805.2 *Granting of pre-approval for wage and salary adjustments designed to eliminate intraplant inequities in plants and related plants.* (a) Section 5 of General Order No. 1 issued February 21, 1946 (11 F.R. 1892), by the Stabilization Administrator pre-approved any wage increase not in excess of 18½ cents per hour above the rate paid by an employer on August 18, 1945, to employees in certain classes of plants in the basic steel and certain related industries as described in such order.

(b) The National Wage Stabilization Board recognizes that wherever an employer institutes wage increases which are approved under section 5 of General Order No. 1, such employer may find it necessary to institute similar or related adjustments for other employees in the same plants who are under the jurisdiction of the National Wage Stabilization Board but are not covered by the provisions of section 5 of General Order No. 1 of the Stabilization Administrator. Accordingly, the Board hereby grants pre-approval for any such wage or salary increase for employees in any of the plants covered by section 5 of such General Order No. 1, but who are not covered by the terms of that order, to the extent such increase is not in excess of 18½ cents per hour above the wage or salary rate paid by the employer on August 18, 1945.

(c) This pre-approval is limited to wage or salary increases to employees whose wages or salaries are subject to the jurisdiction of the National Wage Stabilization Board.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 14]

DISPOSAL OF CERTAIN COTTON FABRIC FOR USE IN THE MANUFACTURE OF RUBBER AND CANVAS FOOTWEAR

The following direction is issued pursuant to Priorities Regulation 13:

(a) *Effect of this direction.* There is an urgent need for cotton fabric suitable for use in the manufacture of rubber and canvas footwear of vulcanized construction, since cotton fabric is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to make available immediately for the above uses approximately 350,000 yards of 7.5 oz., unbleached cotton drill, now held by the War Assets Corporation as surplus property under declaration No. 6-21682; and approximately 276,000 yards of 4.6 oz., 41" bleached 68/74 sheeting, now held by the War Assets Corporation as surplus property under declaration No. 2-12284. It permits sales of these lots of cotton fabrics to be made by the War Assets Corporation only to persons permitted to purchase under paragraph (b) below.

Although this direction restricts sales to persons who will use the fabric for the purposes specified, it does not prohibit the War Assets Corporation from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as the War Assets Corporation may determine; and preference ratings have no effect upon any sales which may be made by the War Assets Corporation either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the cottom fabric from the War Assets Corporation.

(b) *Persons who may purchase.* No person may buy from the War Assets Corporation any of the surplus cotton fabrics referred to in paragraph (a) above, and the War Assets Corporation may not sell any of such fabric except where the purchaser is a manufacturer of rubber and canvas footwear of vulcanized construction and gives a certificate with his purchase order in substantially the following form:

> The undersigned certifies to the seller and CPA and subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that (i) he is a manufacturer of rubber and canvas footwear; and (ii) the fabric obtained under this purchase order will be used only for the manufacture of rubber and canvas footwear of vulcanized construction.

The standard certification in Priorities Regulation 7 may not be used instead of this certificate.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the fabric he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked, this direction shall expire on March 31, 1946; but its expiration at that time shall not relieve any person who has obtained cotton fabric by use of the certificate referred to above, from the obligation of using the fabric in accordance with the certificate which he has given.

Issued this 6th day of March 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Direction 5, as Amended Mar. 8, 1946]

SPECIAL PROVISIONS FOR ASSIGNMENT OF CC RATINGS IN ORDER TO INCREASE PRODUCTION OF LUMBER, LOGS, PULPWOOD, SOFTWOOD VENEER, SOFTWOOD PLYWOOD AND MILLWORK

The following direction is issued pursuant to Priorities Regulation 28:

(a) The supply of lumber, logs, pulpwood, softwood veneer, softwood plywood and millwork is substantially less than present and anticipated requirements; and this shortage is so serious as to threaten the required expansion in construction. This shortage is, therefore, a serious threat to the economy of the country during the reconversion period. Consequently, the Civilian Production Administration will assign CC ratings as provided in paragraph (d) (1) (iii) of Priorities Regulation 28 in accordance with the conditions of this Direction, where necessary to maintain or expand the production of lumber, logs, pulpwood, softwood veneer, softwood plywood and millwork.

(b) *Lumber, log, pulpwood, softwood veneer, softwood plywood and millwork producers*—(1) *Capital equipment.* CC ratings may be assigned to lumber, log, pulpwood, softwood veneer, softwood plywood producers, and producers of housing millwork for capital equipment other than "special equipment" where the producer is unable to obtain delivery without a rating, and

(i) The equipment will result in substantial increase in production or maintain the present rate of production, or

(ii) The equipment is needed to replace the present operating equipment which is in danger of imminent breakdown.

CC ratings may be assigned to the delivery of "special equipment" only for replacement in case of an irreparable breakdown and resultant loss in production or where it is determined that a rating is necessary to expedite delivery of such special equipment in

preference to delivery of other equipment for less important purposes.

(2) *Construction.* CC ratings may be assigned for materials which cannot be obtained without ratings and where required for expansion of existing plants.

(3) *Maintenance, repair and operating supplies.* CC ratings may be assigned for maintenance, repair and operating supplies needed by lumber producers, log producers, pulpwood producers, producers of softwood veneer, producers of softwood plywood, and producers of housing millwork (suitable for house construction), where the producer demonstrates that he is unable to obtain the items without priorities assistance.

(c) *Definitions.* (1) "Special equipment" means equipment which is produced only for use in logging or sawmill operations.

(2) "Lumber producer" means the operator of any plant, stationary or portable, which produces lumber not further manufactured than by sawing, resawing, passing lengthwise through a standard planing machine, crosscutting to length and working. The term does not include any establishment known in the trade as a "distribution yard", engaged in either retail or wholesale business, even though it may process lumber for the servicing of special orders from customers.

(3) "Log producer and pulpwood producer" means any person engaged in the felling or bucking of trees or the transportation of the yield from the felled trees from the woods to other points at which such output is delivered for manufacture or shipment.

(d) *Denials of CC ratings.* The CC rating will be denied where it appears that the item for which a CC rating is requested is available, but under different terms of sale or from a supplier other than the applicant's customary supplier.

(e) *PR 28 still applies.* In any case not covered by the above, CC ratings will be assigned only as provided in Priorities Regulation 28.

Issued this 8th day of March 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Mar. 8, 1946]

INVENTORIES

(a) What this regulation does.

General Restrictions

(b) Restriction on delivery.
(c) Restrictions on receipts.
(d) Restriction on ordering more than needed.
(e) Adjusting outstanding orders when requirements change.
(f) Restriction on processing.

Exceptions

(g) In general.
(h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

(i) Previous inventory authorizations.
(j) Separate inventories.
(k) Redistribution of excess inventories.
(l) Violations.
(m) Revisions of tables.
(n) Appeals, letters and questions.

§ 944.53 *Priorities Regulation 32*—(a) *What this regulation does.* This regulation contains the inventory rules formerly in § 944.14 of Priorities Regulation 1 and in CMP Regulation 2. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

General Restrictions

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

NOTE: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts*—(1) *General rule.* A person may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on the basis of his current or scheduled method and rate of operation.

NOTE: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another CPA order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month, may be accepted from a producer of steel, iron products, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to Priorities Regulation 1, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive, whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scrapping or reprocessing them, unless a CPA order specifically says otherwise.

Exceptions

(g) *In general.* This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR-13.* Priorities Regulation 13 provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be made and accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to adjust; or

(2) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be made by and accepted from a producer if it has already been produced or is in production before receipt of the instruction to adjust, and it cannot be used to fill other orders on the producer's books.

NOTE: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

Miscellaneous Provisions

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Redistribution of excess inventories.* Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the Civilian Production Administration.

(l) *Violations.* Any person who wilfully violates any provision of this regulation, or who, in connection with this regulation, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Inventory Control Division, Civilian Production Administration, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 8th day of March 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction whether for own account or for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia. In the case of persons who are not "users", such as persons buying for resale, paragraph (c) (1) applies instead of Column 2.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

NOTE. Table amended Mar. 8, 1946.

TABLE 2—CLASSES OF PERSONS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. The classes of persons listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation.

Column 2 shows either the CPA order or regulation which controls the inventories of the particular class of persons, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

Column 3 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 4 (Remarks) gives explanations, exemptions or other special rules applicable to the particular class of persons or limitation. Where this column specifies certain materials, the limitation or exemption for the particular class of person applies only to the materials specified.

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation". This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Civilian Production Administration for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months; this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2 to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any CPA order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945)

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945)

If the Administrator finds that the landlord was not at fault in failing to file a proper registration statement within the time specified, the order under section 5 (c) (1) may relieve the landlord of the duty to refund. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of §§ 1300.209 or 1300.217 of Revised Procedural Regulation No. 3. If the Administrator finds that the landlord was not at fault in failing to comply with this paragraph (b), the order may relieve the landlord of the duty to refund. The foregoing provisions and any refund thereunder do not affect any civil or criminal liability provided by the act for failure to comply with any requirement of this paragraph (b).

This amendment shall become effective March 9, 1946.

AUTHORITY. § 1305.176 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155, E.O. 9651, 10 F.R. 13487.

SECTION 1. *Purpose.* The purpose of this order is to authorize individual adjustments in manufacturers' maximum prices to remove price impediments to the continued supply of certain low-end consumer durable goods.

SEC. 2. *Low-end articles covered by this order.* The low-end articles covered by this order are divided into two groups:

Appendix A lists articles whose maximum prices may be adjusted if they do not exceed the appropriate "cut-off" price for the commodity. Cut-off prices listed in Appendix A are for sales to the particular class of purchasers designated. Cut-off prices to other classes of purchasers shall be prices which reflect the manufacturer's customary or established differentials for sales to those other classes of purchasers. If, for any reason, the manufacturer has no such customary or established differentials, the Office of Price Administration will, upon request, advise him as to the appropriate cut-off prices to any other classes of purchasers which reflect customary trade differentials.

Appendix B lists articles whose maximum prices may be adjusted when it appears that the manufacturer's maximum price is below the prevailing level of maximum prices of other manufacturers for sales of the same or substantially the same article to purchasers of the same class.

SEC. 3. *When a maximum price may be adjusted under this order.* (a) A manufacturer's maximum price for a low-end article may be adjusted under this order if his maximum price, including any adjustments previously authorized by the Office of Price Administration, is below the adjusted maximum price for which he can qualify under this order. Maximum prices for low-end articles made by a "reconverting manufacturer" as defined in section 2 of Revised Supplementary Order No. 119 may be adjusted under this order only after the manufacturer has had three months of production experience.

(b) Any order adjusting a manufacturer's maximum price under this order may make appropriate adjustments in the maximum prices of persons who purchase the article for resale.

(c) Certain articles whose maximum price may be adjusted under this order are covered by other orders or regulations which provide for the pre-ticketing of the article with its retail ceiling price and the calculating by the manufacturer of retail and wholesale ceiling prices by the use of markups over the manufacturer's ceiling price. In the case of those articles, the manufacturer shall compute resellers' ceiling prices under such orders or regulations on the basis of his adjusted maximum prices permitted by this order and shall comply with their tagging requirements and all other applicable provisions of those orders or regulations.

SEC. 4. *Amount of the adjustment.* (a) A manufacturer's maximum price for a low-end article may be adjusted to an amount sufficient to cover his "total unit cost to make and sell" the article plus one-half the industry's average profit margin during a normal peacetime period. The profit factors applicable to certain articles are set forth in Appendices A and B. If a profit factor is not listed in the Appendix, one-half the manufacturer's own average profit margin during the period 1936–1939 may be used; or if the manufacturer was not making the same type of product during that period, the Price Administrator will determine an appropriate profit factor to be used by reference to the average earnings of an appropriate comparable industry.

(1) "Total unit cost to make and sell" means the total current cost of direct materials, direct labor, reasonable factory overhead, and reasonable general administrative and selling expenses, applicable to the article. (Prices used in computing material cost may not be higher than the ceiling prices of the manufacturer's normal sources of supply for sales in customary quantities. Labor rates used in computing labor cost may not be higher than the manufacturer's legal straight time wage rates, and may not include wage increases which have not been approved for use as a basis for price increases under the regulations of the Office of Stabilization Administration.) If a manufacturer produces several variations of an article (whose maximum price is to be adjusted under this order) which, although they differ in minor respects resulting in differences in production costs, have the same maximum price, the total unit cost to make and sell the lowest cost item shall be considered to be the total unit cost to make and sell the article.

(2) The total unit cost submitted may be revised by the Price Administrator in whole or in part if it appears to be out of line with the total unit costs of other manufacturers, if it has not been prepared to reflect actual costs in accordance with accepted accounting procedures, or if, in the case of a reconverting manufacturer it is inconsistent with the costs which are recognized as allowable under Revised Supplementary Order 119.

(b) For articles listed in Appendix A, adjusted maximum prices may be stated in the order authorizing the adjustment as either dollar-and-cent amounts, or (where the manufacturer produces many low-end articles of the same type and he has complied with section 5 (b)) as a percentage increase factor applicable to all low-end articles of the same type which he manufactures. In no case, however, may an adjusted maximum price authorized under this order for those articles exceed the lower of the following two amounts:

(1) The appropriate dollar-and-cents cut-off price; or

(2) The manufacturer's previous maximum price (exclusive of any individual price adjustment which may have been granted him) plus the maximum percentage adjustment set forth for the article in Appendix A, if any.

(c) For articles listed in Appendix B, an adjusted maximum price authorized under this order may not exceed the lowest maximum price, for sales to purchasers of the same class of the same or substantially the same article currently being produced by any other manufacturer, which falls within the range of prices constituting the prevailing level of maximum prices for that article.

NOTE: For example, if there are eight manufacturers with prices as follows: 10¢, 11¢, two at 14¢, two at 15¢, 16¢ and 19¢, the range of prices in the prevailing level would be from 14¢ to 16¢ and 14¢ would be the cut-off.

SEC. 5. *How the adjustment shall be granted.* (a) A manufacturer of an article covered by this order who wishes an adjustment of his maximum price should file an application for adjustment on OPA Form 606–2718 giving all the information required by that form, and showing adjusted maximum prices computed in accordance with that form. The application shall be filed in duplicate with the Office of Price Administration, Consumer Goods Price Division, Washington 25, D. C.

(b) If a manufacturer has so many low-end articles of one type that it would be an undue administrative burden for him to submit costs for each individual article, he may (prior to filing an application under this order) request OPA to supply him with instructions covering the preparation of a consolidated application with supporting cost information on the basis of which an "increase factor" may be determined to be applied uniformly to all his low-end articles of that type.

(c) At any time after the filing of an application, the Office of Price Administration may issue an order, not to apply retroactively, adjusting the maximum prices of articles described in that application.

(d) No commodity, for which an adjustment is requested under the provisions of this order may be sold at a price higher than its existing maximum prices (except as provided in paragraph (c) below) until an adjustment in the maximum price has been authorized by order of the Office of Price Administration issued under this supplementary order.

(e) A manufacturer who has applied under the provisions of this order for an adjustment of his maximum prices for an article listed under Appendix A, may, 20 days after the filing of such application, in the absence of notification by the Office of Price Administration to the contrary, sell and deliver the articles covered by that application at the adjusted prices computed in his application, or at his existing maximum prices plus 10%, whichever is lower; *Provided*, That the figures furnished on OPA Form 606–2718 and computations based thereon have been made in good faith and that the adjusted prices do not exceed the cut-off price or maximum percentage adjustment given in the appendix for that article. The adjusted maximum prices as computed by the manufacturer are subject to downward revision by the manufacturer are subject to downward revision by the Office of Price Administration at any time.

SEC. 6. *Revocation or amendment.* This supplementary order may be revoked or amended by the Price Administrator at any time.

APPENDIX A

In this appendix are listed categories of low-end articles on which adjustments may be granted when their maximum prices are below the appropriate cut-off prices. Unless otherwise stated the cut-off prices in Column II are for sales by the manufacturer to jobbers or equivalent large volume classes of purchasers; cut-off prices to other classes of purchasers shall be determined according to section 2 of the order. These cut-off prices limit the amount of adjustment which may be granted since no adjusted price may be greater than the appropriate cut-off price.

In the case of certain articles, Column III states maximum percentages. A manufacturer's adjusted maximum prices for those articles may not exceed either the given maximum percentage over his existing maximum prices (exclusive of any individual adjustment he may have previously been granted), or the appropriate cut-off price.

In Column IV (and also in Appendix B) are listed the profit margin factors which are to be used in calculating adjusted maximum prices under this order. Each factor represents one-half the average earnings (net profits before taxes over total cost) for the years 1936–1939 of the industry producing that particular article as determined by the Administrator.

NOTE: Attention is directed to the fact that these factors do not disclose the relative profitability of the industries represented. Profitability is measured by rate of return on net worth or investment. This in turn depends not merely on the ratio of the margin between net income and total costs to total costs, which is reflected in the listed figures, but also on the rate of turnover of the product and the net worth of, or investment in, the industry.

Exclude data for vehicles the expenses of which are included in account 3103—Debits—Intercity Service.

[2] Include data for intercity vehicles used to supplement Collection and Delivery vehicles in Collection and Delivery service. Include also data for intercity vehicles operated in Collection and Delivery Service between the reporting carrier's terminals and shipper's, consignee's, or connecting lines platforms handling either truck load or L. T. L. freight.

[1] Provide for separation of data between vehicles used principally in intercity service, and vehicles used principally in Collection and Delivery Service and between Contract and Common Carrier operations.

DEFINITIONS

Integrity service means transportation of freight between a city, town, or commercial zone (including contiguous areas) and a point outside such city, town or commercial zone. Include loop runs, i. e., runs originating and terminating at the same terminal and peddle trips,[1] the mileage of which is preponderantly outside the city, town or commercial zone from which the trip was operated.

Collection and delivery service means the pick-up and delivery of intercity freight within a city, town or commercial zone (including contiguous areas). Include the operation of intercity vehicles between the reporting carrier's terminals and shipper's, consignee's, or connecting lines platforms handling either truckload or L. T. L. freight. Include also those peddle trips,[1] the mileage of which is preponderantly within the city, town or commercial zone from which the trip was operated.

Local Service (local cartage) means transportation of freight from consignor to consignee within one city, town or commercial zone (including contiguous areas). Expense incurred in the performance of local cartage service in conjunction with collection and delivery service, the revenue for which is included in account 3120, shall be charged to the Collection and Delivery primary accounts and subaccounts as appropriate.

3. Received by connecting carrier and terminated by reporting carrier.
4. Received from connecting carrier and delivered to connecting carrier.

Carriers using punch card accounting machines will experience no difficulty in securing the data necessary for reporting these statistics.

Carriers not using punch card accounting machines will have to secure this data manually by sorting out the freight bills which were:

(1) Originated by the carrier and delivered to a connecting carrier;

(2) Received from a connecting carrier and terminated by reporting carrier;

(3) Received from a connecting carrier and delivered to a connecting carrier;

and the remainder will represent those shipments originated and terminated by the reporting carrier. Adding machine tapes should be run on the first three classes for both revenue and weight. If done on a daily or weekly basis by each terminal and summaries forwarded to the home office, where all terminal summaries will be summarized for the reporting period, it will not be burdensome.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service

Subchapter Q—Alaska Commercial Fisheries

PART 201—ALASKA FISHERIES GENERAL REGULATIONS

DETERMINATION OF DISPUTES OVER TRAP LOCATIONS

1. In order to secure the conservation of the salmon supply of Alaska in a manner consistent with the requirements and purposes of the act of June 6, 1924 (43 Stat. 464) and related legislation, to prevent the development of monopoly and the maintenance of exclusive rights in the maritime public domain in violation of such acts, and to provide machinery which in this and subsequent years will permit the determination of disputes over trap locations with the least possible disruption to the catching and processing of salmon, the following sections will be included in the 1946 Alaska Commercial Fishing Regulations:

§ 201.24 *Filing of trap site locations.* On or before April 15, 1946, any person who has obtained or applied for a permit from the War Department for the occupation of a trap site may file with the Regional Director of the Fish and Wildlife Service at Juneau notice of this fact and of its location. Failure to file such notice shall be cause for closing the trap of such permit holder if there be a competing permit holder who has filed such a notice.

§ 201.25 *Determination and closing competing trap operations.* In case there shall be two or more permit holders for a single site, the Regional Director shall give notice of this fact to all conflicting permit holders who have filed notices under the preceding section. Any permit holder who has filed such a notice may request, through the Regional Director, the Secretary of the Interior or his authorized representative to determine, prior to the opening of the fishing season, which of the permit holders is entitled to occupy the site for the coming season. The Secretary or his representative, upon such a request, may call for affidavits or other evidence showing the interests and equities of the competing applicants, and shall determine and announce the action which the Fish and Wildlife Service will take with respect to closing the competing traps after opening of the fishing season. This determination will be based upon (a) the provisions of

[1] Peddle trips are those operated primarily for the purpose of pick-up or delivery of freight at shipper's or consignee's platform to intermediate stations outside the city, town or commercial zone (including contiguous areas).

§ 201.25, (b) any applicable law or regulation of the United States or the Territory of Alaska then in effect, or (c) the policy hitherto established of closing all traps in the area of conflict pending a judicial determination or other settlement.

§ 201.26 *Limitation on increase of individual trap site operations.* No person shall be permitted to increase the number of trap sites which he occupies over the number occupied in the preceding season if such increase would result in his occupation of more than 10 sites. The Secretary or his authorized representative may, however, in exceptional cases authorize such an increase for the 1946 season upon good cause shown. Any trap site occupied in violation of this section will be closed.

§ 201.27 *Definitions.* As used in §§ 201.24 to 201.26:

(a) "Person" and "permit holder" include individual, firm, association, partnership, or corporation.

(b) "Occupation" of a trap site means the care, service, and use of a trap by the permit holder, whether the trap be installed by him or another.

2. Notice is hereby given that, subject to any change of policy resulting from the hearings announced in paragraph 3 of this notice, the Alaska Fishing Regulations for 1947 will contain provisions which will serve to exclude from any trap site a person who held a permit for that site in 1946 and who did not himself occupy such site but instead leased or assigned such site to another person under arrangements by which the permit holder did not bear all or a substantial, part of the expenses and financial risk involved in the installation, care, service, and use of the trap.

3. Subject to future changes, the hearings commenced on February 21, 1946, at Washington, D. C., will be resumed in Alaska in October, 1946, and will be directed to the following subjects for consideration with reference to the 1947 regulations:

(a) Limitation of the number of trap sites which may be occupied by a single owner.

(b) Preference in the allocation of trap sites to small operators and for residents, communities, and cooperatives of Alaska.

(c) The provision forecasted in paragraph 2 of this notice.

(d) The machinery by which any limitation or preference might be accomplished.

The Department of the Interior will endeavor to announce the terms of the regulations proposed for discussion and the places and times of the hearings at least 30 days in advance of the first of such hearings.

OPINION TO ACCOMPANY THE NOTICE OF AMENDMENTS TO THE ALASKA COMMERCIAL FISHING REGULATIONS FOR 1946

On February 21, 22, 23, and 25, 1946, public hearings were held in Washington on proposed amendments to the Alaska Commercial Fishing Regulations for 1946. The proposals, issued on January 31, included (1) a limitation to twenty of the trap sites which could be occupied by one person; (2) a prohibition of any increase in the sites occupied by one person which would bring his total number to more than ten; and (3) a system of preference to be applicable in determining who might occupy sites, preference being given to persons already occupying no more than ten sites and to residents of Alaska.

For reasons hereafter detailed, it has been determined that no action should be taken at this time either to impose an upper limit on trap site holdings or to establish a general system of preferences with respect to the occupancy of trap sites. Certain minimal measures appear, however, to be required in 1946 to prevent a deterioration in the current situation. The regulations for 1946 will forbid any increase in the concentration of control over trap sites during the coming year, and will establish, largely for experimental purposes, machinery for the resolution of the few disputes which may arise in 1946 over trap site occupancy.

Under the regulations issued by the Fish and Wildlife Service of this Department, the fishing season in Alaska lasts an average of thirty to forty days; it opens at varying times in the several districts, commencing in the latter part of May. Evidence at the hearings established that it was necessary to secure gear, crews, supplies, and piling in the United States. In order to have the traps in working condition by the opening of the season, these items must be shipped beginning as early as the middle of March. A heavy preseason investment has already been made by last year's occupants. It appears unlikely, if sites were to be thrown open to competition by imposition of a twenty-trap limitation or by a preference for small operators or residents, that they could be supplied with traps and effectively occupied by newcomers in 1946. The uncertainty as to which sites would or should be subjected to competition and the practical difficulties of time and cost would inevitably result in a curtailment of the output of canned salmon this year, and this result the Department is not willing to create or permit in view of the serious international food shortage. On the other hand, to prohibit occupants of ten or more sites from acquiring additional sites would effect no discernible change in volume of 1946 production and is in my opinion a desirable provision to guard against any increase in the concentration of private control over an extremely valuable part of the public domain.

It developed in the course of the hearings that a comparatively small number of those who held War Department permits for the trap sites did not themselves operate the traps, but simply leased, for a substantial rental, the rights to use the site. There can be no defense of a system under which a private individual is able to lease for a profit a part of the public domain, even though its strategic location were ascertained through the effort and expense of the individual, and the practice should be stopped as soon as possible. If, however, these leased sites were closed in 1946 there would be an adverse effect upon salmon production. The notice of January 31 contained, moreover, no provision which was directed to this practice, and I have been impressed by the view that the beneficiaries of this system, however indefensible it may appear, are entitled to be heard before the system is changed. It accordingly seems best to defer action until the 1947 season, and merely to serve notice at this time that the permit holder who leases rather than operates his trap site in 1946 is not likely to be allowed to occupy the site in 1947.

Previous regulations of the Department, issued under authority of the White Act (Act of June 6, 1924, 43 Stat. 464), have in the large been directed exclusively to the conservation aspects of that act. The fact remains, however, that the White Act was also designed to bring about the dissolution of monopoly holdings which by 1924 had developed under the so-called "reservation" system. Although the conservation program has succeeded in reducing the number of trap sites to 440, from 799 in 1924, 221 of those sites are now occupied by eight companies, and for some years no trap sites have been available to newcomers in the field. This is a condition which the Department, as the guardian of the public resources, is anxious to see corrected. Any thorough-going revision of the regulations, however, deserves the most careful study before it should be promulgated. The time and expense required to travel to Washington prevented more than a token representation of the many Alaskan residents who are engaged in the fishing industry. For these reasons, it is proposed that the departmental hearings shall be resumed in Alaska, after the close of the 1946 fishing season, in order to consider regulations for 1947.

Administrative regulation or statutory action in this field is not confined to the Federal Government. The White Act expressly disclaims any intention to deny to the Legislature of Alaska the power to regulate the fishing industry by licensing or taxation. The Territorial Legislature is now meeting in special session. In accordance with the Department's policy of favoring increased legislative responsibility in the territorial areas, it is appropriate and desirable that an opportunity be given the Alaskan Legislature to enact suitable legislation to deal with this problem. Appropriate and effective action by the Legislature may obviate the necessity for any very extensive changes in the 1947 regulations.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

TRADE SALES PAINTS

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Paragraph (a) of Order No. A-2 under § 1499.159 (b) of Maximum Price Regulation 188 is amended by adding the following new subparagraph:

(20) *Trade sales paints.* (As used herein "trade sales paints" means the types of paint sold through channels of distribution to householders, farmers, painting contractors, etc., as distinguished from "industrial paints" which are sold to industrial consumers for the finishing of products such as automobiles, refrigerators, railroad equipment, etc.).

(i) *Scope of this subparagraph.* This adjustment provision permits granting of relief to a manufacturer of trade sales paints whose maximum prices therefor cause him substantial hardship.

(ii) *Extent of relief.* Any adjustment granted hereunder will ordinarily be limited in accordance with the existing degree of substantial hardship as set forth below: (Furthermore, in general, no maximum price will be increased to a level in excess of the general level of maximum prices prevailing for similar trade sales paints in the market area involved).

(a) To an amount sufficient to make the adjusted price per unit equal to the total current factory costs per unit where applicant's current over-all profits on an annual basis are at least 15 percent greater than his average annual base period over-all profits. (As used therein "over-all profits" means over-all profits adjusted for changes in investment and before deductions of income and excess profit taxes; "base period" means 1936–1939 inclusive, or any other period which is determined by the Office of Price Administration to be representative).

(b) To an amount sufficient to make the adjusted price per unit equal to the total of current factory costs and general administrative and selling expenses per unit, where applicant's current over-all profits on an annual basis are less than 15 percent greater, but not less, than his average annual over-all profits during the base period, but not in excess of an amount which will cause his current over-all profits on an annual basis to equal 115 percent of his average annual over-all profits during such base period.

(c) To an amount sufficient to make the adjusted price per unit equal to the total of current factory costs and general administrative and selling expenses per unit, plus a reasonable margin of profit per unit, where applicant's current over-all profits on an annual basis are less than his average annual over-all profits during the base period, but not in excess of an amount which will cause his current over-all profits on an annual basis to equal 115 percent of his average annual over-all profits during such base period.

(iii) *Filing of applications.* Applications under this subparagraph shall be filed with the Office of Price Administration, Chemicals and Drugs Price Branch, Washington 25, D. C., in accordance with the provisions of Revised Procedural Regulation No. 1, and shall include substantially the same information called for by OPA Form 692–992 (used in applications for adjustment under § 1499.75 (a) (18) of Supplementary Regulation 15) which is incorporated herein and made a part hereof.

(iv) *Adjustment order.* The Price Administrator may by order grant or deny, in whole or in part, any application for adjustment under this subparagraph (20), and may revoke or amend any such order at any time. In connection with any such adjustment the Price Administrator may also adjust the maximum prices for resellers, and in appropriate cases may require a compensatory decrease in the maximum prices for another product or products manufactured by the applicant.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective March 13, 1946.

Issued this 8th day of March 1946.

MANUFACTURERS' AND JOBBERS' MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered*, That Order No. 1509 under § 1499.159b of Maximum Price Regulation No. 188 be, and the same hereby is, amended in the following respects:

1. Paragraph (p) is amended to read as follows:

(p) *Manufacturers' maximum prices which cannot be determined under another paragraph of this order (such as other models and other classes of purchasers).* After March 12, 1946, a manufacturer shall not sell, offer to sell, deliver or offer to deliver any article covered by this order for sales of which maximum prices have not been established under paragraphs (h), (k), or (n), of this order, or under an order of the Office of Price Administration, until he has applied to the Office of Price Administration, Washington, D. C., for the establishment of his maximum prices for such sales, and until such maximum prices have been established by an order of the Office of Price Administration, or the waiting period referred to below has terminated, and the manufacturer has received no notification from the Office of Price Administration. The application shall set forth (unless the information has already been furnished to the Office of Price Administration, in which case the date and the office to which it was furnished, shall be stated):

(1) The identifying number or trade name of the article to be priced.

(2) The reasons why the article to be priced cannot be priced under any other paragraph of this order.

(3) The detailed specifications and an illustration of the article to be priced.

(4) An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately according to his own system of accounts or regularly prepared operating statements all major component unit direct cost factors. For the purpose of this order, unit direct costs include direct labor and direct material costs but do not include factory burden (sometimes called factory overhead or indirect manufacturing expenses), packing and crating costs, royalties and patterns, tool and die cost and items of administrative, general and selling expenses. Also, the number of units of production upon which the unit direct costs were based.

(5) An itemized breakdown of the manufacturer's current unit direct cost (as described in (4) above) of the basic model, specifically priced in this order, which is most nearly comparable to the article being priced.

(6) Price lists in effect during March 1942 showing:

(i) The article most nearly comparable to the article being priced, with illustrations;

(ii) The article most nearly comparable to the basic model mentioned in (4), with illustrations;

(iii) All price differentials covering variations in these constructions.

If the manufacturer was not making and selling upholstered dual purpose sleeping equipment in March 1942, he shall send the first price list which was in effect after March 1942, together with illustrations.

(7) A statement of the manufacturer's customary discounts, allowances and other price differentials to different classes of purchasers in effect for sales of upholstered dual purpose sleeping equipment during March 1942, or if the manufacturer was not making and selling upholstered dual purpose sleeping equipment during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(8) The proposed maximum prices to each class of purchaser for the article to be priced, and a statement of why the manufacturer believes those prices to be in line with the level of maximum prices established by this order.

Those proposed maximum prices shall be calculated as follows:

Step 1: The manufacturer shall determine the "unit direct cost" for the article being priced.

Step 2: The manufacturer shall select the comparable article for which maximum prices have already been established in paragraph (h), (k), or (n), which has a unit direct cost closest to the unit direct cost of the article being priced.

Step 3: The manufacturer shall determine the percentage markup over unit direct cost for the comparable article selected.

Step 4: The manufacturer shall apply to the unit direct cost of the article being priced that percentage markup. The resulting price shall be the f. o. b. factory, l. c. l. maximum prices for sales of the new article to retailers.

In the absence of a contrary direction from the Office of Price Administration within 15 days after mailing his application, the manufacturer may offer the article in question for sale at the proposed maximum prices stated therein. If such proposed maximum prices are correctly computed they shall be subject to adjustment (but not retroactively) at any time by order of the Office of Price Administration if it appears that the maximum prices so established are out of line with the general level of prices established by this order. If the prices are incorrectly computed, the maximum prices for a sale, offer to sell, or delivery of an article made pursuant to the incorrect report shall be the maximum prices which are properly computed under the formula contained in this paragraph.

2. Paragraph (v) is added to read as follows:

(v) *Establishment of maximum prices in certain cases.* If any seller subject to this order fails to make the application for price approval which this order requires in certain instances, the Office of Price Administration may, either upon application, or upon its own motion, issue orders under this paragraph establishing maximum prices which are in line with the level of maximum prices established by this order. Maximum prices, so established, shall be effective as of the date of first sale.

This amendment shall become effective March 13, 1946.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of March 1946.

Administrator.

[File No. 70-1245]

DAYTON POWER AND LIGHT CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 6th day of March 1946.

Notice is hereby given that a declaration has been filed with this Commis-

sion pursuant to the Public Utility Holding Company Act of 1935 by The Dayton Power and Light Company ("Dayton"), an electric utility subsidiary of Columbia Gas & Electric Corporation, a registered holding company.

Notice is further given that any interested person may, not later than March 21, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration, as filed or amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction, as provided in Rule U-20 (a) and Rule U-100 thereof. Such request should be addressed to the Secretary, Securities and Exchange Commission, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Dayton proposes to amend its articles so as to provide (i) that in the event that four quarterly dividends upon its cumulative preferred stock should ever be in arrears, the preferred stockholders will have the right, voting separately as a class, to elect the majority of the Board of Directors, thus changing the existing articles which provide that in such event preferred stockholders have only the right to vote share-for-share with the holders of the common stock; and (ii) that the express terms and provisions of the cumulative preferred stock may not be changed in any manner substantially prejudicial to the holders thereof except with the consent of the holders of two-thirds of the outstanding preferred stock, thus changing the existing articles which require the consent of two-thirds of the holders of the preferred stock for any change in the express terms and provisions of the preferred stock, whether or not such change is prejudicial to the preferred stock.

The management also proposes to solicit the holders of the cumulative preferred stock for proxies in favor of the proposed amendment of the articles.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter II—Production and Marketing Administration (Commodity Credit)

[Supp. Announcement 10]

PART 295—DISPOSAL OF SURPLUS AGRICULTURAL COMMODITIES FOR EXPORT

SUPPLEMENTAL ANNOUNCEMENT TO TERMS AND CONDITIONS OF COTTON SALES FOR EXPORT PROGRAM

As stated in the public announcement of February 23, 1946, Commodity Credit Corporation has amended its Cotton Sales for Export Program to change the method of computing the price of cotton sold from its stocks under the program. Accordingly, § 295.4, as amended, of the "Terms and Conditions of Cotton Sales for Export Program" is deleted and the following is substituted:

§ 295.4 *Purchase price.* The purchase price per pound to be paid by an exporter for cotton covered by a Purchase Order or Purchase Request which is accepted by the Corporation shall be the price bid in the Purchase Order or Purchase Request, less the amount of the applicable export differential. The export differential applicable to any cotton purchased from the Corporation hereunder shall be the export differential announced by Commodity Credit Corporation and in effect at the time the Corporation receives notice of the export sale against which such cotton is being purchased. If the Purchase Order or Purchase Request is received by the Corporation more than 90 days after the date the Corporation receives notice of the export sale against which such cotton is being purchased, the purchase price shall be increased by 5 points for each month or fraction thereof between the end of such 90-day period and the date the Purchase Order or Purchase Request is received by the corporation. Purchase Orders and Purchase Requests shall be submitted and construed in accordance with instructions issued by the New Orleans Office of the Cotton Branch, Production and Marketing Administration, United States Department of Agriculture.

This amendment is effective March 1, 1946, as to Purchase Orders and Purchase Requests submitted against export sales of which the Corporation receives notice on or after March 1, 1946 (except export sales of which the Corporation receives notice on March 1, 1946, pursuant to § 295.22). With respect to all other export sales, the Corporation hereby elects not to accept Purchase Orders and Purchase Requests submitted against such sales after March 15, 1946. After March 15, the Corporation will sell cotton against such sales on a bid basis, in accordance with the provisions of this amendment, or pay the export differential against such sales as provided in § 295.7.

Dated this 8th day of March 1946.

[SEAL] COMMODITY CREDIT CORPORATION,
By J. B. HUTSON,
President.

Attest:
SARA E. SWANICK,
Assistant Secretary.

[WFO 75-2, Amdt. 35]

PART 1410—LIVESTOCK AND MEATS

(7) "Authorized purchaser" means:

(i) Any person who is under contract to sell or deliver set aside beef, or products prepared in whole or part therefrom, to a governmental agency;

(ii) Any person who has delivered set aside beef, or products prepared in whole or part therefrom, to a governmental agency, and has not replaced the set aside beef so delivered, or contained in the products so delivered, by a purchase of set aside beef under this order;

(iii) Any person who is authorized by the Assistant Administrator to purchase set aside beef.

(8) "Ship supplier" means any person designated and approved as such by the War Shipping Administration.

(9) "Conversion weight" means the dressed weight equivalent of beef, determined as prescribed in paragraph (f) hereof.

(10) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(11) "Assistant Administrator" means the Assistant Administrator, for regulatory and marketing service work, Production and Marketing Administration, United States Department of Agriculture.

(12) Any term not specifically defined herein shall have the meaning set forth for such term in War Food Order No. 75, as amended (10 F.R. 4649).

(b) *Federally inspected slaughterers: quantity, type; grade.* No Federally inspected slaughterer and no slaughterer whose cattle are slaughtered in an establishment operated under Federal inspection shall deliver meat for civilian consumption unless he shall:

(1) Set aside, reserve, and hold for delivery as directed in paragraph (d) hereof, the following percentages of the conversion weight of each week's production of beef of the types and grades indicated below:

Type and grade	*Set-aside percentage*
"U. S. Choice" steers and heifers	30
"U. S. Good" steers and heifers	30
"U. S. Good" cows	30
"U. S. Commercial" steers, heifers and cows	30
"U. S. Utility" steers, heifers and cows (grade C)	40
Cutter and canner steers, heifers and cows (grade D)	50

(2) Bone, in accordance with Army specifications for frozen boneless beef, not less than 80 percent of all "U. S. Choice" beef and 80 percent of each type of "U. S. Good" beef required to be set aside, reserved, and held under paragraph (b) (1) of this section; *Provided, however,* That the Order Administrator may wholly or partially exempt any slaughterer from this requirement upon a proper showing that said slaughterer does not have adequate facilities for boning, or does not have, or is unable to obtain, sufficient personnel to bone said beef, or is unable to comply with this requirement for any reason which appears to the Order Administrator to warrant such exemption.

(c) *Certified slaughterers; quantity; type; grade.* No certified slaughterer and no owner or operator of a certified slaughtering plant shall deliver meat for civilian consumption unless he shall set aside, reserve, and hold for delivery as directed in paragraph (d) of this section, the following percentages of the conversion weight of each week's production of beef of the types and grades indicated below:

Type and grade	*Set-aside percentages*
"U. S. Commercial" steers, heifers and cows	30
"U. S. Utility" steers, heifers and cows (Grade C)	40
Cutter and canner steers, heifers, and cows (Grade D)	50

(d) *Delivery to Governmental agencies, authorized purchasers, and ship suppliers.* No slaughterer subject to the provisions of this order shall deliver meat for civilian consumption unless he shall deliver to Governmental agencies, authorized purchasers, and ship suppliers, before the close of each calendar week, beef of each of the types and grades specified in paragraphs (b) and (c) of this section in a quantity not less than the quantity of beef of such type and grade required to be set aside, reserved and held by such slaughterer during the previous week.

(e) *Federal inspection required.* All beef required to be set aside, reserved, and held under this order shall be inspected in accordance with the provisions of the act of March 4, 1907 (34 Stat. 1260), as amended, 21 U. S. C. 71, and as extended by Public Law 602, 77th Congress, approved June 10, 1942 (56 Stat. 351), and the rules and regulations promulgated thereunder.

(f) *Conversion weight.* (1) The conversion weight of all deliveries of beef, and the conversion weight of carcasses and of cuts and trimmings derived therefrom, and of beef products produced therefrom, shall be determined by multiplying the weight thereof by the appropriate conversion factor set forth below:

Type and description of product	*Conversion factor (multiplier)*
Dressed carcasses and cuts, not boned fresh (chilled) or frozen	1.00
Boned beef and trimmings, fresh (chilled) or frozen	1.41
Cured other than dried—not boned	.95
Cured other than dried—boned	1.34
Dried (including smoked)	2.20
Boneless beef derived from cutter and canner grade steers, heifers, cows, stags, and bulls (grade D beef)	1.45
Canned beef and gravy (for delivery to the Army)	2.00
Canned beef and gravy (for delivery to Commodity Credit Corporation)	1.60

The term "boned" describes cuts from which 50 percent or more of the bone, by weight, has been removed by the process of boning, and the term "not boned" describes cuts from which none or less than 50 percent of the bone, by weight, has been removed, and primal cuts which contain no bone.

(2) The conversion weight of beef of any type used in the preparation of sau-

sage or in the preparation of canned meat, or any other beef product not specified above, shall be computed by determining, on the basis of the manufacturing formula, the net weight of the beef in such processing, and multiplying such net weight by the applicable conversion factor set forth above for such type of beef. The net weight of beef which is cooked and used in the preparation of canned meat not specified above shall be the weight thereof before cooking.

(3) The Assistant Administrator may, upon written application, revise any conversion weight factor where it is shown that such factor is working an undue hardship in the preparation of certain products.

(g) *Credits allowed on deliveries.* Subject to paragraph (h) of this section, any set aside beef delivered to a governmental agency, authorized purchaser, or ship supplier may be credited against the set aside requirements of this order for beef of the type and grade so delivered.

(h) *Certificates.* No set-aside beef shall be delivered to any authorized purchaser, and no credit shall be allowed for any such delivery unless, within 10 days after delivery, the slaughterer obtains a certificate signed by the authorized purchaser, acknowledging receipt of the beef and containing the following: The name and address of both parties and the date of delivery; the contract number of the contract between the authorized purchaser and the governmental agency; and a statement by the authorized purchaser that the set-aside beef so delivered, or an equivalent amount of set-aside beef, will be or has been used in the fulfillment of such contract. The slaughterer shall endorse on such certificate the conversion weight of such beef, together with a description permitting conversion in accordance with paragraph (f) of this section. The slaughterer and the authorized purchaser shall each retain an original of such certificate for at least two years and shall submit the same to the Assistant Administrator upon request. All statements contained in or accompanying such certificates shall be deemed representations to an agency of the United States. No person shall be entitled to rely upon any such certificate if he knows or has reasonable cause to believe it to be false.

(i) *Storage; packaging.* All beef set aside, reserved and held under this order shall be stored in such manner as to maintain the quality thereof, and shall be prepared and packaged in accordance with the requirements of the governmental agency purchasing the beef.

(j) *Authorized purchasers required to redeliver.* Each authorized purchaser who receives set aside beef under the provisions of this order shall deliver all such beef, or an equivalent amount of the same type and grade of set aside beef, to a governmental agency or ship supplier.

(k) *Allocation.* The Assistant Adminstrator may, by general order or written notice to individual slaughterers, order the allocation of beef set aside under this order to or among specific governmental agencies, authorized purchasers or ship suppliers. In the absence of such allocation, slaughterers may, subject to paragraph (h) of this section, sell beef so set aside to any such person or agency.

(l) *Existing contracts.* The provisions of this order shall not be construed as reducing the amount of meat which any slaughterer is required to offer or to deliver under any existing contract with a governmental agency, as defined herein, or with the United States Maritime Commission.

(m) *Reports.* Every slaughterer subject to this order shall report to the Assistant Administrator concerning his production of and transactions in beef. Such reports shall be made at such times and upon such forms as the Assistant Administrator may require, and shall be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(n) *Audits and inspections.* The Assistant Administrator shall be entitled to make such audits and inspections of the books, records and other writings, promises, supplies of livestock or stocks of meat of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(o) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Assistant Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Assistant Administrator. After said review, the Assistant Administrator may take such action as he deems appropriate, which action shall be final.

(p) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using livestock, meat, meat products, or animal fats. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(q) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 75–2, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, 5 South Wabash Avenue, Chicago 3, Illinois.

(r) *Territorial scope.* This order shall apply within the 48 states and the District of Columbia.

(s) *Effective date.* This amendment shall become effective at 12:01 a. m., e. s. t., March 10, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 75–2, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Allocations.* The Assistant Administrator may, by general order or written notice to individual slaughterers, order the allocation of pork set aside under this order to or among specific governmental agencies or authorized purchasers. In making such allocations, the Assistant Administrator or the Order Administrator may specify the stage of processing (fresh, frozen, cured, smoked, or canned), and the weight

ranges of all set aside pork so allocated. Such specifications shall be in addition to the specifications mentioned in paragraph (g) of this section. In the absence of such allocation, slaughterers may, subject to paragraph (f) of this section, sell pork so set aside to any such person or agency.

issued by the Office of Price Administration for any product listed in subparagraph (1) of this section 2 (a) may add to the maximum price or prices so reported or so established the applicable one of the following "dollar and cents adjustments for increased costs of labor and ingredients:"

(d) To the figure obtained under subdivision (vii) (c) above add $0.65.

(e) Round the result obtained under subdivision (vii) (d) above to the nearest multiple of $0.25. The result thus obtained is the amount to be added per hundredweight.

NOTE: Whenever any maximum price for any product listed in section 2 (a) (1) has been changed in accordance with the provisions of subdivisions (i), (ii), (iii), (iv), (v) or (vi) of this section 2 (a) (7), the seller shall supply each subsequent purchaser who buys in the course of trade or business with a written notice of the changes made. PART 1305—ADMINISTRATION

[Rev. Gen. RO 5,[1] Amdt. 3]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised General Ration Order 5 is amended in the following respects:

1. Section 26.1 (a) is amended to read as follows:

(a) A Group I institutional user may not use the Ration Books of the persons who live and eat at his establishment in order to obtain sugar for home canning. However, those persons may obtain sugar for home canning and preserving in the same way as consumers under Third Revised Ration Order 3, and a Group I institutional user may use the foods produced with such sugar for the purpose of feeding such persons.

2. Section 26.2 is amended to read as follows:

SEC. 26.2 *Home canning and preserving for other institutional users*—(a) *General.* An institutional user (other than a Group I user) may, on or before October 31, 1946, apply for an allotment of sugar to be used for canning fruits and fruit juices and for preserving, if the finished product is to be produced in a "kitchen" or in a "place like a kitchen." In addition, a government or government agency, such as a Federal prison or State asylum, may apply for an allotment of sugar to be used for canning and preserving in commercial-scale processing facilities for use in its Group II or eleemosynary or educational Group III, V or VI establishments.

(b) *Explanation of terms.* (1) "Kitchen" is a place principally used for the preparation of meals, such as a kitchen in a school or in a home economic center.

(2) "A place like a kitchen" is a place other than a kitchen but having facilities which do not differ substantially from those ordinarily found in a kitchen, and which are clearly not commercial-scale processing facilities. For example, a hospital may have on its premises, in addition to its kitchen, a separate place containing facilities for canning or preserving which are of a type similar to those normally used by such institutions in kitchens.

(c) *Application.* Application must be made to the District Office on OPA Form R-1340. The applicant must give all the information called for by that form.

(d) *Amount of allotments.* The District Office may grant an allotment of sugar in an amount not exceeding:

(1) One (1) pound of sugar for each four (4) quarts of finished canned fruit or fruit juices;

(2) One (1) pound of sugar for each pound of prepared fruit for making jams, preserves, and marmalades;

(3) One (1) pound of sugar for each two (2) pounds of prepared fruit (pulp) used for making fruit butters;

(4) One (1) pound of sugar for each two (2) pounds of prepared fruit (or one pint of fruit juice) for making jellies.

However, the amount of sugar granted for producing jams, jellies, preserves, marmalades, and fruit butters shall not exceed five (5) pounds of sugar for each 1000 persons served meals during the year 1945. Moreover, a Group III or IV user who did not obtain sugar for home canning in 1945 is not eligible to obtain sugar for this purpose during 1946. If such Group III or IV user is eligible, the amount of the allotment in 1946 shall not exceed the amount he received for this purpose in 1945.

(e) *Issuance of ration evidences.* The District Office shall issue ration evidences for the amount of the allotment. However, if the applicant has an excess inventory of sugar, the amount of the excess inventory shall be deducted from the amount of the sugar to be issued. Any excess inventory so deducted shall be cancelled.

(f) *Report.* An institutional user who receives an allotment of sugar under this section must fill out the report as required on OPA Form R-1340. This report must be filed with the District Office on or before January 1, 1947. If a full report is not made of his use of sugar obtained under this section on or before January 1, 1947, all home canning sugar for which he has not accounted shall be charged as excess inventory. If the number of units actually processed during 1946 multiplied by the quantity of sugar per unit permitted under section 26.2 (d) is less than the quantity of sugar obtained, the difference shall be charged as excess inventory.

This amendment shall become effective March 11, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1946.

Issued this 11th day of March 1946.

Third Revised Maximum Price Regulation No. 213 is amended in the following respects:

1. Section 2 (b) (4) is amended to read as follows:

(4) Bedsprings which are made as integral part of a non-metal bed; (that is, bedsprings which are made to fit into or onto a set of non-metal bed ends, and are sold by the manufacturer only with such non-metal bed ends, or as a replacement for a bedspring previously sold by the manufacturer with such non-metal ends).

2. Sections 2 (b) (1) and 2 (b) (5) are deleted.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 8]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

A new section 1.9 is added to read as follows:

1. Section 1.9. *Consumers may use Spare Stamp No. 9 to get sugar for home canning and preserving for use.* (a) Spare Stamp No. 9 in War Ration Book IV and in the Sugar Ration Book authorizes a consumer to obtain five pounds of sugar, on or before October 31, 1946, to be used solely for the purpose of home canning and preserving of fruits, fruit juices or vegetables for use, and for making products such as pickles, relishes, catsup, mince meat and for curing meat (for use).

2. A new section 1.10 is added to read as follows:

SEC. 1.10. *Home canning for sale*—(a) *General.* A consumer may, prior to November 1, 1946, apply for an allotment of sugar to be used for canning fruits and fruit juices for sale, and for producing jams, jellies, preserves, marmalades or fruit butters for sale if the finished product is to be produced in a "kitchen". However, a consumer who did not receive an allotment of sugar in 1945 for producing products for sale under the provisions of Second Revised Ration Order 3 is not eligible to apply under the provisions of this section.

(b) *Explanation of terms.* "Kitchen" is a place principally used for the preparation of meals for home consumption. It includes a place used principally to teach consumers how to prepare and cook food for home consumption. (A place other than a kitchen and approved by the District Office in 1945 as a kitchen shall be considered a "kitchen" for the purposes of this section.)

(c) *Application.* Application must be made on OPA Form R-371 to the District Office for the place where the consumer lives. The applicant must give all the information required by the form. It must be signed by an adult member of the family unit.

(b) *Amount of allotment.* If the District Office finds that the facts stated in the application are true, it may grant the application in an amount not exceeding:

(1) One (1) pound of sugar for each four (4) quarts of finished canned fruit or fruit juices;

(2) One (1) pound of sugar for each pound of prepared fruit for making jams, preserves and marmalades;

(3) One (1) pound of sugar for each two (2) pounds of prepared fruit (or one pint of fruit juice) used for making jelly;

(4) One (1) pound of sugar for each two (2) pounds of prepared fruit (pulp) used for making fruit butters.

However, the total amount of sugar which may be obtained by a family unit under this section shall not exceed the amount requested or the total amount of sugar used by the members of the family unit in 1945 for the purposes covered by this section, whichever is smaller. The District Office shall issue ration evidences for the amount of sugar granted under this section minus the amount of any sugar which he and his family unit still have which was obtained for those purposes in 1945.

(No family unit was permitted to obtain more than 250 pounds of sugar for these purposes in 1945; therefore no family unit may obtain more than 250 pounds of sugar under this section.)

(d) *Records.* The applicant must keep a record of the amount of products, as specified in paragraph (d), produced by him and the amount of sugar used in such products and the dates such products were sold.

(f) *Restriction on use.* Sugar obtained under this section may be used only for the purposes for which it was granted and at a rate no higher than that permitted by paragraph (d).

This amendment shall become effective March 11, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with Federal Reports Act of 1942.

Issued this 11th day of March 1946.

Administrator.

PART 1305—ADMINISTRATION

[SO 150]

ADDING PROVISIONS FOR MARK-UP ON DIRECT MILL SALES BY DISTRIBUTORS IN CERTAIN MAXIMUM PRICE REGULATIONS ON LUMBER

A statement of the considerations involved in the issuance of the supplementary order has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

§ 1305.178 *Provisions for additions to ceiling prices on direct mill sales by distributors and additional invoicing requirements on invoices rendered by mills and distributors in certain lumber regulations.* (a) Provisions for additions to ceiling prices on direct mill sales by distributors are added to maximum price regulations listed in paragraph (c) of this order, by adding a new section as designated, to read as follows:

Distributors' direct-mill sales—(a)—*Definitions*—(1) *Direct mill distributor.* A direct-mill distributor is a person who has been registered and assigned a registration number as required under paragraph (b) of this section, and who makes either a wholesale-type or commission-type sale of lumber covered by the regulation.

(2) *Wholesale-type sale.* A wholesale-type sale is a direct-mill sale in which the seller buys lumber from a mill or concentration yard or wholesaler and takes title to and delivers the lumber to the buyer in substantially the same form.

(3) *Commission-type sale.* A commission-type sale is a direct mill sale through a commission-man. For purposes of this section, a commission-man is a person who represents, and customarily sells lumber in carload quantities for, two or more independently owned mills or concentration yards, receives his compensation from the mills in the form of commission based on the amount of the lumber sold, and operates independently of both buyer and seller.

(b) *Application for and granting of registration as a direct-mill distributor*—(1) *Application.* All persons desiring to operate as direct-mill distributors must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. for, and receive, a registration number before charging or receiving the additions provided in paragraph (c) of this section. Applications shall contain all information relative to the applicant's connection with any saw mills, concentration yards or other lumber producers which may have any bearing on the question of "control relationship" as described in paragraph (c) (5) of this section, including specifically any financial interest, any arrangement for distribution of profits, any loan arrangement, family relationship by blood or marriage, past employer-employee relationship, and any other direct or indirect beneficial interest between the applicant and such other operation.

(2) *Registration.* Upon the filing of an application as set forth in (b) (1) of this section, the Office of Price Administration shall issue an order registering the applicant as a direct-mill distributor. The issuance of an order of registration is proof merely that an application has been filed, but does not constitute a finding by the Office of the existence or non-existence of a "control relationship" with a mill. Paragraph (b) (5) sets forth when an addition may not be made by a direct-mill distributor, even though registered.

(3) *Distribution yards.* Distribution yards subject to Second Revised Maximum Price Regulation 215 do not have to be registered and may charge the mark-up or receive the commission permissible on direct-mill distributors' sales when making a direct-mill sale, subject however to all the conditions and limitations set forth in paragraph (c) of this section on a sale by a registered direct-mill distributor.

(c) *Direct-mill distributors' additions*—(1) *Wholesale type sales.* Except as specified in subdivision (5) of this paragraph registered direct-mill distributors may add 5 per-

[1] 11 F.R. 177.

cent to the basic f. o. b. mill prices established in or approved under this regulation on wholesale type direct-mill sales of lumber covered by the regulation. The distributor's addition must be evened out to the nearest quarter dollar per M'BM, or, in the case of plastering or fence lath, or shingles, to the nearest 5 cents per 1,000 pieces. For example, if the maximum price for a particular item is $32.00 f. o. b. mill, the ceiling price for a wholesale-type sale is $33.50. This mark-up applies only to carload quantities if shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or to quantities of 5 M'BM or more if shipped by truck or water.

(2) *Commission-type sales.* Except as specified in subparagraph (5) of this paragraph, the f. o. b. mill maximum price on commission-type direct-mill sales of lumber covered by this regulation and made through a registered direct-mill distributor is 3 percent higher than the basic f. o. b. mill prices established in or approved under this regulation. The f. o. b. mill pride including the distributor's commission must be evened out to the nearest quarter dollar per M'BM, or, in the case of plastering or fence lath, or shingles, to the nearest 5 cents per 1,000 pieces. The mill must allow the direct-mill distributor making a commission-type sale a commission at least equal to the excess over the basic f. o. b. mill prices. For example, if the maximum price for a particular item is $35.00 the mill ceiling on a commission-type sale made through a registered direct-mill distributor is $36.00 and the mill must allow the distributor at least $1.00. This mark-up applies only to carload quantities if shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or to quantities of 5 M'BM or more if shipped by truck or water.

(3) *Mill's price or realization on commission type sales.* This section increases maximum prices only on sales by direct-mill distributors. The mill's price, or realization after deducting a commission of at least 3 percent may never be higher than the basic mill prices established in this regulation. The mill, of course, may sell at a price at which it will realize less than its regular ceiling.

(4) *Pyramiding prohibited.* The price additions permitted in this section may not be made more than once to the basic f. o. b. mill price in the regulation regardless of the number of persons participating in the transaction. For example: if direct-mill distributor making a "commission-type" sale sells a car of $30.00 lumber to a yard which, in turn, sells for direct-mill shipment to a consumer, the mill's ceiling price on the sale through the distributor is $31.00 (3 percent addition) and the yard's ceiling price to the consumer is $31.50 (5 percent addition). Note that the yard cannot add its 5 percent either to the $31.00 on a purchase through a direct-mill distributor making a commission-type sale, or to $31.50 if the purchase was from a direct-mill distributor making a "wholesale type" sale. In both cases, the 5 percent may be added only to the basic f. o. b. mill price of $30.00.

(5) *When additions may not be made by registered direct-mill distributors.* (i) On any sale for which the invoice from the mill or concentration yard does not contain the statement, "This mill has no control relationship with any direct-mill distributor."

(ii) On any sale which carries an addition for a direct-mill retail type sale.

(iii) On any sale of less than carload quantity when shipped by rail, except that sales for resale purposes in less than carload quantities may carry a direct-mill distributors mark-up when shipped in a pool carload; or of less than 5 M'BM when shipped by truck or water.

(iv) On any sale of lumber which originates from a mill or concentration yard which has a control relationship with a direct-mill distributor. However, where a sale is made to or through a direct-mill distributor under this section, and the invoice rendered by the mill contains the statement referred to in subdivision (i) of this paragraph, the direct-mill distributor may legally make the mark-up or addition unless the direct-mill distributor knows or has reason to know that the mill's statement is false.

A "control relationship" includes any of the following relationships:

(*a*) *Profit sharing, direct or indirect.* This means a financial interest by a direct-mill distributor in the profits, return or realization of a mill or concentration yard, or by a mill or concentration yard in the profits, return or realization of a direct-mill distributor, and includes common ownership or control of a mill and direct-mill distributor by a third person. It also includes any arrangement whereby a distributor or producer shares in the profits of the other, whether such arrangement is written or oral, direct or indirect. It does not include such interest as arises from a genuine indebtedness of such distributor or producer to the other where the obligation of the debtor is limited in amount to repayment of the loan plus a rate of interest no greater than the maximum legal rate of interest in the State where the loan is made, or no greater than 6%, if no maximum rate is prescribed.

Where a mill or concentration yard is a corporation, stock ownership of 10 percent or less of the total outstanding stock issue by a direct-mill distributor is not a "control relationship."

(It is to be noted that the section of the regulation which makes it unlawful to pay or receive any purchasing commission or other compensation over the permissible maximum prices, remains in effect. In this connection, the granting of a loan on unusually low rates of interest, or in any other unusually favorable terms, would ordinarily constitute additional compensation in violation of such prohibition.)

(*b*) *Family relationship.* A family relationship exists if an owner or any part-owner of a mill or concentration yard, or any member of his family, has any interest in a direct-mill distributor, (or vice versa) and such interest was acquired on or after January 1, 1942. Member of a family means any person related to an individual or his spouse by blood or marriage within the fifth degree.

(c) *Past employer-employee relationships which were terminated after December 31, 1945.*

d) *Report of changes.* Where a direct-mill distributor has made an application for registration and any of the facts set forth in the application, have changed, or new facts have arisen since the filing of the application, having any bearing on the question of "control relationship," either before or after registration has been granted, he shall file a written report of such change or addition with the Lumber Branch of the Office of Price Administration, Washington 25, D. C., within 10 days after such a change. Reports shall be deemed filed on the date received, or, if sent by registered mail, on the date of mailing.

(e) *Suspension of licenses.* Any person making a sale under this regulation is subject to the provisions of Licensing Order No. 1. A violation of any provision of this regulation is a violation of the seller's license. Violations of the license or of this regulation may result in suspension of the license in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

(f) *Distributors' invoicing requirements.* The invoice on any distributors' direct-mill sale must be plainly marked "wholesaler's direct-mill sale," or "commission-man's direct-mill sale", or "distribution yard's direct-mill sale", as the case may be, and must show the name of the direct-mill distributor and his registration number.

(b) Provisions placing an additional invoicing requirement on mills or concentration yards making sales under the lumber regulations listed in paragraph (d) of this order are added to the appropriate sections of such regulations by a new paragraph or added to the regulation as a new section, as designated, to read as follows:

Statements as to "control relationship." A mill or concentration yard must make either one of the following two statements on all invoices issued by it, whichever statement is applicable:

1. This mill has no "control relationship" with any direct-mill distributor.

2. This mill has a "control relationship" with a direct-mill distributor.

If a mill or concentration yard makes a statement on an invoice that it has no control relationship with a direct-mill distributor, and such statement is false, the maximum prices at which the lumber, covered by such invoice, may be sold by it, is 5% less than the f. o. b. mill prices set forth in the price tables. However, the direct-mill distributor who makes the addition or mark up under this section shall not be considered as buying or selling above the ceiling prices where the mill's invoice bears a statement that it "has no control relationship with any direct-mill distributor" even though the mill's statement is false, unless the direct-mill distributor knows, or has reason to know, that such statement is false.

(c) The following are the maximum price regulations which are amended to include the provisions set forth in paragraph (a) of § 1305.178:

In RMPR 26, add section 6A
In RMPR 94, add section 6A
In RMPR164 add section 6A

PART 1499—COMMODITIES AND SERVICES

[MPR 188, Amdt. 74]

MANUFACTURERS' MAXIMUM PRICES FOR CONSUMERS' GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith; and it has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 188 is amended in the following respects:

1. Section 1499.163 (a) (3) is amended to read as follows:

(3) "Manufacturer" means the person who makes the first sale of the completed article, that is, the first person having title to the article after it has been fabricated, and is ready for use, regardless of whether or not he has fabricated it. If a person purchases a completed article, and then resells it after making changes in it, he is a manufacturer of the changed article.

Example: (i) A person who buys unfinished furniture, and finishes it, is a manufacturer of finished furniture.

(ii) A buys fountain pen barrels from B; and he buys nibs from C. He then delivers the barrels and the nibs to D to be assembled. After assembly D delivers the completed fountain pen to A. A is the manufacturer since he is the first person having title to the article after it has been fabricated, and is ready for use. D is not the manufacturer although he did the actual assembly work, and fabricated the finished fountain pen, since he never had title to the finished article.

2. The note following the first paragraph of § 1499.166 is amended to read:

NOTE: The listings below are listings of broad general categories, and they are not intended to be listings of specific items or articles. Any article falling within any category listed below in an article covered by this regulation.

The categories listed below are not intended to include (a) any commodity subject at the manufacturer's level to another maximum price regulation or price schedule other than the General Maximum Price Regulation, in effect on August 1, 1942, or issued any time thereafter, (b) any commodity exempted from the General Maximum Price Regulation by any supplementary regulation thereto, in effect on August 1, 1942, or issued any time thereafter, (c) used, reconditioned, rebuilt, remodeled commodities or commodities made from any used materials, except commodities specifically described below as being made of used material, or (d) parts, except those specifically listed as such below. Since the designations of some categories are broad enough in certain instances to suggest that articles are included which are intended to be excluded, other regulations which might be applicable to the article or type of article have been indicated. Manufacturers selling articles included within a category listed below should, before pricing their products in accordance with this regulation, determine whether other price regulations or orders, or regulations supplementary to the General Maximum Price Regulation, have been issued with respect to such articles.

3. The headings of the subparagraphs in § 1499.166 are amended to read as follows:

(a) (1) Oil paints and varnishes, including, but not limited to:

(b) (1) Bedding, including, but not limited to:

(2) Equipment and supplies (except those covered by Maximum Price Regulation No. 136, as amended), including, but not limited to:

(3) Floor coverings, including, but not limited to:

(4) Furniture, including, but not limited to:

(5) Hardware, tools and appliances (except those covered by Maximum Price Regulation No. 136, as amended), including, but not limited to:

(6) Household appliances, electrical and other, including, but not limited to:

(7) Miscellaneous housewares, including, but not limited to:

(8) Commercial kitchen equipment. Commercial and institutional kitchen equipment, irrespective of the type of fuel used, for use in hotels, restaurants, schools, hospitals, industrial and public cafeterias, and similar establishments, including, but not limited to:

(9) Marine articles, including, but not limited to:

(10) Personal and household accessories, including, but not limited to:

(11) Radio accessories, and phonographic equipment and accessories, including, but not limited to:

(12) Musical instruments, parts, and accessories, including, but not limited to toy and novelty musical instruments.

(13) Photographic, photo engraving, and photo copying equipment, and allied supplies, including, but not limited to:

(14) Sporting goods made of new materials (except clothing and shoes), and reprocessed golf balls with used centers.

(15) Toys and games.

(16) Wheel goods, including, but not limited to:

(17) Health supplies, equipment, and sub-assemblies thereof, not including drugs, chemicals and medicines except when packed in and sold as a part of first-aid-kits; and not including rubber drug sundries covered by Maximum Price Regulation No. 300. This category includes, but is not limited to:

(18) Industrial safety equipment, not including shoes and scientific instruments covered by Maximum Price Regulation No. 136, as amended. This category includes, but is not limited to:

(19) Rope and cardage, including, but not limited to:

(20) Unclassified articles:

4. The following are added to the list of articles in sub-paragraph (b) (20) of § 1499.166:

Fountain pens.
Mechanical pencils.
Fountain Pen and Mechanical Pencil sets.

This amendment shall become effective on March 7, 1946.

Issued this 7th day of March 1946.

PAUL A. PORTER,
Administrator.

SUBPART A—GENERAL PROVISIONS

§ 4001.101 *Purpose.* The purpose of §§4001.101 to 4001.406, inclusive, is to carry out the policies established in Executive Order 9599 (August 18, 1945), Executive Order 9651 (October 30, 1945), and Executive Order 9697 (February 14, 1946) with respect to increases in wages and salaries and their relationship to prices and rent ceilings and costs to the United States. Sections 4001.101 to 4001.406, inclusive, supersede the Supplementary Wage and Salary Regulations issued by the Stabilization Administrator on December 5, 1945 (10 F.R. 14820). They supersede all other regulations, directives or rulings of the Economic Stabilization Director[1] or of the Stabilization Administrator to the extent that they are inconsistent with them.

§ 4001.102 *"Approved" and "unapproved" wage and salary increases.* As used in §§ 4001.101 to 4001.406, an "approved" wage or salary increase means an increase which has been approved in accordance with the provisions of section 3 of Executive Order 9697 or of §§ 4001.301 to 4001.309, inclusive. An "unapproved" wage or salary increase means any other wage or salary increase. An "approved" wage or salary increase may be taken into consideration in determining price or rent ceilings or costs to the United States in accordance with the provisions of §§ 4001.401 to 4001.406 inclusive. An "unapproved" increase is subject to the conditions stated in §§ 4001.201 to 4001.204, inclusive, and may not be so taken into consideration.

§ 4001.103 *What wage and salary increases are lawful.* (a) While the making of any wage or salary increases on or after February 14, 1946, is subject to the conditions stated in §§ 4001.201 to 4001.204, inclusive, the payment of such an increase is not unlawful, except as provided in the succeeding paragraphs of this section.

(b) Pending provision to the contrary by the National Wage Stabilization Board, a wage or salary increase may not lawfully be made with respect to employees in the building and construction industry who are subject to the jurisdiction of the Wage Adjustment Board, unless the increase, before being put into effect, has been approved in accordance with the applicable requirements of the National Wage Stabilization Board and of the Wage Adjustment Board.

(c) Pending provision to the contrary by the Secretary of Agriculture, a wage or salary increase subject to the wage or salary stabilization regulations of the Secretary of Agriculture is not lawful unless the increase, before being put into effect, has been approved as required by those regulations or unless the increase is permissible under the terms of those regulations.

(d) Pending provision to the contrary by the National Wage Stabilization Board, wage or salary increases for the purpose of eliminating intra-plant inequities in the basic steel industry may not lawfully be made with respect to the rates of employees covered by the directive order of the National War Labor Board dated November 25, 1944 unless, before such increases are put into effect, they have been approved in accordance with the applicable requirements of the National Wage Stabilization Board.

(e) Except as the appropriate wage or salary stabilization agency may by regulation or general order provide, no new wage or salary rates for new plants or for new departments in existing plants may be established or paid without the prior approval of such agency.

(f) The Economic Stabilization Director may, by amendment to this section define further classes of wage or salary increases which will be unlawful unless made with the prior approval of the appropriate wage or salary stabilization agency.

§ 4001.104. *List of designated wage or salary stabilization agencies.* (a) The following, for the purpose of §§ 4001.101 to 4001.406, inclusive, are designated wage and salary stabilization agencies:

(1) The National Wage Stabilization Board, with respect to wages and salaries as to which the National War Labor Board exercised jurisdiction on August 17, 1945.

(2) The Commissioner of Internal Revenue, with respect to salaries as to which the Commissioner exercised jurisdiction on August 17, 1945.

(3) The Economic Stabilization Director, with respect to wages and salaries as to which the National Wage Stabilization Board is precluded from exercising authority by the Lea Amendment to the National War Agencies Appropriation Act of 1946. (Such cases will be transmitted to the Director by the Secretary of Agriculture).

(4) The Secretary of Agriculture, with respect to wages and salaries as to which the Secretary exercised jurisdiction on August 17, 1945.

(b) The provisions of §§ 4001.101 to 4001.406, inclusive, are also applicable, to the extent authorized by Executive Order 9299 and section 4 of the Stabilization Act of 1942, as amended (56 Stat. 766; 57 Stat. 63; 58 Stat. 642; 50 U.S.C., App. 964), to wages and salaries of employees who are subject to the provisions of the Railway Labor Act (44 Stat. 577; 48 Stat. 1185; 49 Stat. 1189; 45 U.S.C. chap. 8)

§ 4001.105 *Application to suspended price or rent ceilings.* For the purposes of §§ 4001.101 to 4001.406, inclusive, the terms "price or rent ceilings" shall include price or rent ceilings which have been suspended by the Price Administrator.

§ 4001.106 *Wage increases required by certain statutes.* Nothing in §§ 4001.106 to 4001.406, inclusive, shall be construed to prohibit or to attach conditions to the making of any wage or salary increase required by the provisions of the Fair Labor Standards Act (52 Stat. 1060, 55 Stat. 756; 29 U.S.C. 201–219), the Walsh-Healey Act (49 Stat. 2036; 56 Stat. 277; 41 U.S.C. 35–45), or the Davis-Bacon Act (46 Stat. 1494; 40 U.S.C. 276a).

SUBPART B—UNAPPROVED WAGE OR SALARY INCREASES

§ 4001.201 *Exceptions to prior approval provisions of Executive Order 9697.* Any employer may make a wage or salary increase without the prior approval of any wage or salary stabilization agency and without prejudice to his right of applying for approval of the increase thereafter and using it, to the extent that it is approved, as a basis for seeking an increase in price ceilings or for any other of the purposes described in § 4001.202, if either:

(a) The employer has no present intention of using the increase as a basis for seeking an increase in price ceilings or for any other of the purposes described in § 4001.202, and so states in a notice describing the increase filed with the appropriate wage or salary stabilization agency within 30 days after the increase is first reflected in current payrolls; or

(b) The increases made before March 15, 1946, in accordance with the provisions of General Order No. 1, issued by the Stabilization Administrator, and application for approval is filed with the appropriate wage or salary stabilization agency within 30 days after the increase is first reflected in current payrolls.

§ 4001.202 *Waiver of right to seek increased ceilings or to increase costs to the United States by institution of unapproved increase.* Except as provided in § 4001.201, the making on or after February 14, 1946, of any wage or salary increase (other than an increase approved under the provisions of §§ 4001.101 to 4001.406, inclusive), without the prior approval of the appropriate wage or salary stabilization agency shall be deemed to be a waiver, during the continuation of the stabilization laws, of any right which the employer might otherwise have to use such increase in whole or in part as a basis for seeking or obtaining an increase in price or rent ceilings or for resisting an otherwise justifiable reduction in price or rent ceilings or (in the case of products or services being furnished under contract with a federal procurement agency) for increasing costs to the United States or (in the case of a public utility or common carrier) for seeking or obtaining an increase in rates.

§ 4001.203 *Unapproved increases excluded from consideration in determining price or rent ceilings.* (a) The Price Administrator shall not take into consideration any unapproved wage or salary increase in determining price or rent ceilings. Whenever there is presented as a basis for an increase in such ceilings an operating or financial statement which reflects, in whole or in part, the results of operations during a period in which an unapproved wage or salary increase was paid, the Price Administrator shall deduct from the costs as shown in the statement the amount of the increase in payroll resulting from the unapproved increase, except to the extent that the employer affirmatively shows that the increase in labor costs attributable to the unapproved increase was less than the increase in payroll.

(b) No seller or landlord may take any unapproved wage or salary increase into consideration in determining his price or rent ceilings.

§ 4001.204 *Unapproved increases excluded as basis for increasing costs to the United States.* No unapproved wage or salary increase shall be used as a basis for increasing costs to the United States. No federal procurement agency shall agree to terminate any contract for the purpose of negotiating a new contract which will take into consideration the cost of an unapproved wage or salary increase. So far as practicable, no federal procurement agency shall take any unapproved wage or salary increase into consideration in negotiating a fixed price contract.

SUBPART C—APPROVAL OF WAGE OR SALARY INCREASES

§ 4001.301 *Wage or salary increases which are approved without further application to wage or salary stabilization agencies.* Except as provided in § 4001.103, any wage or salary increase of a kind described in this section shall be deemed to be approved for the purposes of §§ 4001.101 to 4001.406, inclusive:

(a) Any wage or salary increase lawfully made without specific approval or approved by the appropriate wage or salary stabilization agency before February 14, 1946.

(b) Any wage or salary increase made at any time in accordance with a governmental recommendation in a wage controversy announced before February 14, 1946.

(c) Any wage or salary increase made on or after February 14, 1946, by an employer who at the time the increase was put into effect employed not more than eight employees: *Provided,* That unless expressly extended by announcement of the appropriate wage or salary stabilization agency this exception shall not apply with respect to employees whose wages, hours or working conditions have been established or negotiated on an industry, association, area, or other similar basis by a master contract or by similar or identical contracts: *And provided, further,* That the appropriate wage or salary stabilization agency may make such other exclusions from this exception as it may deem necessary to carry out the purposes of Executive Order 9697.

(d) Any wage or salary increase made on or after February 14, 1946, resulting from the institution of a plan which provides for (1) not more than six paid holidays per year, or (2) extra payments for night work, to the extent that such extra payments do not exceed five cents per hour for work on a second shift or ten cents per hour for work on a third shift, or (3) paid vacations to employees, to the extent that such paid vacations do not exceed one week for any employee having completed one year or more of employment with the employer and two weeks for any employee having completed five or more years of employment with the employer.

(e) Any wage or salary increase made in accordance with the provisions of a regulation or general order issued by the appropriate wage or salary stabilization agency pursuant to § 4001.308.

§ 4001.302 *Wage or salary increases approvable only on application to wage or salary stabilization agency.* A wage or salary increase which does not fall within one of the classes listed in § 4001.301 may be approved only on application to, and decision by, the appropriate wage or salary stabilization agency. Such an increase shall be approved only if the appropriate wage or salary stabilization agency finds that it falls within one or more of the classes of cases described in §§ 4001.303 to 4001.307, inclusive, and only to the extent to which it is found approvable under the terms of those sections. Upon the determination by the appropriate wage or salary stabilization agency that a wage or salary increase is approvable under the terms of the applicable section, the increase shall be deemed to be approved also by the Economic Stabilization Director.

§ 4001.303 *Increases consistent with industry or local area pattern.* The appropriate wage or salary stabilization agency shall approve a wage or salary increase which it finds to be consistent with the general pattern of wage or salary adjustments which has been established in the particular industry, or in the particular industry or related industries within the particular local labor market area, during the period between August 18, 1945, and February 14, 1946.

§ 4001.304 *Increases to correct gross inequities.* In any case in which it finds that no applicable pattern of wage or salary adjustments was established during the period between August 18, 1945, and February 14, 1946, the appropriate wage or salary stabilization agency shall approve a wage or salary increase which it finds is necessary to eliminate a gross inequity between wage rates or salaries in related industries, related plants in the same industry or locality, or related job classifications in the same plant which would interfere with the effective transition to a peacetime economy. In determining whether there exists a gross inequity between related industries, within the meaning of this section, consideration shall be given to the extent to which the take-home pay of the employees in the respective industries has been reduced as a result of the transition to a peacetime economy.

§ 4001.305 *"Cost of living" increases.* In any case in which it finds that no applicable pattern of wage or salary adjustments was established during the period between August 18, 1945, and February 14, 1946, the appropriate wage or salary stabilization agency shall approve a wage or salary increase which it finds necessary to correct a maladjustment which would interfere with the effective transition to a peacetime economy and which is further necessary to make the average increase since January 1, 1941 in wage or salary rates of employees in the appropriate unit equal the percentage increase in the cost of living between January 1941 and September 1945. For the purposes of this section this percentage increase in the cost of living shall be deemed to be 33 percent.

§ 4001.306 *Increases to correct substandards of living.* The appropriate wage or salary stabilization agency shall approve a wage or salary increase which it finds is necessary to correct substandards of living.

§ 4001.307 *Increases falling within standards in effect prior to August 18, 1945.* The appropriate wage or salary stabilization agency may approve any wage or salary increase which it finds falls within one of the standards in effect on August 17, 1945, (except the standards relating to "rare and unusual" cases) under which applications for wage or salary increases were approved.

§ 4001.308 *Issuance of general pattern and other orders.* (a) The appropriate wage or salary stabilization agency shall have authority by regulation or general order to designate particular industries, or particular industries or related industries within a particular local labor market area, with respect to which it finds that a general pattern of wage or salary adjustments has been established, within the meaning of § 4001.303, or that a specified wage or salary level is necessary to eliminate a gross inequity between wage rates or salaries in related industries or in related plants in the same industry or locality, within the meaning of § 4001.304, and to provide that any wage or salary increase conforming to such regulation or general order shall be deemed to be approved.

(b) No wage or salary increase or part thereof which is made by an employer

[1] As hereafter used in §§ 4001.101 to 4001.406, inclusive, the term, "Economic Stabilization Director" includes also the Stabilization Administrator in the case of actions taken between September 20, 1945 and February 25, 1946.

who falls within the terms of a regulation or general order issued pursuant to paragraph (a) of this section and which is in excess of the amount approved by such regulations or order shall be approved under any other provision of this regulation, except §§ 4001.306 or 4001.307, unless the appropriate wage or salary stabilization agency finds, with the approval of the Economic Stabilization Director, that because of special circumstances such approval is necessary to effectuate the purposes of Executive Order 9697.

(c) The appropriate wage or salary stabilization agency may, with the approval of the Economic Stabilization Director, give advance approval by regulation or general order to other classes of wage or salary increases.

§ 4001.309 *Agreements for conditional wage or salary increases.* No wage or salary stabilization agency shall consider or set upon an application for approval of any wage or salary increase which appears to be conditioned in whole or in part upon the granting of an increase in price or rent ceilings. This provision, however, shall not be a bar to consideration of an increase which is conditioned upon approval by the appropriate wage or salary stabilization agency nor of an increase which is not to be put into effect until a determination has been made by the Office of Price Administration as to whether an increase in price or rent ceilings is required.

SUBPART D—EFFECT OF APPROVED WAGE OR SALARY INCREASES

§ 4001.405 *Effect of approved increases in determining price or rent ceilings.* (a) In determining price or rent ceilings, the Price Administrator shall take into consideration, consistently with the provisions and purposes of Executive Order 9697, any wage or salary increase which is approved under the provisions of §§ 4001.101 to 4001.406, inclusive. In so doing, however, the Price Administrator shall exclude from consideration any retroactive part of any such increase—that is, any part paid on account of work done prior to the date when the increase was made, except where, in his judgment, different action is required in order to end a supply emergency with respect to the commodity involved which threatens to interfere with the effective transition to a peacetime economy.

(b) Nothing in §§ 4001.101 to 4001.406, inclusive, shall be construed as directing any increase in price or rent ceilings which is not required under the provisions of an applicable maximum price or rent regulation or under the applicable statutory or administrative standards governing changes in price or rent ceilings, including the standards provided for in section 2 of Executive Order 9697.

§ 4001.402 *Prohibition against adjustment of price or rent ceilings before approved increase has been put into effect or agreed to.* Except to the extent permitted in § 4001.403, the Price Administrator shall not, in the absence of specific approval by the Economic Stabilization Director, authorize any increase in price or rent ceilings or make any commitment to authorize any such increase on the basis of any increase in wages or salaries unless such wage or salary increase has been put into effect or a firm agreement exists to put it into effect. However, in order to expedite adjustment of ceilings after approved increases have been put into effect, the Price Administrator may, while an application for approval of a wage or salary increase is pending, receive applications for increased ceilings based on the wage or salary increase for which approval is being sought.

§ 4001.403 *Industry price increases when some employers in industry have not made wage or salary increases.* In taking action in accordance with the pricing standards of section 2 of Executive Order 9697 or of any orders or directives issued by the Economic Stabilization Director pursuant thereto, the Price Administrator may find it necessary from time to time to arrive at a judgment with respect to the earnings position, over the succeeding 12 months, of an industry in which a part, but not all, of the firms have put approved wage or salary increases into effect or have made firm agreements to do so. In such a case, not only is the Price Administrator authorized to take into account any resulting increase in cost to the firms which have taken such action but, where he finds that such firms constitute a large portion of the industry (ordinarily representing at least one-half the total output) and that like wage or salary increases appear reasonably sure to be made by a large portion of the remaining firms in the near future, he may also take into account the increase in cost which he believes likely to result from those future wage increases, when, in his judgment, to do so would promote effective price administration. Where the Price Administrator finds that a portion of the firms in an industry have taken such action with respect to approved wage or salary increases and additional firms are reasonably certain to do so, but where he cannot make the finding required by the preceding sentence, he may not, without the express approval of the Economic Stabilization Director, take into present account such wage or salary increases as may thereafter be made and approved, but he may make whatever provision apears to him just and practicable (*e. g.*, by establishing two levels of ceiling prices, by authorizing individual adjustments, or by prescribing increase factors) to accord price relief, where needed, to those firms which have put approved wage or salary increases into effect or have made firm agreements to do so and to facilitate the granting of price relief on a like basis to those other firms which may thereafter take such wage or salary action.

§ 4001.404 *Use of estimates as to effect of approved wage or salary increases on costs.* The Price Administrator shall arrive at a judgment as to the effect on costs currently or for the succeeding 12 months of an approved wage or salary increase on the basis of the best data which may be in hand or obtainable from the industry or firm involved within a reasonably short period of time. In so doing, he shall give due consideration to such seasonal, non-recurring, temporary, or otherwise non-representative factors as may be reflected in such data and also to such relevant factors as he may find have been operative since the period covered by the data, or may be operative in the succeeding 12 months, which indicate that the actual cost of the wage or salary increase is then, or over the latter period will be, higher or lower than the estimates of costs which would otherwise be derived from the data. In appropriate cases, the Price Administrator shall provide for the subsequent review of any adjustment in ceilings put into effect in the light of actual experience during a representative period of operations subsequent to the increase.

§ 4001.405 *Effect of approved increases in determining costs to the United States.* In the case of products or services being furnished under contract with a federal procurement agency, such agency may take into consideration, on the same basis as other factors affecting costs, any wage or salary increase which is approved under the provisions of §§ 4001.101 to 4001.406: *Provided, however*, That no wage or salary increase which was made on or before February 13, 1946, and was unapproved on that date shall be a basis for reimbursement under such a contract unless the procurement agency administering the contract finds that reimbursement is necessary to prevent hardship. Nothing in §§ 4001.101 to 4001.406, inclusive, however, shall be construed as authorizing or requiring any increase in costs to the United States which is not required by the applicable procurement contract.

§ 4001.406 *Increased costs to the United States to be limited to employers who have instituted wage or salary increases.* To the fullest practicable extent federal procurement agencies shall provide that no employer shall be eligible for the benefits of any increase in payments by the United States based upon an approved wage or salary increase except to the extent to which he himself has put into effect such wage or salary increase.

Seaplanes will ordinarily approach the area from easterly, landing in the easterly to westerly direction. Prevailing wind at the time of the intended landings will determine the direction of approach.

Whereas, the Congress of the United States has declared it to be a national policy to preserve for the public use historic sites, buildings, and objects of national significance for the inspiration and benefit of the people of the United States; and

Whereas, the Touro Synagogue situated in the city of Newport and State of Rhode Island, has been declared by the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments, to be of national significance as "one of the finest surviving examples of colonial architecture and a building rich in historical associations."

Whereas, a cooperative agreement has been made between the Congregation Shearith Israel, of the city of New York, and the Congregation Jeshuat Israel, of the city of Newport, and the United States of America, providing for the designation, preservation, and use of the Touro Synagogue, Newport, Rhode Island, as a national historic site:

Chapter II—Forest Service

PART 231—GRAZING

LIMITS AND PREFERENCES

By virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat., 35, 16 U.S.C. 551), and the Act of February 1, 1905 (33 Stat., 628, 16 U.S.C. 472), I, Clinton P. Anderson, Secretary of Agriculture, do hereby amend Regulation G–4 of the rules and regulations governing the occupancy, use, protection, and administration of the National Forests, which constitutes § 231.4, Chapter II, Title 36, Code of Federal Regulations, to read as follows:

§ 231.4 *Limits and preferences.* For the purpose of equitable distribution of grazing privileges, the prevention of monopoly in the use of national-forest ranges, and contributing to the stabilization of the livestock industry, the Chief of the Forest Service shall provide for the establishment for each National Forest or portion thereof, of lower and upper limits in numbers of livestock. He shall also provide for the recognition and waiver of preferences, renewal of permits, approval of nonuse, and admission of new applicants, to an extent consistent with the objects of the grazing regulations.

The lower limit will define the number of livestock beyond which a grazing preference will not be allowed to accrue by grant, except when surplus range is available.

The upper limit will define the number of livestock up to which grazing preferences may be consolidated through purchase of base property or permitted livestock or both.

Any grazing preference may be reduced for range protection at any time in any amount justified by range conditions, but, except in extreme emergencies, notice of scheduled reductions will be given not later than the close of the summer grazing season.

No grazing preference for less than the lower limit will be reduced for wider distribution of grazing privileges.

No grazing preferences above the lower limit will be reduced for wider distribution of grazing privileges except in connection with transfer of base property or permitted livestock or both.

Subject to the upper-limit restrictions and the protection and management needs of the range, a purchaser of either the permitted livestock or the base property of a permittee with an established grazing preference may be allowed renewal of preference in whole or in part: *Provided*, the purchaser of livestock only actually owns commensurate ranch property and the person from whom the purchase is made waives his preference to the Government.

Approval of grazing preference on account of purchase of base property or permitted livestock from a permittee who has used the range under temporary permit less than five consecutive years will not be allowed.

Before a grazing preference is renewed on the basis of a waiver, satisfactory evidence must be submitted that the sale of base property or permitted livestock, or both, is bona fide.

The Chief of the Forest Service may authorize the Regional Forester in special cases to suspend the upper-limit restriction against consolidation.

Persons who are full citizens of the United States shall be given preference in the use of national-forest ranges over other persons.

A grazing preference is not a property right. Preference in the use of national-forest range are approved for the exclu-

sive use and benefit of the persons to whom allowed.

Persons who have waived any part of a previously established grazing preference will not be recognized as grantee applicants, or granted any increases where such action would (a) necessitate reduction in any established grazing preference; (b) prevent increase in any preference where the holder owns less than the lower-limit number of livestock; or (c) prevent the admission of new applicants.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 8th day of March 1946.

Secretary of Agriculture.

Said amended plan and the applications and declarations with respect thereto providing, among other things, for the following:

1. Scranton will issue 1,000,000 shares of new no par value common stock, with a stated value of $10,000,000, on the following basis:

(a) Each share of the 39,539 shares of Scranton's $6 preferred stock held by the public, and each of 779 shares of the 979 shares held by Pennsylvania, will be converted into 13½ shares of the new common stock of Scranton, and Scranton will issue 544,293 shares of its new common stock to effectuate this conversion;

(b) Each share of the 12,075 shares of Scranton's $5 preferred stock will be converted into 11.995695 shares of new common stock; a cash adjustment will be made by Scranton in lieu of issuing fractional shares, based upon an assumed equivalent of $13.685 per share; and Scranton will issue 144,845 shares of its new common stock and pay $41.29 cash to effectuate this conversion;

(c) Pennsylvania will be liquidated and dissolved. Each share of the 779 shares of Pennsylvania's $6 preferred stock held by the public will be exchanged directly or indirectly for 13½ shares of Scranton's new common stock. Federal will surrender to Pennsylvania 200 shares of Pennsylvania's $6 preferred stock and all of its common stock, and cancel the debt due from Pennsylvania in the amount of $91,500, and will receive in consideration therefor 200 shares of Scranton's $6 preferred stock and all of Scranton's presently outstanding common stock. Federal will then hold 16,233 shares of Scranton's $6 preferred stock, all of Scranton's presently outstanding common stock and indebtedness of Scranton in the principal amount of $1,446,502.47. All these holdings will be converted into 310,862 shares of new common stock of Scranton;

2. Scranton will issue and sell pursuant to the competitive bidding requirements of Rule U-50 $23,500,000 principal amount of 30-Year First Mortgage Bonds and $10,000,000 par value of Cumulative Preferred Stock, represented by 100,000 shares of the par value of $100 per share, provided that the proposed annual interest charges and preferred dividend requirements on the new securities, adjusted for premiums, if any, received, shall not aggregate more than $1,130,000 (equivalent to annual interest and preferred dividend rates of 3% and 4¼%, respectively); coincident with the issue and sale of said bonds and preferred stock, Scranton will also issue to a bank a two-year 2% note in the principal amount of $1,000,000;

3. If the new securities described in paragraph 2 above are issued and sold, Scranton will use the proceeds thereof, and, to the extent necessary, treasury funds, to retire its presently outstanding mortgage bonds at their respective redemption prices;

4. If the new securities described in paragraph 2 above are issued, Federal will send a notice addressed to all holders of the $6 and $5 Preferred Stock of Scranton and to the holders of the $6 Preferred Stock of Pennsylvania, designating a 15-day period within which they may, if they so desire, sell the new common stock, to be acquired by them, to Federal at $13.685 per share. Federal will purchase all shares so tendered at $13.685 per share within such designated period;

5. The 689,138 shares of new common stock proposed to be allocated to the publicly-held $6 and $5 preferred stocks will, in any event, be distributed to such stockholders upon the surrender of their preferred stock certificates. If the purchase offer described in paragraph 4 above is not made, Federal will not receive the 310,862 shares of new common stock proposed to be allocated to it pending a final determination of the Commission and, if necessary, the United States District Court, as to whether this allocation to Federal is proper or should be modified, and if so the extent of such modification;

6. If the purchase offer described in paragraph 4 above is made, Federal will borrow from two banks a sum not in excess of $6,700,000 upon notes bearing interest at the rate of 2¼%, to mature in one year, with the right of extension for an additional year, and to be secured by the shares of new common stock of Scranton to be acquired by Federal pursuant to the amended plan. Federal proposes to sell such shares of the new common stock of Scranton as may be necessary to provide funds with which to repay the bank loan herein provided, and Federal proposes to sell, or distribute to its stockholders, any remainder of such new common stock of Scranton which Federal may then own; and

7. Scranton will pay such fees and reimburse such expenses incurred or to be incurred in connection with the amended plan, the transactions incident thereto, and the consummation thereof, as are approved, allocated or awarded by order or orders of the Commission.

The applicants having requested that the Commission enter an order finding that the transactions proposed in said amended plan are necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and that said order conform to the requirements specified in sections 371, 372, 373 and 1808 of the Internal Revenue Code, as amended; and

Notice is hereby given that an application, and amendment thereto, have been filed with this Commission, pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935, by American Utilities Service Corporation ("American"), a registered holding company, for an order under said Act finding that American has ceased to be a holding company.

Notice is further given that any interested person may request the Commission in writing, not later than the 25th day of March 1946 at 5:30 p. m., e. s. t., that a hearing be held on such matter stating the reason for such request and the nature of his interest or require that he be notified if the Commission should order a hearing thereon; at any time thereafter such application, as amended, may be granted. FEDERAL COMMUNICATIONS COMMISSION.

KORN, FREMONT, NEBR.[1]

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE

The Commission hereby gives notice that on January 14, 1946, there was filed with it an application (B4–AL–519) for its consent under section 310 (b) of the Communications Act (47 U. S. C. A. 310) to the proposed assignment of license of standard broadcast station KORN, Fremont, Washington, from the Nebraska Broadcasting Corporation to the Inland Broadcasting Company, 2027 Dodge Street, Omaha, Nebraska. The proposal to assign said license is based upon an agreement of November 5, 1945, between the licensee, Nebraska Broadcasting Corporation and Inland Broadcasting Company, pursuant to which the former would sell to the latter all the equipment, property and facilities of KORN for a total purchase price of $20,000, $4,000 of which is to be paid in cash upon signing the agreement; $4,000 by issuance of 40 shares of the common capital stock of purchaser, and the remaining $12,000 by issuance of 120 shares of 4% cumulative preferred capital stock of purchaser.

The agreement specifically provides that it is contingent upon approval by the Commission of application for removal of the station to Lincoln, Nebraska, and the installation in Lincoln, Nebraska, of a station operating on 1400 kc. with 250 watts power, and approval of an application for installation of a station at Fremont, Nebraska, to operate with a power of 100 watts on 1340 kc. The agreement is further contingent upon Commission approval of the arrangements set out in the application, further details as to which may be obtained from an inspection of the papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent detail in cases where a controlling interest is involved. Thereafter on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon and final adoption, such applications would be deferred unless applicants desired to follow the procedure proposed in the WLW decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Pursuant thereto the Commission was advised on February 25, 1946, that notice would be inserted in the "Fremont Tribune" a newspaper of general circulation in Fremont, Nebraska, once a week for three weeks beginning February 26, 1946, of the proposed assignment of the license and acquisition by assignee of the properties of KORN.

In accordance with the procedure proposed in the WLW decision and that announced in the Commission's release no action will be had upon the KORN application for a period of 60 days from February 26, 1946, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contracts.

[Docket No. IT–5519]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREGON-WASHINGTON

ORDER CONFIRMING AND APPROVING RATE SCHEDULES

FEBRUARY 26, 1946.

The Bonneville Power Administrator on January 16, 1945, submitted revised schedules of rates and charges and General Rate Schedule Provisions,[1] and on November 16, 1945, submitted certain modifications thereof for the sale of electric energy produced at the Bonneville Project, for confirmation and approval by the Commission pursuant to the provision of the Bonneville Act (50 Stat. 731).

It appears to the Commission that:

(a) By order adopted December 16, 1941, the Commission confirmed and approved Wholesale Power Rate Schedules A–3 and C–3, Optional Wholesale Power Rate Schedule F–2, Wholesale Energy Rate Schedule H–2, and the General Rate Schedule Provisions pertaining thereto, and by orders adopted March 28 and May 16, 1944, confirmed and approved Wholesale Power Rate Schedule E–2.

(b) On January 16, 1945, the Bonneville Power Administrator filed with the Commission for confirmation and approval a revised set of Rate Schedules, designated as Wholesale Power Rate Schedules A–4,[1] C–4,[1] E–3,[1] F–3,[1] and Wholesale Energy Rate Schedule H–3,[1] and a modification of the General Rate Schedule Provisions, all of which are to cancel and supersede Rate Schedules A–3, C–3, E–2, F–2, and H–2, and the General Rate Schedule Provisions heretofore confirmed and approved by the Commission, as set out in paragraph (a) above.

(c) Notice of the filing of the proposed revised Rate Schedules and General Rate Schedule Provisions was sent to interested State officials and published in the Federal Register on February 6, 1945, following which Pacific Power & Light Company, Northwestern Electric Company, The Washington Water Power Company, Mountain States Power Company, and Puget Sound Power & Light Company filed protests and complaints with respect to these filings by the Administrator.

(d) On July 6, 1945, the Commission ordered a hearing be held in Spokane, Washington, on July 24, 1945, subsequently postponed to August 27, 1945, for the purpose of affording the above-named complainants, and other interested parties, an opportunity to present testimony and information relevant to the Commission's consideration of the proposed Rate Schedules to the extent that they modify existing schedules and the proposed modifications of the General Rate Schedule provisions. Subsequently, on August 22, 1945, the Commission ordered the hearing cancelled upon being notified by the complainants that they would not attend nor present evidence at the hearing, and no other person having requested an opportunity to present testimony or information.

(e) On November 16, 1945, the Administrator filed certain modifications of the proposed Rate Schedule E–3 and the proposed General Rate Schedule Provisions for the purpose of further clarification.

The Commission, having considered the proposed revised Rate Schedules and General Rate Schedule Provisions filed January 16, 1945, as modified on Nov. 16, 1945, and having due regard for the purposes of the Bonneville Act, as set forth therein, finds that:

(1) The proposed Wholesale Power Rate Schedule A–4, which is to supersede Wholesale Power Rate Schedule A–3, retains the basic rate for "at site" power of $14.50 net per year per kilowatt of billing demand, but changes the designation of the service from "prime power" to "firm power" and extends the availability from the "Bonneville Project Power Plant" to include other power plants from which the Administrator may market power.

[1] Filed as part of the original document.

(2) The proposed Wholesale Power Rate Schedule C–4, which is to supersede Wholesale Power Rate Schedule C–3, retains the basic rate for transmission of system power of $17.50 net per year per kilowatt of billing demand, but changes the designation of the service from "prime power" to "firm power" and eliminates the provisions heretofore established for a developmental period.

(3) The proposed Wholesale Power Rate Schedule E–3, which is to supersede Wholesale Power Rate Schedule E–2, retains the basic rate, consisting of a demand charge of 75 cents net per month per kilowatt of billing demand and an energy charge of two mills net per kilowatt-hour for the first 200 kilowatt-hours per kilowatt of billing demand, and one mill net per kilowatt-hour for additional kilowatt-hours, but modifies the determination of billing demand and minimum bill provisions.

(4) The proposed Wholesale Power Rate Schedule F–3, which is to supersede Optional Wholesale Rate Schedule F–2, retains the basic rate, consisting of a demand charge of 75 cents net per month per kilowatt of billing demand and an energy charge of 2.5 mills net per kilowatt-hour for the first 360 kilowatt-hours per kilowatt of billing demand, and one mill net per kilowatt-hour for additional kilowatt-hours, but changes the designation of service from "prime power" to "firm power", eliminates the provisions heretofore established for a developmental period, and clarifies the minimum charge and billing demand provisions.

(5) The proposed Wholesale Energy Rate Schedule H–3, which is to supersede Wholesale Energy Rate Schedule H–2, retains the basic rate for dump energy of two and one-half mills net per kilowatt-hour delivered, but modifies the availability clause to extend the application of the rate to service furnished for experimental purposes and eliminates the power factor adjustment clause.

(6) The proposed modifications of the General Rate Schedule Provisions in substance consist of the addition of a clause pertaining to energy used for experimental purposes consistent with the change in proposed Rate Schedule H–3, revises certain provisions concerning concurrent billing, the definition of "measured demand", the provision with respect to "The Application of Rates During Initial Operating Period," the provisions with respect to energy supplied for emergency and breakdown use, and modifies the "Billing" provision with respect to the delayed payment penalty, and eliminates the definition of "prime power" and substitutes therefor a definition for "firm power."

(7) That the said Wholesale Power Rate Schedules A–4, C–4, E–3, F–3, Wholesale Energy Rate Schedule H–3, and the proposed General Rate Schedule Provisions, filed with the Commission on January 16, 1945, as modified on November 16, 1945, represent a further development of the rate policy of the project heretofore approved, are in keeping with the purposes of the Bonneville Act, and should be confirmed and approved by the Commission.

The Commission orders that:

(a) The proposed Wholesale Power Rate Schedules A–4, C–4, E–3, F–3, Wholesale Energy Rate Schedule H–3, and General Rate Schedule Provisions, filed with the Commission on January 16, 1945, and as modified on November 16, 1945, all being attached hereto and made a part hereof, be and the same are hereby confirmed and approved, to be effective on and after March 1, 1946.

(b) Wholesale Power Rate Schedules A–3 and C–4, Optional Wholesale Power Rate Schedule F–2, Wholesale Energy Rate Schedule H–2, the General Rate Schedule Provisions as confirmed and approved by the Commission December 16, 1941, and the Wholesale Power Rate Schedule E–2 confirmed and approved by the Commission on March 28 and May 16, 1944, are superseded by the Rate Schedules herein confirmed and approved, and on and after March 1, 1946, these Rate Schedules shall no longer be in force and effect.

By the Commission.

[Rev. SO 119, Order 105]

VICTOR ADDING MACHINE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Victor Adding Machine Company of Chicago, Illinois, may compute its adjusted ceiling prices for the adding machines and accessories which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 12.1 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(1) A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to, his supplier.

(2) If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to the seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 8th day of March 1946.

Issued this 8th day of March 1946.

PAUL A. PORTER,
Administrator.

UPHOLSTERED DUAL PURPOSE SLEEPING EQUIPMENT

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered,* That Order No. 1849 under § 1499.159b of Maximum Price Regulation No. 188, be, and the same hereby is, amended in the following respects:

1. Paragraph (e) is amended to read as follows:

(e) *Maximum prices which cannot be established under paragraph (d).* After March 15, 1946, a manufacturer shall not sell, offer to sell, deliver or offer to deliver any article covered by this order for sales of which maximum prices have not been established under paragraph (d) of this order, or under an order of the Office of Price Administration, until he has applied to the Office of Price Administration, Washington, D. C., for the establishment of his maximum prices for such sales, and until such maximum prices have been established by an order of the Office of Price Administration, or the waiting period referred to below has terminated, and the manufacturer has received no notification from the Office of Price Administration. The application shall set forth (unless the information has already been furnished to the Office of Price Administration, in which case the date and the Office to which it was furnished, shall be stated):

(1) The number or trade name of the article to be priced.

(2) The reasons why the article cannot be priced under paragraph (d) of this order.

(3) The detailed specifications and illustration of the article to be priced.

(4) An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately according to his own system of accounts or regularly prepared operating statements all major component unit direct cost factors. For the purpose of this order, unit direct costs include direct labor and direct material costs but do not include factory burden (sometimes called factory overhead or indirect manufacturing expenses), packaging and crating costs, royalties and patterns, tool and die cost and items of administrative, general and selling expenses. Also, the number of units of production upon which the unit direct costs were based.

(5) An itemized breakdown of the manufacturer's current unit direct cost (as described in (4) above) of the basic model in paragraph (d) of this order which is most nearly comparable to the article being priced.

(6) Price lists in effect during March 1942 showing: The article most nearly comparable to the article being priced, with illustrations; the article most nearly comparable to the basic model mentioned in (4) with illustrations; all price differentials covering variations in these constructions. If the manufacturer was not making and selling inner-constructions in March 1942, send the first price list which was in effect after March 1942, together with illustrations.

(7) A statement of the manufacturer's customary discounts, allowances, price differentials and terms of sale to different classes of purchasers in effect for sales of inner-constructions during March 1942; or if the manufacturer was not making and selling inner-constructions during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(8) The proposed maximum prices to each class of purchaser for the article to be priced, and a statement of why the manufacturer believes those prices to be in line with the level of maximum prices established by this order.

Those proposed maximum prices shall be calculated as follows:

Step 1: The manufacturer shall determine the "unit direct cost" for the article being priced.

Step 2: The manufacturer shall select the comparable article for which maximum prices have already been established in paragraph (d), which has a unit direct cost closest to the unit direct cost of the article being priced.

Step 3: The manufacturer shall determine the percentage markup over unit direct cost for the comparable article selected.

Step 4: The manufacturer shall apply to the unit direct cost of the article being priced that percentage markup. The resulting price shall be the f. o. b. factory, l. c. l. maximum prices for sales of the new article to retailers.

In the absence of a contrary direction from the Office of Price Administration within 15 days after mailing his application, the manufacturer may offer the article in question for sale at the proposed maximum prices stated therein. If such proposed maximum prices are correctly computed they shall be subject to adjustment (but not retroactively) at any time by order of the Office of Price Administration if it appears that the maximum prices so established are out of line with the general level of prices established by this order. If the prices are incorrectly computed, the maximum prices for a sale, offer to sell, or delivery of an article made pursuant to the incorrect report shall be the maximum prices which are properly computed under the formula contained in this paragraph.

2. Paragraph (h) is added to read as follows:

(h) *Establishment of maximum prices in certain cases.* If any seller subject to this order fails to make the application for price approval which this order requires in certain instances, the Office of Price Administration may, either upon application, or upon its own motion, issue orders under this paragraph establishing maximum prices which are in line with the level of maximum prices established by this order. Maximum prices, so established, shall be effective as of the date of first sale.

This amendment shall become effective on March 16, 1946.

FOUNTAIN PENS AND MECHANICAL PENCILS

MAXIMUM PRICES FOR SALES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Purpose of this order.* Appendix A of § 1499.166 of Maximum Price Regulation No. 188 lists the categories of articles covered by that regulation. By Amendment No. 74 to Maximum Price Regulation No. 188, effective March 7, 1946, fountain pens, mechanical pencils and fountain pen and mechanical pencil sets were added to the list of articles specified under the category "Unclassified Articles" in Appendix A. Prior to the issuance of that amendment, manufacturers' maximum prices for those articles were purportedly fixed under Maximum Price Regulation No. 188, or under section 5 of Supplementary Order No. 118, because Maximum Price Regulation No. 188 was interpreted as covering those articles even though they were not specifically listed. This order is being issued to establish the prices so fixed for such of those articles as were first offered for delivery prior to March 7, 1946, as the maximum prices for those articles under Maximum Price Regulation No. 188.

(b) *Maximum prices for sales of fountain pens or mechanical pencils first offered for delivery prior to March 7, 1946.* Regardless of any contrary provision contained in Maximum Price Regulation No. 188 or any other regulation, the maximum price for sales by a manufacturer of any fountain pen, mechanical pencil or fountain pen and mechanical pencil set which was first offered for delivery prior to March 7, 1946, shall be the maximum price for that article purportedly established or approved under Maximum Price Regulation No. 188, or under section 5 of Supplementary Order No. 118, prior to the issuance of this order.

Effective date. This order shall become effective March 7, 1946.

[Rev. SO 119, Rev. Order 56]

R. WALLACE AND SONS

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* R. Wallace and Sons, Wallingford, Connecticut may compute its adjusted ceiling prices for all articles of carbon steel and stainless steel flatware, and silver plated flatware which it manufactures, as follows:

(1) For an article of stainless steel flatware or carbon steel flatware which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 14.2 percent. For an article of silver plated flatware which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 18.7 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(4) The manufacturer may not add to the amount of increase permitted by this paragraph for silver plated flatware any adjustment under Revised Order No. 226 under Maximum Price Regulation No. 188 since the increase authorized by this paragraph includes the amount of adjustment permitted by that order.

(b) *Reseller's ceiling prices*—(1) *Articles of carbon steel and stainless steel flatware.* Purchasers for resale of an article of carbon steel or stainless steel flatware which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his increased cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(2) *Articles of silver plated flatware.* A purchaser for resale of silver plated flatware shall determine his maximum price as follows:

(i) If during March 1942 he delivered or offered for delivery an article of silver plated flatware which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, and on which he has established an adjusted maximum price under either Order No. 226 or Revised Order No. 226 under Maximum Price Regulation No. 188 (adjustment on certain articles containing silver) he shall determine his maximum price on an article covered by this order according to the following steps:

Step 1. He shall determine the percentage of markup he has on that comparable article between his actual invoice cost (including the silver adjustment permitted by Order 226 or Revised Order 226) and his maximum price as adjusted under Revised Order No. 226.

Step. 2. He shall apply the markup which he finds in Step 1 above to his actual invoice cost of the article covered by this order. The result is his ceiling price for his sales of that article to the same class of purchaser as that to which the maximum price of the comparable article applied.

(ii) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under this section will reflect the supplier's prices adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify each purchaser in writing of the method of determining adjusted ceiling prices for sales of the articles covered by this order. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 9th day of March 1946.

Issued this 8th day of March 1946.

Administrator.
